people have relied on medicinal products derived from natural sources for millennia and animals have long been an important part of that repertoire nearly all cultures from ancient times to the present have used animals as a source of medicine ingredients derived from wild animals are not only widely used in traditional remedies but are also increasingly valued as raw materials in the preparation of modern medicines regrettably the unsustainable use of plants and animals in traditional medicine is recognized as a threat to wildlife conservation as a result of which discussions concerning the links between traditional medicine and biodiversity are becoming increasingly imperative particularly in view of the fact that folk medicine is the primary source of health care for 80 of the world s population this book discusses the role of animals in traditional folk medicine and its meaning for wildlife conservation we hope to further stimulate further discussions about the use of biodiversity and its implications for wildlife conservation strategies

the middle east command in the second world war covered a vast region stretching across egypt libya malta palestine and transjordan cyprus sudan eritrea most of syria and a small part of iraq and included some forty different languages at one point it also oversaw operations in greece kenya and british somaliland its campaign area ran for a thousand miles from the jordan to the horn of africa initially under the leadership of general sir archibald wavell middle east command s early actions were in contending with the italian forces in libya and italian east africa he was soon distracted by the german invasion of greece and the

subsequent defence of and withdrawal from the island of Crete with his attention turned from North Africa to the German Italian forces in North Africa were able to hold their ground and even receive reinforcements in the form of Rommel's Afrika Korps. Wavell's despatches detail all of these campaigns up to July 1941 when he was superseded by General Claude Auchinleck. The AUK had to deal with the Anglo-Free French invasion of Syria and Lebanon and the nationalist uprising in Iraq. His main concern though was with stopping Rommel's advances through Libya. The Axis forces were eventually held close to the border of Egypt at El Alamein. It was as far as Rommel would go and it marked the end of the long run of Axis successes in North Africa. The despatches presented here form a unique collection of original reports from the commanding officers in this widespread and difficult region. This is the first time these documents have been brought together in a single volume.
