reference is a clear detailed and easy to use resource for a vast array of coins the u s sections begins with early colonial coins and tokens of the 17th and 18th centuries and follows through federal issues from 1791 to date the listings for mexico begin in 1701 while canada s listings begin with its earliest unified coinage in 1858 inside you ll find pricing descriptions and photos for coin issues of the united states canada and mexico a helpful photo grading guide to assist in making informed assessments of coin condition graphs providing historical market performance of significant u s coins expanded pricing to ms65 and au50 values for canadian coin issues for more than two decades north american coins prices has provided unique complete and authoritative information experience for yourself why this exceptional reference is the best guide of its kind on the market trust the experts accurate values complete listings detailed photos you will find that and much more in the 2016 u s coin digest the most comprehensive color guide to all united states coin issues on the market produced by experts who make their living buying and selling u s coins the newest edition of u s coin digest is filled with thousands of photographs researched and vetted coin pricing and critical details for coins from colonial time to today easy to navigate and easy to understand u s coin digest is the perfect resource for the beginner or professional collector inside you will find all u s coin issues real world market values 2 000 color images for easy identification 11 grades of coin condition coinage of colonial america bullion coins territorial gold coins mint and proof sets coins of hawaii philippines and puerto rico errors and varieties a guide to u s coin pricing features up to date values full size illustrations identification tips grading guidelines and collector tips for colonial bullion and territorial coins as well as coins from hawaii the philippines and puerto rico coins give us a sublime and tangible connection to history and an artistic expression of the ideals and values of their periods like art a collector need not attempt a complete collection of denominations and designs a representative example of each of various major design families or individual designs can be quite enjoyable satisfying

and informative this volume with its timeline is targeted to beginning and novice coin collectors to promote the enjoyment and appreciation of us coin design history but hopefully experienced collectors will also gain new insights shows and lists current prices for antique american coins united states modern commemorative five dollar gold coins by kevin dailey first steps are often the hardest but with first steps we begin our journeys of discovery and destiny united states modern commemorative five dollar gold coins is a first step book it is the first and to date only book detailing modern gold commemoratives unlike some other coin programs offered by the united states mint these coins will be collected by future numismatists because they maintain a tradition of collecting that began in the nineteenth century and endures to this day gold commemoratives are like compelling snapshots of this nation's history each piece is unique with an enduring story to tell enduring as the metal they are made of they tell us stories of not only our past but who we are today filled with facts and figures this book will help you decide which path you want to take when collecting these coins and establishing fair market prices so you are never left with the unpleasant sense of feeling like you overspent for a coin beyond the how best to buy is the why to buy yes this book will make you a smarter buyer but it will also make you a smarter numismatist and a more satisfied collector george washington is the most popular subject on coins medals tokens paper money and postage stamps in america attempts to eliminate one dollar bills from circulation replacing them with coins have been unsuccessful americans reluctance to part with their georges are beyond rational considerations but tap into deep felt emotions to discard one dollar bills means discarding the metaphorical father of his country alexander hamilton the nation's first secretary of the treasury said that monetary tokens were vehicles of useful impressions this numismatic history of george washington traces the persistence of his image on american currency these images are mostly from the late 18th century this book also offers a close look at the pictorial tradition in which these images are rooted during ancient times currency took varied

forms including beaver skins bales of tobacco and sea salt blocks as art and technology advanced monetary systems and currencies altered today coins and currency provide an historical and archeological record of culture religion politics and world leaders this updated second edition offers numerous entries of historical commentary on the role of coins and currency in human events politics and the arts it begins with the origin of coins in ancient sumer and follows advancements in metallurgy and minting machines to paper plastic and electronic moneys designed to ease trade and halt counterfeiting and other forms of theft a timeline of monetary history is provided along with a glossary and bibliography numerous photographs of coins and bills provide an up close look at beautiful and ingenious artifacts the coin collectors handbook is by a collector from the perspective of a collector it is what collectors have read or asked about their collections the book does not tell you how to collect or what to collect it is a handbook although you can read the chapters in order each chapter is an individual essay when you want to learn more about that topic pick up the book and read it as needed regardless of what you collect always collect what you like and like what you collect the tenth edition of gold coins of the world expands on its predecessor digging more deeply into new areas of collector interest and expanding many sections from the coins of ancient greece rome and the byzantine empire and from afghanistan through zanzibar it includes the addition of many new discoveries for dozens of countries from the 384 pages of the 1958 edition the work has expanded to 852 pages which have been completely revised and updated the authors have listed more than 22 000 coin types which are illustrated with more than 8 500 photos now for the first time each one of them in color each country s section includes tables of weight and fineness the market valuations are extensively revised to reflect both the higher price of gold as well as the skyrocketing demand for numismatic rarities valuations are now provided for the first time in up to three states of preservation many of the prices especially for great rarities and coins in higher grades have at least doubled in fact as collectors recognize the scarcity of

coins in the highest states of preservation the premium for such coins relative to lower graded ones is escalating beyond traditional proportions the coinage of india and the islamic world long dismissed by western collectors as difficult to decipher unimportant and lacking in value is now the subject of intense interest and has shown some of the most dramatic increases of all the reader will also find a useful directory of the world s leading gold coin dealers and auction houses for the numismatist banker economist historian or institution of higher learning the tenth edition of gold coins of the world is a book for every library public and private fully illustrated catalog and retail valuation list 1616 to date the presence of peace is more than the absence of conflict analyses and evaluations of the state of the international security environment often focus solely on the most concerning developments and tend to fall back on various conflict centric metrics when providing assessments of a given security landscape this chapter entitled the other side of the security coin investigates a number of positive socioeconomic trends occurring on a global level and how they can contribute to sustainable peace in the future improving citizens access to socioeconomic opportunities and livelihood enhancing goods and services is a key factor in increasing the stake that citizens hold in the state of peace in their communities fitting within global trends such as the rise of the platform economy and social media the role of technological and developmental processes improving individual empowerment will become more important for security and defense organizations in the near future as to how we can leverage the dramatic changes ongoing throughout the world to better suit our security objectives remains yet to be seen this study provides a brief overview of these trends and identifies the options for security and defense organizations to remain on top of them this study is part of the 2016 2017 hcsc stratmon progress in optics volume 64 the latest release in a series that presents an overview of the state of the art in optics research in this update readers will find timely chapters on measuring polarization states optics of random media pt symmetries radiation pressure dressed photon science

topological plasmonics and classical entanglement amongst other topics includes contributions from leading authorities in the field of optics presents timely state of the art reviews in the field of optics do you immediately turn to the date on every shiny coin you pick up are you one of the few people who knows when the next new state quarter or presidential dollar is coming out before they hit the bank have you ever wondered why the person in front of you at the bank was buying all those rolls of coins if you answered yes to these and other questions like this in the everything guide you might be a coin collector collecting on a budget will provide you with tips and tidbits to nurture your interest in the type of coins that intrigue you turning your holdings into a safe and potentially valuable investment nolte provides a fun filled journey allowing you to navigate one of the world s most exciting hobbies enter your next bourse feeling like a veteran make your experiences cost cutting time saving doubt erasing resulting in an eye pleasing and fulfilled coin collection the islamic state analyzes the transformation of isis daesh from an underground insurgent organization to a quasi state entity it traces the genesis and evolution of what may be interpreted as a revolutionary war aimed at the creation and expansion of a new society and world order in the ruins of syria and iraq this book analyzes the regime s totalitarian features including structure ideology propaganda and violence examines its ideology with a focus on radical islamism and salafi jihadism studies the economics behind its continued existence and explores the attitude of key state and non state actors especially russia usa and the global coalition towards daesh an indispensable guide to the study of modern terrorism this book will be of great interest to students and researchers of middle east studies terrorism with a focus on isis military and strategic studies politics and international relations as well as general readers this book illustrates how africa s defence and security domains have been radically altered by drastic changes in world politics and local ramifications first the contributions of numerous authors highlight the transnational dimensions of counterterrorism and counterinsurgency in

africa and reveal the roles played by african states and regional organisations in the global war on terror second the volume critically evaluates the emerging regional architectures of countering terrorism insurgency and organised violence on the continent through the african union counterterrorism framework au ctf and regional security complexes rsc third the book sheds light on the counterterrorism and counterinsurgency ct coin structures and mechanisms established by specific african states to contain degrade and eliminate terrorism insurgency and organised violence on the continent particularly the successes constraints and challenges of the emerging ct coin mechanisms finally the volume highlights the entry of non state actors such as civil society volunteer groups private security companies and defence contractors into the theatre of counterterrorism and counterinsurgency in africa through volunteerism community support for state led ct coin operations and civil military cooperation cimic this book will be of use to students and scholars of security studies african studies international relations and terrorism studies and to practitioners of development defence security and strategy this book is the first monograph to provide a multilevel analysis of power dynamics underlying the governance of philanthropic foundations in the authoritarian context of china as a special kind of organization with a democratic culture chinese foundations governance is under more pressure than we realize the government has been evolving its methods to impose stringent control over foundations chapter 3 and purer foundations highly dependent on individual donations are more likely to adopt authoritarian leadership styles rather than being mechanisms spreading democratic values in chinese society chapter 4 however this practice does not come without a price given power s double edge of both enabling and constraining effects although strongman leaders may use their power to get things done their power may also cause the problem of accountability chapter 5 overall chinese society is a stable system with authoritarian power modes this system is not static but in constant flux homogenizing incompatible parts until all units of the system adopt the same power mode this book

establishes a comprehensive and bleak picture of the unfavorable conditions foundations in china face and provides valuable insights to understand the future of the nonprofit sector in china this book will be of interest to students and researchers in the fields of sociology political science and nonprofit studies ngo management it will also be a valuable resource for ngp practitioners this book will challenge the assumption that banks will continue to control payments and the flow of money point to the chinks in their armour and where the opportunities lie examine the technologies and approaches that have begun to disrupt and transform the current model arm you with the knowledge you need to make sense of and navigate this critical industry as it transforms in innovative and valuable ways for the first time in australian financial history this book brings together in one place what is under the hood of the australian payments money and banking systems and is a must read for anyone needing a solid understanding of this critical space told as a story this is an inspiring and captivating treatise on how australia s systems work and where the future lies
