The World Bank Group's Response to the Global Economic Crisis 2011 the world bank group has responded to the global economic crisis with a strong countercyclical expansion of financing its disbursements of 80 billion in the past two fiscal years were the largest among the multilateral development banks there was notable variation across the wbg with vastly increased ibrd lending moderately higher ida financing and overall responses from ifc and miga that were not counter cyclical the differences reflected the interplay of financial capacities business models and available instruments while the level of financial flows is one aspect of crisis response

The World Bank Group's Partnership with the Global Environment Facility 2015-11-18 the world bank group was a principal founding partner of the global environment facility gef in its pilot phase in 1991 and of the restructured gef in 1994 the bank plays three different roles in the gef a as trustee of the gef and related trust funds b as implementing agency including the implementation of private sector gef projects by the international finance corporation ifc

and c as the host organization of the functionally independent gef secretariat focusing primarily on the role of the bank as an implementing agency this review documents how the partnership that the gef and the world bank group established in the early 1990s has evolved over time offers explanations for observed changes and draws a number of lessons the review addresses the following issues the mutual relevance of the world bank group and the gef inter organizational coordination along the world bank group gef project cycle the introduction of the gef s resource allocation systems in 2006 and 2010 the evolution and effectiveness of the bank group s gef portfolio catalytic approaches in the bank group gef partnership co financing blending and mainstreaming the world bank s corporate activities as a gef implementing agency the principal purposes of this review are a to help improve the relevance and effectiveness of the bank group s partnership with the gef and b to draw lessons for the bank group s partnership with the gef and other large global partnership programs

Reinventing the World Bank 2018-08-06 largely ignored for decades the world bank increasingly finds itself at the center of an international political maelstrom attacked by the right as the last bastion of socialism and by the left as an instrument of economic imperialism the bank has struggled to adapt to a changing post cold war era still the world s leading development institution in terms of size and influence the international bank for reconstruction and development s failure to articulate and implement a convincing strategy to reduce world poverty has left it vulnerable to the charge that at least in its present form it has outlived its usefulness in a book neither funded nor controlled by its subject leading north american and british scholars critically examine the world bank they contend that an institution that has grown to unmanageable proportions through internally driven change cannot realistically be expected to effect its own reform program all the bank s previous attempts at self redesign have failed and the contributors argue it is beyond reform it must be reinvented reinvention involves a thoroughgoing and externally controlled process of transformation starting from basic principles and encompassing three closely related dimensions operations or the fit between the bank s lending program and its development objectives concepts its vision of development and anti poverty strategy and power which includes the bank s relationships with member countries and the wider public as well as structures of internal governance and accountability

<u>World Bank Group Support to Public-Private Partnerships</u> 2015-12-01 public private partnerships ppps are long term contracts between a private party and a government agency that strive to

provide a public asset or service in which the private party bears both some risk and some management responsibility if implemented well ppps can help overcome inadequate infrastructure that constrains economic growth particularly in developing countries the use of ppps has increased in the last two decades they are now used in more than 134 developing countries contributing about 15 20 percent of total infrastructure investment the world bank group has expanded its support to ppps through a wide range of instruments and services during the last 10 years its support has increased about threefold to nearly 3 billion per year the independent evaluation group ieg assesses how effective the world bank group has been in helping countries use ppps in the evaluation ieg examines the relevance of bank group support how successful projects were how the bank group coordinated support among its business lines support to the public sector versus the private sector and how it compares with the experience of other multilateral development banks with ppp support ieq distills lessons to apply to the bank group s support of ppps finally ieg presents six recommendations that apply to both the organizational and the operational aspects of this work The World Bank 1982 a careful analysis of the bankas own policy papers and reports which outlines its philosophy of development and the concrete effects of its projects Improving Investment Climates 2006-01-01 this evaluation assesses the effectiveness of the world bank group in helping its member countries improve their investment climates within the context of the world bank group s overall mission of poverty reduction and sustainable development

The World Bank's Country Policy and Institutional Assessment 2010-09-13 the evaluation finds that the content of the world bank s country policy and institutional assessment cpia is largely relevant for growth and poverty reduction in the sense that it maps well with the determinants of growth and poverty reduction identified in the economics literature however some cpia criteria need to be revised in particular trade and finance and one needs to be added assessment of disadvantaged socio economic groups second the evaluation finds that the cpia ratings are in general reliable and correlate well with similar indicators the world bank s internal review process helps guard against potential biases in having bank staff rate countries on which their work programs depend the cpia ratings are found to correlate better with similar indicators for middle income countries than for low income countries this could be because there is more information available on middle income countries which increases the likelihood of different institutions having similar assessments on them this could also be

because the cpia rating exercise takes into account the stage of development which is more pertinent for low income countries and which also subject the ratings of those countries to more judgment in an exercise that is already centered on staff judgment World Bank Atlas 2004-01-01 this is the 36th edition of this publication which gives an overview of key development indicators relating to social economic and environmental data for 208 countries in the form of informative colour maps charts and tables drawing on data from the world development indicators 2004 publication isbn 0821357298 it considers a range of topics including low income countries and inequalities in world output and income distribution population growth and changing demographics the environmental impacts of urbanisation access to basic education maternal health communicable diseases gender and development food security access to safe drinking water and sanitation forests and biodiversity energy use economic growth trade and investment debt management globalisation and service industries good governance and development aid

The World Bank's Partnership with Nongovernmental Organizations 1996 reviews two of the world bank s agricultural development projects in southeast nigeria and concludes that the objectives of these projects which include reducing rural poverty and developing indigenous capacity for rural development have not been fully realized this book concludes that what these projects have achieved in the past was the increasing integration of the peasant s political economy into the world s capitalist market with negative consequences for example the projects emphasis on export crop production as opposed to food production simply led to a diminishing capability among peasant farmers especially in the project areas to produce food for themselves while at the same time reporting increased productivity in export related production the end result is widespread poverty amongst the poorest strata of peasant farmers participating in the program in addition the book looks at the bank s structural adjustment programme which in fact has the potential to reduce whatever benefits its agricultural programs might bring about for peasant producers

Infrastructure at the Crossroads 2006-01-01 this paper reviews the world bank s experience with community participation cp in a sample of its projects selected from three different sectors urban housing population health and nutrition phn and irrigation the sample was chosen on a judgmental basis and consisted of forty projects which were known to have the potential for the use of cp or incorporated it in their strategies and ten successful projects from the same sectors which did not make use of cp the focus of the paper is on the approaches to

participation employed by the first set of projects and the lessons to be learned from their experience an analysis of the second set of projects sheds light on the reasons why community participation was neglected by them
