11th edition by tom kubiszyn and gary d borich serves as an up to date practical reader friendly resource that will help readers navigate today s seemingly ever changing and complex world of educational testing assessment and measurement the 11th edition presents a balanced perspective of educational testing and assessment informed by developments and the ever increasing research base first published in 2004 the terms assessment and testing conjure up all sorts of images in most people s minds rows of desks in quiet halls working to the clock trying to remember the answers to obscure and sometimes irrelevant questions recent invitations to teachers to reflect upon an occasion when they remember being assessed or tested drew up long forgotten memories of the 11 plus or taking a first driving test often these were memories tinged with unhappiness sadness and a feeling of failure assessment for many of us has been an emotional experience and it is not surprising that we should reject facing children with such experiences too early in their lives this book looks at assessment as a positive experience in the primary classroom as a fundamental feature of teaching and successful learning despite the fact that language assessment has become one of the most crucial aspects of language teaching there have been many challenges faced by teachers and language test designers new challenges include online language classroom assessment and language assessment for class teachers who use english as the medium of instruction emi the time of covid 19 pandemic will not stop the increased need for language assessment therefore issues in language testing and assessment are worth to be well documented through academic articles this text offers extensive coverage of psychological tests inventories scales and the methodological advances in constructing administering scoring and interpreting the psychometric instruments the authors of this timely book argue that a fundamentally complex problem how to assess the knowledge of a child cannot be reduced to a simple test score beyond testing describes seven forms of assessment that are more effective than standardized test results 1 student self assessments 2 direct teacher observations of students and their work 3 descriptive reviews of the child 4 reading and math interviews with children 5 portfolios and public defense of student work 6 school reviews and observations by outside professionals and 7 school boards and town meetings these assessments are more honest about what we can and cannot know about children s knowledge skills and dispositions and are more adaptable to varying educational missions readers can compare and contrast each approach and make informed decisions about what is most appropriate for their school many people have wondered if not standardized testing then what here are the answers diane ravitch new york university this is a terrific introduction to alternatives to current assessment practices highly recommended david c berliner regent s professor emeritus at arizona state university and bestselling author all parents educators and politicians
