computer science and engineering to explore the multidimensional nature of the human mind an ode to triangles the shape that makes our lives possible trigonometry is perhaps the most essential concept humans have ever devised the simple yet versatile triangle allows us to record music map the world launch rockets into space and be slightly less bad at pool triangles underpin our day to day lives and civilization as we know it in love triangle matt parker argues we should all show a lot more love for triangles along with all the useful trigonometry and geometry they enable to prove his point he uses triangles to create his own digital avatar survive a harrowing motorcycle ride cut a sandwich fall in love measure tall buildings in a few awkward bounds and make some unusual art along the way he tells extraordinary and entertaining stories of the mathematicians engineers and philosophers starting with pythagoras who dared to take triangles seriously this is the guide you should have had in high school a lively and definitive answer to why do i need to learn about trigonometry parker reveals triangles as the hidden pattern beneath the surface of the contemporary world like love triangles actually are all around and in the air and they re all you need quintessentially fascinating love intrigues and perplexes us and drives much of what we do in life as wary as we may be of its illusions and disappointments many of us fall blindly into its traps and become ensnared time and again deliriously mad excitement turns to disenchantment if not deadening repetition and we wonder how we shall ever break out of this vicious cycle can psychoanalysis with ample assistance from philosophers poets novelists and songwriters give us a new perspective on the wellsprings and course of love can it help us fathom how and why we are often looking for love in all the wrong places and are fundamentally confused about what love really is in this lively and wide ranging exploration of love throughout the ages fink argues that it can taking within his compass a vast array of traditions from antiquity to the courtly love poets christian love and romanticism and providing an in depth examination of freud and lacan on love and libido fink unpacks lacan s paradoxical claim that love is giving what you don t have he shows how the emptiness or lack we feel within ourselves gets covered over or entwined in love and how it is possible and indeed vital to give something to another that we feel we ourselves don t have this first ever commentary on lacan s seminar viii transference provides readers with a clear and systematic introduction to lacan s views on love it will be of great value to students and scholars of psychology and of the humanities generally and to analysts of all persuasions a contemporary shavian manifesto presents an appraisal of george bernard shaw s position on women in his plays the dramatist s unconventional approach itself is praiseworthy as he creates unwomanly women who are deviant and create their own space outside social conventions and practices in creating a counterpoint to the norm shaw succeeds in creating the image of a new woman who is no longer the angel of the house the book explores the ways in which shaw addresses gender inequality in society through an examination of women s role in the social religious moral and economic spheres in addition to studying shaw s exploration of the radical woman this book traces his attempts to project a new woman who is the pursuer rather than being pursued the playwright questions the relegation of woman to the domestic space the arbitrary distribution of duties between men and women and patriarchally determined codes of conduct imposed upon woman his foregrounding of women as the force behind what he calls creative evolution achieves a kind of feminisation of the life force the central theme in his plays if you love someone with all your heart you re the exception in most relationships a third party a person a job or even a memory interferes with the honest open exchange of love love triangles illuminates a long neglected truth about the lies a contemporary shavian manifesto presents an appraisal of george bernard shaw s position on women in his plays the dramatist s unconventional approach itself is praiseworthy as he creates unwomanly women who are deviant and create their own space outside social conventions and practices in creating a counterpoint to the norm shaw succeeds in

creating the image of a new woman who is no longer the angel of the house the book explores the ways in which shaw addresses gender inequality in society through an examination of women s role in the social religious moral and economic spheres in addition to studying shaw s exploration of the radical woman this book traces his attempts to project a new woman who is the pursuer rather than being pursued the playwright questions the relegation of woman to the domestic space the arbitrary distribution of duties between men and women and patriarchally determined codes of conduct imposed upon woman his foregrounding of women as the force behind what he calls creative evolution achieves a kind of feminisation of the life force the central theme in his plays
