Oil Tankers 2013 includes special issues

*Ship - Shore Interface Safe Working Practice for LPG and Liquefied Chemical Gas Cargoes* 1997-01 first published in 1971 these guides provide invaluable information of thousands of maritime ports across the globe they are compiled and published annually by Ir one ocean whose years of global maritime experience allows them to provide expert and innovative solutions to the sector s problems the guides cover a significant geographical breadth and the most recent volume includes information on over 12 500 ports harbours and terminals worldwide these are fully indexed and contain detailed port plans and mooring diagrams

Tanker Management and Self Assessment 2017 first published in 1971 these guides provide invaluable information on thousands of commercial ports and terminals across the globe they are compiled and published annually by Ir oneocean whose years of global maritime experience allows them to provide expert and innovative solutions that enhance efficiency sustainability and overall industry success the guides cover a significant geographical breadth and the most recent volume includes information on over 12 500 ports harbours and terminals worldwide these are fully indexed and contain detailed port plans and mooring diagrams

*A manual for the safe handling of flammable and combustible liquids and other hazardous products* 1976 first published in 1971 these guides provide invaluable information on thousands of commercial ports and terminals across the globe they are compiled and published annually by Ir oneocean whose years of global maritime experience allows them to provide expert and innovative solutions that enhance efficiency sustainability and overall industry success the guides cover a significant geographical breadth and the most recent volume includes information on over 12 500 ports harbours and terminals worldwide these are fully indexed and contain detailed port plans and mooring diagrams

**A Manual for the Safe Handling of Inflammable and Combustible Liquids and Other Hazardous Products** 1975 this course provides training for officers and ratings it comprises a basic training programme appropriate to their duties for liquefied gas tanker safety fire safety measures and cargo systems pollution prevention safe operational practice and obligations under applicable laws and regulations the course takes full account of section a v 1 2 of the stcw code adopted by the international convention on standards of training certification and watchkeeping for seafarers as amended including the manila amendments 2010

Coast Guard Efforts to Prevent Oil Pollution Caused by Tanker Accidents 1977 first published in 1971 these guides provide invaluable information on thousands of commercial ports and terminals across the globe they are compiled and published annually by Ir oneocean whose years of global maritime experience allows them to provide expert and innovative solutions that enhance efficiency sustainability and overall industry success the guides cover a significant geographical breadth and the most recent volume includes information on over 12 500 ports harbours and terminals worldwide these are fully indexed and contain detailed port plans and mooring diagrams

European Model Code of Safe Practice for Dealing with Oil Spills at Sea and on Shore 1974 maritime cargo operations presents the core concepts of cargo work for marine engineering students and cadets it is built around the essential principles of the maritime profession and is a valuable guide to a broad range of key subject areas in the safe carriage handling stowage and securing of cargo and cargo watches in port it contributes to a sound understanding of cargo operations for a future career in the profession as well as offering a general overview for deck officers gives an overview of the key areas in cargo operations work includes structured learning outcomes and self test questions for each subject area to assist readers in evaluating their understanding the book suits merchant navy cadets at higher national certificate hnc and higher national diploma hnd and

foundation degree level in both the deck and engineering branches and also serves as a general reference for maritime professionals

**Shipbuilding and Shipping Record 1972** first published in 1971 these guides provide invaluable information on thousands of commercial ports and terminals across the globe they are compiled and published annually by Ir oneocean whose years of global maritime experience allows them to provide expert and innovative solutions that enhance efficiency sustainability and overall industry success the guides cover a significant geographical breadth and the most recent volume includes information on over 12 500 ports harbours and terminals worldwide these are fully indexed and contain detailed port plans and mooring diagrams

**Shipbuilding & Shipping Record 1958** first published in 1971 these guides provide invaluable information of thousands of maritime ports across the globe they are compiled and published annually by Ir one ocean whose years of global maritime experience allows them to provide expert and innovative solutions to the sector s problems the guides cover a significant geographical breadth and the most recent volume includes information on over 12 500 ports harbours and terminals worldwide these are fully indexed and contain detailed port plans and mooring diagrams

**Tanker Practice 1974** first published in 1971 these guides provide invaluable information on thousands of commercial ports and terminals across the globe they are compiled and published annually by Ir oneocean whose years of global maritime experience allows them to provide expert and innovative solutions that enhance efficiency sustainability and overall industry success the guides cover a significant geographical breadth and the most recent volume includes information on over 12 500 ports harbours and terminals worldwide these are fully indexed and contain detailed port plans and mooring diagrams

**Lloyd's Register OneOcean's Guide to Port Entry 1987-1988 : Nations A - L 1987-01-01** ideal for merchant navy officers from cadet rank to master mariner the fifth edition of this highly respected book is in full colour and has been updated to include more information on topics as diverse as electronic navigation and ais technology whilst still including essential information on subjects such as safety at sea rescue operations watchkeeping duties and pollution control it covers international standards and works well on courses throughout the world seamanship techniques is written for serving mariners and nautical students from cadet to master level studying for professional marine qualifications under the international maritime organization as per stcw requirements used by training establishments around the world this best seller is the only reference to both shipboard practice and ship operations that seafarers will need

**Lloyd's Register OneOcean's Guide to Port Entry 1991-1992 Nations A-L 1991-01-01** first published in 1971 these guides provide invaluable information on thousands of commercial ports and terminals across the globe they are compiled and published annually by Ir oneocean whose years of global maritime experience allows them to provide expert and innovative solutions that enhance efficiency sustainability and overall industry success the guides cover a significant geographical breadth and the most recent volume includes information on over 12 500 ports harbours and terminals worldwide these are fully indexed and contain detailed port plans and mooring diagrams

**Lloyd's Register OneOcean's Guide to Port Entry 1989-1990 Nations A-L 1989-01-01** the importance of international maritime labour law both as a component of ernational maritime law and in socio political and economic terms has been recognised by the imo international maritime law institute for a number of years indeed the institute has annually organised a course on maritime labour law with the participation of inter alia the international maritime organization the ernational labour organization the international transport workers federation and the german shipowners association it was therefore a great pleasure when the

authors invited me to introduce their forthcoming monograph on maritime work law fundamentals responsible s powners reliable seafarers as the title suggests a fundamental challenge of this branch of international maritime law is to achieve a balance between the interests of the two main stakeholders institutionally the effort to achieve this balance dates back a number of decades with its genesis mainly found in the work of the international labour organization it has to be said that whilst this effort achieved great progress it has led to a haphazard plethora of legal instruments

Basic Training for Liquid Gas Tanker Cargo Operations 2014-12-16 managing the ever changing nature and cross disciplinary challenges of the maritime sector demands a complete understanding of the special characteristics of the maritime space the complexity of the operations of ships ports shipping companies and naval and coast guard maritime security operations as well as the economic significance and the in

*Fairplay* 1969 first published in 1971 these guides provide invaluable information of thousands of maritime ports across the globe they are compiled and published annually by Ir one ocean whose years of global maritime experience allows them to provide expert and innovative solutions to the sector s problems the guides cover a significant geographical breadth and the most recent volume includes information on over 12 500 ports harbours and terminals worldwide these are fully indexed and contain detailed port plans and mooring diagrams

The Storage and Handling of Petroleum Liquids 1970 concentrated treatment of all aspects of technology and handling directly related to the products of electrolysis thoroughly up to date and should become the standard reference in its field

Lloyd's Register OneOcean's Guide to Port Entry 1985-1986 1985-01-01 the first summer study at iiasa brought together a cross section of individ uals from different disciplines and nationalities all the participants have had an interest in the role of risk analysis given the institutional arrangements which guide decision making for new technologies this book contains edited versions of the papers presented at the meeting as well as a transcript of the discussions which took place it provides the ingredients for a broader framework fcr studying the problems associated with technology and society where risk is representative of a much wider set of concerns than simply the probability and consequences of a hazardous accident the bundesministerium fuer forschung und technologie has an interest in promoting risk and safety research because of these new developments in society over the past ten years in particular there has been a diminished confidence in experts statements on risk and a realization that many of the events which are being examined are not subject to detailed scientific analysis there has also been an increasing recognition that distinctions must be made between analysis of the risk associated with an event and people s values and preferences another important development is the concern by the public that they participate more fully in the decision process on these issues these concerns were articulated in both the papers and the open discussions at the summer study
