## **Frontiers in Migration Analysis 1981**

this handbook offers a comprehensive collection of essays that cover essential features of geographical mobility from internal migration to international migration to urbanization to the adaptation of migrants in their destinations part i of the collection introduces the range of theoretical perspectives offered by several social science disciplines while also examining the crucial relationship between internal and international migration part ii takes up methods ranging from how migration data are best collected to contemporary techniques for analyzing such data part iii of the handbook contains summaries of present trends across all world regions part iv rounds out the volume with several contributions assessing pressing issues in contemporary policy areas the volume's editor michael j white has spent a career studying the pattern and process of internal and international migration urbanization and population distribution in a wide variety of settings from developing societies to advanced economies in this handbook he brings together contributors from all parts of the world gathering in this one volume both geographical and substantive expertise of the first rank the handbook will be a key reference source for established scholars as well as an invaluable high level introduction to the most relevant topics in the field for emerging scholars

## **International Handbook of Migration and Population Distribution 2015-12-11**

in this guide to the literature on human migration j j mangalam indexes over 2 000 titles that appeared in english from 1955 through 1962 an important feature of this work is the annotation of nearly 400 major articles on migration these annotations provide information on the main focus of the study the hypotheses tested and any special measuring devices employed the conclusions are also given using the authors words whenever possible to facilitate the use of this guide the author has compiled an index that lists not only the subjects treated but also the major variables used in each abstracted study thus the researcher who is interested in the use of certain variables can easily refer to the previous investigation of the influence of these factors upon migration in a comprehensive introduction mangalam surveys the current state of studies of human migration and suggests a theoretical framework by which the vast amount of existing facts from different migration studies can be integrated and given meaning

## **Human Migration 2014-07-15**

the study of migration is and always has been an interdisciplinary field of study vast and vibrant in nature this short introduction to the field written by leading historians of migration for student readers offers an acute analysis of key issues across several disciplines it takes in its scope an overview of migrations through history how classic theories have interpreted such movements and contemporary topics and debates including transnational and transcultural lives access to citizenship and migrant entrepreneurship historical perspectives reveal how the scholarly field emerged and developed over time and across cultures and how historians of migration have recently begun to re write the story of human life on earth throughout the authors suggest how the movements of millions of mobile men and women persistently challenge changing scholarly paradigms for understanding their lives key concepts and theories such as systems networks and gender are explained and historicized to produce a complex picture of the interaction of migrants scholars and disciplinary cultures in a globalized world

## **What is Migration History? 2013-04-22**

on rural urban migration of rural men from bhāgalpur district bihar a study

### **Rural Male Out-migration 2005**

readings in the sociology of migration deals with migration as a sociological problem with greater emphasis on internal migrations than on international migrations some of the problems covered by sociological inquiry in the study of migration are discussed along with theories of migration such as the push pull theory differential migration and motivation for migration this book is comprised of 16 chapters and opens by outlining types of migration according to the professional and social composition of migrants mass migration economic migration from an underdeveloped country economic emigration from an industrial country and immigration into an industrial nation a general typology of migration is then presented before the problem of migration in various countries such as britain france italy spain sweden and the united states is considered the final chapter presents preliminary findings from a demographic and socioeconomic sample survey of the population of the metropolitan area of san salvador el salvador this monograph will be a useful resource for sociologists and policymakers concerned with migration

### ***Impact of Out Migration of Socio-economic Conditions* 1989**

popular notions about migration to the united states from latin america and the caribbean are too often distorted by memories of earlier european migrations and by a tendency to generalize from the more familiar cases of mexico and puerto rico between two islands is an interdisciplinary study of dominican migration challenging many widespread yet erroneous views concerning the socio economic background of new immigrants and the causes and consequences of their move to the united states eschewing monocausal treatments of migration the authors insist that migration is a multifaceted process involving economic political and socio cultural factors to this end they introduce an innovative analytical framework which includes such determinants as the international division of labor state policy in the sending and receiving societies class relations transnational migrant households social networks and gender and generational hierarchies by adopting this multidimensional approach grasmuck and pessar are able to account for many intriguing paradoxes of dominican migration and development of the dominican population in the u s for example why is it that the peak in migration coincided with a boom in dominican economic growth why did most of the immigrants settle in new york city at the precise moment the metropolitan economy was experiencing stagnation and severe unemployment and why do most immigrants claim to have achieved social mobility and middle class standing despite employment in menial blue collar jobs until quite recently studies of international migration have emphasized the male migrant while neglecting the role of women and their experiences grasmuck and pessar s attempt to remedy this uneven perspective results in a better overall understanding of dominican migration for instance they find that with regard to wages and working conditions it is a greater liability to be female than to be without legal status they also show that gender influences attitudes toward settlement return and workplace struggle finally the authors explore some of the paradoxes created by dominican migration the material success achieved by individual migrant households contrasts starkly with increased socio economic inequality in the dominican republic and polarized class relations in the united states this is an exciting and

important work that will appeal to scholars and policymakers interested in immigration ethnic studies and the continual reshaping of urban america

## **Readings in the Sociology of Migration 2016-04-20**

migration a force throughout the world has special meanings in the former soviet lands soviet successor countries each with strong ethnic associations have pushed some racial groups out and pulled others back home forcible relocations of the stalin era were reversed and areas previously closed for security reasons were opened to newcomers these countries represent a fascinating mix of the motivations and achievements of migration in russia and central asia migration homeland and belonging in eurasia examines patterns of migration and sheds new light on government interests migrant motivations historical precedents and community identities the contributors come from a variety of disciplines political science sociology history and geography initial chapters offer overall assessments of contemporary migration debates in the region subsequent chapters feature individual case studies that highlight continuity and change in migration debates in imperial and soviet periods several chapters treat specific topics in central eurasia and the far east such as the movement of ethnic kazakhs from mongolia to kazakhstan and the continuing attractiveness to migrants of supposedly uneconomical cities in siberia

## **Between Two Islands 2023-11-10**

exploring contemporary migration provides the first comprehensive introduction to the various aspects of population migration in both the developed and the developing worlds some of the most important quantitative and qualitative methods used for the description and analysis of migration are presented in a clearly structured and accessible way the various theoretical approaches used to explain the complex patterns of migration are also summarised these patterns are then explored through the use of specific migration related themes employment stage in the life course quality of life societal engineering violence and persecution and the role of culture exploring contemporary migration is written in a user friendly accessible style appealing to undergraduate students of population geography and social science students taking a population module this text will also be valuable reading to those researchers and academics concerned with gaining a broad understanding of the dynamics and patterns of contemporary population

## **Migration, Homeland, and Belonging in Eurasia** **2008-09-09**

professor clark is one of the world s leading scholars on human migration in this volume he concentrates on substantive empirical results generated during the last three decades which document migration patterns he takes a geographical perspective by classifying the literature on migration along a distance biased approach migration is examined within the city across regions and between countries clark supports his theories of migration with examples from many regions of the world

## **Exploring Contemporary Migration 2014-06-11**

this book critically examines the socio economic impacts of out migration on households and gender dynamics in rural northern india the first of its kind this study unearths through detailed regional and demographical research the ways in which economic and migratory

trends of male family members in rural india in general and hilly regions of garhwal in particular affect the wives children extended families and agricultural lands that they have left behind it offers vital research in how rural india s socio economic formations and topographic characteristics can today more effectively contribute to the national and global economy with respect to migratory trends gender dynamics and home life furthermore it investigates the collapse of agricultural and many other traditional economic activities without a corresponding creation of fresh economic opportunities this book moreover elucidates how male out migration from rural to urban centres has greatly re shaped kinship and economic structures at places of origin and has consequently had a serious impact on the socio psychological well being of family members this book will be of great value to scholars and researchers of development economics agricultural economics environment studies sociology social anthropology population studies gender and women s studies social psychology migration and diaspora studies south asian studies and behavioral studies

## **From poverty to complexity? 2020-01-01**

this book explores complex relations between violence historical memory and the production of ethnicity and race some essays analyze the panicked othering that has led to violence against chinese indonesians and to the little known massacres of hui muslims in nineteenth century china and of cheju islanders in korea in 1948

## **The Geographical Impact of Migration 1980**

originally published in 1992 this text considers out migration from the caribbean in an analytical manner its comparative approach involving three islands jamaica barbados and st vincent and the range of micro environments within those islands is based on data from extensive surveys and in depth interviews analysis of the migration process reflects the perspective of caribbean potential migrants themselves

## **Selected Studies of Migration Since World War II 1958**

from the seventeenth century to the current day more than 2 5 million scots have sought new lives elsewhere this book of essays from established and emerging scholars examines the impact since 1600 of out migration from scotland on the homeland the migrants and the destinations in which they settled and their descendants and affinity scots it does so through a focus on the under researched themes of slavery cross cultural encounters economics war tourism and the modern diaspora since 1945 it spans diverse destinations including europe the usa canada new zealand australia south africa ceylon now sri lanka hong kong guyana and the british world more broadly a key objective is to consider whether the scottish factor mattered

## **Modeling Out-migration from Depressed Regions 1979**

at the end of the 20th century nearly all developed nations have become countries of immigration absorbing growing numbers of immigrants not only from developed regions but increasingly from developing nations of the third world although international migration has come to play a central role in the social economic and demographic dynamics of both immigrant sending and immigrant receiving countries social scientist have been slow to construct a comprehensive theory to explain it efforts at theoretical explanation have been

fragmented by disciplinary geographic and methodological boundaries worlds in motion seeks to overcome these schisms to create a comprehensive theory of international migration for the next century after explicating the various propositions and hypotheses of current theories and identifying areas of complementarity and conflict the authors review empirical research emanating from each of the world's principal international migration systems north america western europe the gulf asia and the pacific and the southern cone of south america using data from the 1980s levels and patterns of migration within each system are described to define their structure and organization specific studies are then comprehensively surveyed to evaluate the fundamental propositions of neoclassical economics the new economics of labour migration segmented labour market theory world systems theory social capital theory and the theory of cumulative causation the various theories are also tested by applying them to the relationship between international migration and economic development although certain theories seem to function more effectively in certain systems all contain elements of truth supported by empirical research the task of the theorist is thus to identify which theories are most effective in accounting for international migration in the world today and what regional and national circumstances lead to a predominance of one theoretical mechanism over another the book concludes by offering an empirically grounded theoretical synthesis to serve as a guide for researchers and policy makers in the 21st century

## **Human Migration 1986-02**

argues that policies should aim to support migration and recognize the centrality of migration for the households livelihoods based on a description of the complex composition of migration streams the effects of migration and the idea of migration as a social process

## ***Migration, Gender and Home Economics in Rural North India 2019-10-21***

what are the effects of immigration on the sending country studies suggest that emigration has a positive effect

## **Traces 2 2001-01-01**

this accessible and topical book offers insights to policy makers in both industrialized and developing countries as well as to scholars and researchers of economics development international relations and to specialists in migration book jacket

## **Transfers from International Migration 2012**

this book analyzes the impact of thirty years of labor migration from the mediterranean region and from finland to western and northern continental europe the authors consider the effects on the host countries of the role foreign migrants play in host countries economies the formation of new ethnic communities choices made concerning the education

## ***Caribbean Migration 2002***

the hill regions of uttar pradesh have for decades been marked by a substantive out migration this study of the economic backwardness of the region focuses on out migration

and associated capital flows through an analysis of data the sample survey of villages in different regions of the uttar pradesh hills coupled with detailed interviews with the migrants in both their original settings and current location helps provide new insights into the causes patterns and implications of the migration phenomenon r s bora studies the impact of out migration on land and labour productivity income distribution through transfer income and on the shifting pattern of work burdens between the sexes

## **Economic Development and International Migration in Comparative Perspective 1989**

out migration driven by high unemployment and a floundering economy has been a defining aspect of newfoundland society for well over a century and it reached new heights with the cod moratorium in 1992 this newfoundland diaspora has had a profound impact on the province s literature many writers and scholars have referred to newfoundland out migration as a diaspora but few have examined the theoretical implications of applying this contested term to a predominantly inter provincial movement of mainly white economically motivated migrants the newfoundland diaspora argues that diaspora helpfully references the painful displacement of a group whose members continue to identify with each other and with the homeland it examines important literary works of the newfoundland diaspora including the poetry of e j pratt the drama of david french the fiction of donna morrissey and wayne johnston and the memoirs of david macfarlane these works are the sites of a broad inquiry into the theoretical flashpoints of affect diasporic authenticity nationalism race and ethnicity the literature of the newfoundland diaspora both contributes to and responds to critical movements in canadian literature and culture querying the place of regional national and ethnic affiliations in a literature drawn along the borders of the nation state this diaspora plays a part in defining canada even as it looks beyond the borders of canada as a literary community

## **Women in Migration 1979**

new directions in urban rural migration the population turnaround in rural america covers a wide ranging treatment of urban rural migration and population growth in contemporary america the book discusses the national and regional changes in internal migration and population distribution the regional diversity and complexity of economic structure in modern day rural america and the reasons for the gap or lag between changed conditions and unchanged policy the text also describes the turnaround s implications for new models of migration the economic framework for the turnaround and the traditional concept of the migrant as labor and the structural conditions within and between areas that fix the demand for labor migration trends and consequences in rapidly growing areas as well as data resources for population distribution research are also considered sociologists and people involved in studying migration will find the book invaluable

## **Global Migrations 2016-05-31**

return to aztlán analyzes the social process of international migration through an intensive study of four carefully chosen mexican communities the book combines historical anthropological and survey data to construct a vivid and comprehensive picture of the social dynamics of contemporary mexican migration to the united states

## **Worlds in Motion : Understanding International Migration at the End of the Millennium 1999-01-28**

the displacement of 25 million ethnic russians from the newly independent states is a major social and political consequence of the collapse of the former soviet union pilkington engages with the perspectives of officialdom of those returning to their ethnic homeland and of the receiving populations she examines the policy and the practice of the russian migration regime before looking at the social and cultural adaptation for refugees and forced migrants her work illuminates wider contemporary debates about identity and migration

## **Migrants, Livelihoods and Rights 2000**

nepal has a long history of irrigation including government and farmer managed irrigation systems that are labor and skill intensive widespread male migration has important effects on nepalese society how institutions such as water users associations wuas respond and adapt is therefore critical to the understanding of rural transformation and the likely impact on gender equality food production and rural livelihoods this paper examines the effects of male migration on institutional change in wuas women s roles technological change and outcomes affecting effectiveness of irrigation systems based on a mixed methods study combining a phone survey of 336 wua leaders from all provinces in nepal with qualitative data from case studies in 10 irrigation systems results indicate wuas have adapted rules to increase women s participation and monetize the contributions for maintenance women exercise agency in whether and how to interact with wuas mechanization has reduced the need for some male labor though the ability to mechanize is limited by hilly terrain and small plot sizes overall systems are adapting to male migration with relatively low idling of land or labor shortages causing deterioration of the systems though there are concerns with the high levels of women s labor burdens

## **Emigration and Its Effects on the Sending Country 1994**

all contributions to this book to this volume describe women as social actors within specific migration processes and point out women s creativity in shaping migrant settings this perspective counter balances common descriptions of women as more or less invisible and dependent of male migration at the same time the anthropological approach ensures the careful consideration and analysis of the culturally specific contexts within which the different processes of migration are taking place regional and cultural diversity of the data presented renders possible intercultural comparison of the investigated phenomena

## ***International Migration and Economic Development 2005-01-01***

the recent unprecedented scale of chinese migration has had far reaching consequences within china many villages have been drained of their young and most able workers cities have been swamped by the floating population and many rural migrants have been unable to integrate into urban society internationally the chinese have become increasingly more mobile this handbook provides a unique collection of new and original research on internal and international chinese migration and its effects on the sense of belonging of migrants
