The American and English Railroad Cases 1895

the new york times bestselling author of witnessed intruders and missing time three groundbreaking books on the ufo phenomenon returns with astonishing evidence that other worldly beings are a very real and growing part of our lives in sight unseen budd hopkins and coauthor carol rainey show how fascinating discoveries in modern science support the plausibility of the ufo phenomenon featuring sixteen never before published cases sight unseen probes two newly uncovered patterns in alien abduction cases of ufo invisibility and reports of genetically altered alien beings who interact with humans during their routine lives the invisibility accounts detailed by hopkins include numerous daylight abductions in densely populated urban areas all apparently unseen and accomplished through a technology of invisibility two air force non coms are snatched from the tarmac of a busy military airfield an australian family is levitated up into a hovering craft while the father remains paralyzed on the ground with a camera to his eye the resulting evidence on film is discussed in terms of our own scientific advances in the second series of cases abductees report encounters with beings who appear human but apparently possess paranormal powers and stunted emotional ranges three young women unknown to each other are mysteriously summoned to job interviews in ordinary office settings they encounter human looking beings who lead them into baffling ufo abduction experiences a wisconsin farmer meets damoe a man with odd behavior who closely resembles his son damoe eventually reveals himself as an accomplice of ufo occupants in a startling abduction of the farmer and his wife five year old jen is abducted at night to a nearby playground there she must teach the techniques and skills of play to twelve seemingly identical quasi human children along with these bizarre first person stories told by credible people hopkins and rainey explore cutting edge advances in our own technologies and scientific theories that show how these new ufo patterns could have a concrete basis in contemporary science included are an examination of cloaking devices for aircraft mind control technologies and teleportation achieved in the lab perhaps the most compelling argument to support these cases lies in the startling and controversial new science of transgenics that actually allows for the creation of alien human beings

National Bureau of Standards Circular 1985

the papers collected in this volume including a comprehensive introduction investigate semantic and discourse related aspects of subordination and coordination in particular the relationship between subordination coordination at the sentence level and subordination coordination or hierarchical non hierarchical organization at the discourse level the contributions in part i are concerned with central theoretical questions part ii consists of corpus based cross linguistic studies of clause combining and discourse structure involving at least two of the languages english german dutch french and norwegian part iii contains papers addressing specific predominantly semantic topics relating to german english or french and the papers in part iv approach the topic of subordination coordination and rhetorical relations from a diachronic old indic and early germanic perspective the book aims to contribute to a better understanding of information packaging on the sentence and text level related within a particular language as well as cross linguistically

Color 1976

in 1983 a few miles north of new york city hundreds of people were startled to see a ufo a series of flashing lights that formed a v as big as a football field moving slowly and silently this text explores all the evidence and over 7000 sightings including those recorded up to 1995

Sight Unseen 2003-09-23
