stories set in a variety of futures from the award winning heir of arthur c clarke traces gives a kaleidoscopic vision of the possibilities for humankind

## **World Engines: Destroyer**

2019-09-19

in the year 2570 a sleeper will wake in the mid 21st century the kernel a strange object on a five hundred year orbit is detected coming from high above the plane of the solar system could it be an alien artefact in the middle of climate change crises there is no mood for space exploration stunts but reid malenfant elderly once a shuttle pilot and frustrated would be asteroid miner decides to go take a look anyway nothing more is heard of him but his ex wife emma stoney sets up a trust fund to search for him the next time the kernel returns by 2570 earth is transformed a mere billion people are supported by advanced technology on a world that is almost indistinguishable from the natural with recovered forests oceans ice caps it is not an age for expansion there are only small science bases beyond the earth but this is a world you would want to live in a star trek without the stars after 500 years the kernel returns and a descendant of stoney who malenfant will call emma ii mounts a mission to see what became of malenfant she finds him still alive cryo preserved his culture shock encounter with a conservative future is entertaining but the kernel itself turns out to be attached to a kind of wormhole through which malenfant and emma ii exploring further plummet back in time across five billion years

## ***Emperor***

2010-05-27

a woman gives birth to her child in a village in northern england the cold

northern edge of the roman empire as she struggles through a painful labour she begins to scream out a series of words in latin a language she has never heard before much less spoken one of the family recognises the words for what they are only later does it become clear that the woman has spoken a prophecy a prophecy that relates to the death of the emperor constantine a prophecy that if enacted will change the fate of the roman empire and all of the future beyond it stephen baxter's new series takes ordinary individuals living at history's tipping points and presents them with a prophecy that challenges everything they believe about their world and prompts them to take action that could change it forever the fourth volume reveals the nature of the prophecies and reveals a battle that has been fought through the ages

## **Weaver**

2009-09-24

stephen baxter's superb historical thriller series tips over into alternate history as the germans invade britain in 1940 the weaver of time's tapestry has finally succeeded in twisting the threads of history into a new shape the luftwaffe have pushed the raf to the brink and the invasion barges have reached the beaches of sussex and kent britain wakes up to the nightmare of the wermacht unleashed in southern england as the desperate battle to hold up the invasion rages it is left to a few individuals caught up in the panic and chaos to piece together what has really happened is this the culmination of a plan that has taken centuries to play out a plot from the future to change the past forever stephen baxter's historical thriller series crashes into the 20th century with a terrifying vision of mechanised war and political atrocity unleashed on english soil this is the climax of one of the most thoughtful and involving series of novels that have brought history alive like no other

## **Evolution**

2010-05-27

from their beginnings foraging at the feet of the dinosaurs through the

apocalypse of an asteroid strike through countless years of the day to day life and death dramas of survival of the fittest to the rise and fall of mankind and the final destruction of earth by the expanding sun the primates have survived this is their story evolution follows the ebb and flow of the fortunes of one group of creatures as they change and adapt to their world somewhere on the horn of africa it turns the story of darwinian evolution into a constant drama a daily life and death struggle a heroic story of life s endurance it is a story that transcends generations species mankind and in the end the earth itself in the tradition of olaf stapledon and hg wells

## **Alternate Histories**

2013-11-21

here collected for the first time in ebook form are seven of stephen baxter s most remarkable and enjoyable novels all dealing with alternate histories in the time s tapestry series containing the novels emperor conqueror navigator and weaver we see a series of different versions of our own world s history constantly changing and being altered covering the time from the roman occupation of britain through to the german invasion of 1940 this series explains why our history is the way it is and what might have happened differently in the northland trilogy stone spring bronze summer iron winter baxter explores an alternative creation of the british landscape following a stone age tribe from the now flooded land bridge that once connected great britain and europe in their frantic attempts to hold back the rising seas the people of northland will discover new techniques and technologies discoveries that will change the course of human civilisation

## **Bronze Summer**

2011-09-15

centuries have passed the wall that ana s people built has long outlasted her and history has been changed the british isles are still one with the european mainland and doggerland has become a vibrant and rich land

so rich that it has drawn the attention of the greeks an invasion is mounted and soon greek biremes are grinding ashore on a coastline we never knew and the world will be changed for ever stephen baxter s new series catapults forward from pre history into the ancient world and charts a new and wonderful story for our world this is a superb example of baxter s belief that anything is possible for mankind even making a new world

## ***Time***

2012-06-28

2010 more than a century of ecological damage industrial and technological expansion and unchecked population growth has left the earth on the brink of devastation

## **Conqueror**

2010-06-03

it begins with the death of the last roman and ends with the crowning of a king the birth of a new order as the centuries between these two events pass as britain emerges from the ruins of roman rule to become a vibrant rich power in its own right as invasions ebb and flow and kings rule and die a single thread is spun and stretched a prophecy found in the shadow of hadrian s crumbling wall a prophecy preserved by the monks at lindisfarne a prophecy remembered a prophecy handed down a prophecy that speaks of the cross of dragons from the north of a new world and of a new empire a prophecy fulfilled in one remarkable year 1066 conqueror is a fast moving historical thriller that casts a bright light onto a shadowy period of british history and brings it to vibrant life steeped in blood and violence this was also a time of artistic endeavour a time of nation building and law giving and it is a time of chance where history can be shaped by the weaver

# ***Navigator***

2010-05-27

stephen baxter s new series is full of page turning action intriguing mystery and awe inspiring scientific speculation full of evocative historical detail and characters who jump of the page this is history lived by people whose future is not yet locked as our past navigator is the third of the series and delves deep into the discovery of america

# ***Creation Node***

2023-09-21

in the year 2255 of all the sentient beings in her universe it was a woman named salma twenty years old who was the first fully to see the object called planet nine see with her own eyes albeit moderated by her ship s instruments if not to recognise what it was not yet not that the object turned out to be a planet or the ninth of anything briefly thought to be a black hole it suddenly changes expands and sends a message there is something waiting on its service something not quite human as the ramifications of this event spread across the fracturing elements of humanity it is clear that the small crew on the spot are at the centre of the most dramatic discovery in history but theirs is not the only inexplicable event happening impossibly at exactly the same moment a quasar appeared twenty five thousand light years away and now is heating up the solar system if the enigma of the creation node is not solved quickly there may be no one left to investigate it

# ***Obelisk***

2016-08-18

a remarkable collection of short fiction from one of our greatest sf authors including two brand new short stories this collection contains stories set in the universe of the bestselling duology proxima and ultima which expand on the characters and worlds of that series there are also a

selection of alternate histories and possible futures echoing baxter's work with terry pratchett on the long earth series confirms stephen baxter's place as one of the greatest practitioners of the sf short story

## **The Massacre of Mankind**

2017-01-19

it has been 14 years since the martians invaded england the world has moved on always watching the skies but content that we know how to defeat the martian menace machinery looted from the abandoned capsules and war machines has led to technological leaps forward the martians are vulnerable to earth germs the army is prepared so when the signs of launches on mars are seen there seems little reason to worry unless you listen to one man walter jenkins the narrator of wells book he is sure that the martians have learned adapted understood their defeat he is right thrust into the chaos of a new invasion a journalist sister in law to walter jenkins must survive escape and report on the war the massacre of mankind has begun

## ***Stone Spring***

2012-11-06

praised as one of the most inventive writers that science fiction has ever produced sf site national bestselling author stephen baxter presents a new saga of a world that could have become our own ten thousand years ago a vast and fertile plain existed that linked the british isles to europe home to a tribe of simple hunter gatherers northland teems with nature's bounty but is also subject to its whims fourteen year old ana calls northland home but her world is changing the air is warming the ice is melting and the seas are rising one day ana meets a traveler from a far distant city called jericho a town that is protected by a wall and she starts to imagine the impossible

# **Raft**

2013-01-24

stephen baxter s highly acclaimed first novel and the beginning of his stunning xeelee sequence finally enters the sf masterwork series a spaceship from earth accidentally crossed through a hole in space time to a universe where the force of gravity is one billion times as strong as the gravity we know somehow the crew survived aided by the fact that they emerged into a cloud of gas surrounding a black hole which provided a breathable atmosphere five hundred years later their descendants still struggle for existence divided into two main groups the miners live on the belt a ramshackle ring of dwellings orbiting the core of a dead star which they excavate for raw materials these can be traded for food from the raft a structure built from the wreckage of the ship on which a small group of scientists preserve the ancient knowledge which makes survival possible rees is a miner whose curiosity about his world makes him stow away on a flying tree just one of the many strange local lifeforms carrying trade between the belt and the raft and what he finds will change his world

# ***Transcendent***

2010-05-27

baxter s ability to combine wildly divergent narrative threads has become a trademark of his writing and has been seen to its best effect in the previous two novels from this sequence transcendent with its melding of a near future narrative that carries a terrible warning about the post oil and post global warming world and a narrative thread that tours the fantastically varied diverse species that mankind has become in the impossibly distant future is an example of baxter at his best at once a cautionary tale of what we are capable of destroying and a celebration of what we could become this is the capstone to baxter s best series to date in transcendent we find out what happened to the children of the poole brothers from coalescent and what will happen to mankind

# Ring

1996

wormhole technology has revealed that our sun will die in 5 000 000 years a race of superbeings the fabulous xeelee owners of the universe are thought to be responsible the bizarre and wealthy cult the superet funds two projects aimed at combatting the force that will murder the sun

# Iron Winter

2012-08-16

the final volume in the millennia spanning trilogy about an england with a very different history to our own many generations ago the wall was first built to hold back the sea northland a country of fertile plains and ancient forests rescued from the ocean has become a thriving civilisation based on trade technology and tradition centred on the ancient home of the first builders etxelur the whole of europe spanned by the northlanders steam caravan lines has been changed in ways that could never have been predicted but nothing can last forever not even the wall the weather is changing growing colder and in the wake of the long winters come famine destruction and terror and as whole nations are forced out of their lands and head for warmer climes it seems that even northland may not be able to endure

# Flood

2009-07-23

from terry pratchett s co author on the long earth books comes the ultimate disaster novel the world is drowning and there is nowhere left on earth to go next year sea levels begin to rise the change is far more rapid than any climate change predictions metres a year within two years london only 15 metres above the sea is drowned new york follows the pope gives his last address from the vatican mecca disappears beneath

the waves where is all the water coming from scientists estimate that the earth was formed with seas 30 times in volume their current levels most of that water was burnt off by the sun but some was locked in the earth's mantle for the tip of everest to disappear beneath the waters would require the seas to triple their volume that amount of water is still much less than 1 of the earth's volume and somehow it is being released the world is drowning the biblical flood has returned and the rate of increase is building all the time mankind is on the run heading for high ground nuclear submarines prowl through clouds of corpses rising from drowned cities populations are decimated and finally the dreadful truth is known before 50 years have passed there will be nowhere left to run flood tells the story of mankind's final years on earth the stories of a small group of people caught up in the struggle to survive are woven into a tale of unimaginable global disaster and the hope offered for a unlucky few by a second great ark

## **Origin**

2012-06-28

2015 astronaut reid malenfant is flying over the african continent intent on examining a mysterious glowing construct in earth's orbit

## **Voyage**

1997

8 000 years ago europe was a very different place england was linked to holland by a massive swathe of land where the north sea is now lay the landmass of northland and then came a period of global warming a shifting of continents and over a few short years the sea rushed in and our history was set but what if the sea had been kept at bay brythony is a young girl who lives in northland like all her people she is a hunter gatherer her simple tools fashioned from flint cutting edges lodged in wood and animal bone when the sea first encroaches on her land her people simply move brythony moves further travelling to asia where she sees mankind's first walled cities and gets an idea what if you could build

a wall to keep the sea out and so begins a colossal engineering project that will take decades a wall that stretches for hundreds of miles a wall that becomes an act of defiance and containing the bones of the dead an act of devotion a wall that will change the geography of the world and its history stephen baxter has become expert at embedding human stories into the grandest sweeps of history and the most mind blowing of concepts stone spring begins a trilogy that will tell the story of a changed world it begins in 8 000 bc with an idea and ends in 1500 in a world that never saw the roman empire christianity or islam it is an eye opening look at what history could so easily have been and an inspiring tale of how we control our future

## **Stone Spring**

2010

star humans were engineered to exist within the mantle of a star mere tools of their earth evolved makers in a war against the xeelee owners of the universe stephen baxter s third novel in his magnificent xeelee sequence is an exotic and endearing story of an abandoned people abandoned to their fate their history lost along with contact with their makers star people survive in an environment that is possibly the strangest in science fiction microscopic inhabitants of superfluid air above a quantum sea and below the tangled crust of the star swimming in an electric blue grid the magfield which is subject to violent storms star people struggle like us to make sense of their world and the threat hanging over it though the truth is far more disturbing and ominous than they feared they will confront finally their makers and they will rebel against the purpose for which they were created

## **Flux**

2013-01-24

detailed research empathy with his characters an ecological perspective and his trademark flare for epic narrative sweep make baxter s mammoth series very much key works in his canon icebones takes the

action to a stunningly realised partially terraformed mars in the far future and sees the epic mammoth story cycle come to fruition

## **Icebones**

2015-10-15

lean taut storytelling breakneck stuff arguably his most accessible book to date baxter is resplendent sfx magazine when his father dies suddenly george poole stumbles onto a family secret he has a twin sister he never knew existed who was raised by an enigmatic cult called the order the order is a hive a human hive with a dominant queen that has prospered below the streets of rome for almost two millennia after poole enters the order s vast underground city and meets the disturbing inhabitants he uncovers evidence that they have embarked on a divergent evolutionary path these genetically superior humans are equipped with the tools necessary to render modern homo sapiens as extinct as the neanderthals and now they are preparing to leave their underground realm excels at both action packed storytelling and philosophical speculation library journal utterly fascinating constantly surprising coalescent reveals a new side to baxter s vast talent locus

## ***Coalescent***

2003-11-18

the wheel a ring of ice and steel around a moon of saturn and home to a mining colony supplying earth itâe tm s a bad place to grow up the colony has been plagued by problems and there are stories of mysterious creatures glimpsed aboard the wheel many of the younger workers refuse to go down the warren like mines anymore and then young phoebe laws surfing saturnâe tm s rings saves an enigmatic blue box from destruction aboard the wheel the doctor jamie and zoe find themselves caught in a mystery that goes right back to the creation of the solar system a mystery that could kill them all

# **Doctor Who: the Wheel of Ice**

2012

discovering a new element anti ice a mysterious substance that unleashes vast energies when warmed a millionaire industrialist dreams of power from an item that promises world peace or world destruction original

## ***Anti-ice***

1994-10-16

titan is the epic saga of one woman s will to succeed and the triumph of a dream over bureaucracy and fear paula benacerraf grandmother and astronaut is appointed to oversee the dismantling of the shuttle fleet after another challenger type disaster instead she listens to the oddball jpl scientist rosenberg who is determined to explore the ammonia based life cassini discovers on titan using nasa s rusting saturn rockets mothballed apollo s and remaining shuttles frail humans are hurled in the face of violent opposition from the military to the edge of the solar system to the edge also of sanity

## ***Titan***

2015-12-14

stephen baxter breaks genre boundaries and brings his unique imagination epic scope and elegant style to an anthropomorphic fantasy starting with the story of a young female mammoth and the struggle her herd has to survive into the present day on a remote siberian island the mammoth trilogy encompasses thousands of millions of years the geological and climatic history of earth and a vision of a startling future all via an astounding evocation of mammoth life biology intelligence culture myth and legend it is a triumph of imaginative story telling

# **Silverhair**

2015-10-15

from acclaimed authors terry prattchet and stephen baxter comes the last novel in the bestselling long earth series 2070 71 nearly six decades after step day and in the long earth the new next post human society continues to evolve for joshua valienté now in his late sixties it is time to take one last solo journey into the high meggers an adventure that turns into a disaster alone and facing death his only hope of salvation lies with a group of trolls but as joshua confronts his mortality the long earth receives a signal from the stars a signal that is picked up by radio astronomers but also in more abstract ways by the trolls and by the great traversers its message is simple but its implications are enormous join us the super smart next realise that the message contains instructions on how to develop an immense artificial intelligence but to build it they have to seek help from throughout the industrious worlds of mankind bit by bit byte by byte they assemble a computer the size of a continent a device that will alter the long earth s place within the cosmos and reveal the ultimate life affirming goal of those who sent the message its impact will be felt by and resonate with all mankind and other species young and old communities and individuals who inhabit the long earths

# **The Long Cosmos**

2016-06-30

and everywhere the humans went they found life this dazzling future history winner of the 2000 philip k dick award is the most ambitious and exciting since asimov s classic foundation saga it tells the story of humankind all the way to the end of the universe itself here in luminous and vivid narratives spanning five million years are the first poole wormholes spanning the solar system the conquest of human planets by squeem gutships that outrace light the back time invasion of the qax the mystery and legacy of the xeelee and their artifacts as large as small galaxies photino birds and dark matter and the ring where ghost human and xeelee contemplate the awesome end of time stephen baxter is the

most acclaimed and accomplished of a brilliant new generation of authors who are expanding the vision of science fiction and taking it to a new golden age

## ***Vacuum Diagrams***

2009-10-13

timelike infinity the strange region at the end of time where the xeelee owners of the universe are waiting the second novel in stephen baxter's xeelee sequence first there were good times humankind reached glorious heights even immortality then there were bad times earth was occupied by the faceless brutal qax immortality drugs were confiscated the human spirit crushed earth became a vast factory for alien foodstuffs into this new dark age appears the end of a tunnel through time made from exotic matter it is humanity's greatest engineering project in the pre qax era where the other end of the tunnel remains anchored near jupiter when a small group of humans in a makeshift craft outwit the qax to escape to the past through the tunnel it is not to warn the people of earth against the qax who are sure to follow them for these men and women from the future are themselves dangerous fanatics in pursuit of their own bizarre quantum grail michael poole architect of the tunnel must boldly confront the consequences of his genius

## **Timelike Infinity**

2013-01-24

an awe inspiring planetary romance from terry pratchett's co author on the long earth books the very far future the galaxy is a drifting wreck of black holes neutron stars chill white dwarfs the age of star formation is long past yet there is life here feeding off the energies of the stellar remnants and there is mind a tremendous galaxy spanning intelligence each of whose thoughts lasts a hundred thousand years and this mind cradles memories of a long gone age when a more compact universe was full of light the 27th century proxima centauri an undistinguished red dwarf star is the nearest star to our sun and in this fiction the nearest to

host a world proxima iv habitable by humans but proxima iv is unlike earth in many ways huddling close to the warmth orbiting in weeks it keeps one face to its parent star at all times the substellar point with the star forever overhead is a blasted desert and the antistellar point on the far side is under an ice cap in perpetual darkness how would it be to live on such a world yuri jones with 1 000 others is about to find out proxima tells the amazing tale of how we colonise a harsh new eden and the secret we find there that will change our role in the universe for ever

## **FORTRESS SOL.**
