How to Restore Your Pontiac GTO, 1964-1974 *2012-07-13*

parallel and distributed processing although within the focus of computer science research for a long time is gaining more and more importance in a wide spectrum of applications

these proceedings aim to demonstrate the use of parallel and distributed processing concepts in different application fields and attempt to spark interest in novel research directions to parallel and high performance computing research in general the objective of these workshops is to specifically address researchers coming from university industry and governmental research organizations and application oriented companies in order to close the gap between purely scientific research and the applicab ity of the research ideas to real life problems euro par is an annual series of international conferences dedicated to the pro tion and advancement of all aspects of parallel and distributed computing the 2008 event was the 14th issue of the conference euro par has for a long time been eager to attract colocated events sharing the same goal of promoting the dev opment of parallel and distributed computing both as an industrial technique and an academic discipline extending the frontier of both the state of the art and the state of the practice since 2006 euro par has been offering researchers the chance to co cate advanced
