looking up towards the sky and seeing all the chemtrails makes a dedicated nurse wonder if this is the cause for all the changes that she has seen in special children for over 30 years she has worked with the developmentally disabled and noticed major changes in their behaviors she researched the availability of studies conducted as to these changes that had become more alarming globally and searched out reports about all of the diseases that are more prevalent today than at any other time in society she wonders if the trails have anything to do with these conditions she began to wonder if it really was seeding the clouds or is it a way to weed out humanity this could be a form of population control with chemicals raining down on the earth altering lives forever

Six Thousand Truckers Can't Be Wrong 2006-02

the engaging societal exposé six thousand truckers can't be wrong traces the five thousand year history of prostitution from its original lofty status to its present state in ancient greece prostitutes were temple priestesses in the early united states prostitutes were nurses social workers and community leaders they also represented a semblance of culture and refinement in the rough towns of the wild west today streetwalkers are victims of the most heinous and brutal forms of violence and discrimination by examining the brothel type of prostitution in nevada where this profession has successfully and continuously operated legally for over one hundred fifty years dr tutty reveals the truth about prostitution as experienced by the women and men who practice the world's oldest profession dr tutty argues that the model of bordello prostitution in nevada could be implemented around the country to lower the incidence of violent crimes against women reduce the incidence of sexually transmitted disease and aids improve the overall image of a community as a result of the lowered number of visible prostitutes increase tax based revenue that could then be used to support school road repair or other community projects six thousand truckers can't be wrong represents an honest and compelling argument touting the potential benefits that can be achieved from this often stigmatized practice

The American Poet 2009-06

awarded an american legion scholarship i am also an award winning author and have published numerous articles and books having attended several colleges and universities eventually earning my ph d in human behavior i hold several life credentials in education earned during many years as an educator together with years spent working in the aerospace industry and other occupations but to call einstein's famous equation $E=mc^2$ incomplete because it does not account for life and death does seem quite extraordinary yet these remain the two greatest mysteries they have ever been denying us thus far a theory of everything something animates life and departs with death but what this something is not all our science has yet discovered though things like the large hadron collider may provide needed insight and it has been in the pursuit of knowledge about these two greatest mysteries that has

compelled me into so many varied academic studies and careers attempting to make sense of the world and our place in it and how people think and deal with the issues of life and death philosophically religiously and politically the things i have discovered along the way compelled me to much research and speculation about these mysteries and how they impact our lives to communicate my thoughts about them to share with others in a daily journal and posted to my website and provided in book format each year these writings are of importance in an increasingly dangerous world with a most uncertain future due to so much corruption ineptitude and lack of accountability in our own government as well as that of others the abject failure of our schools due to the very same things especially the same lack of accountability we find in government the religious and political hatreds with protracted wars worldwide and little to give hope for world peace i believed my articles about these important enough to publish in book format some years ago i removed from the greater part of society to live in semi seclusion alone with my books and thoughts in a quiet part of the sequoia national forest devoting myself to contemplation speculating about many things and committing my thoughts in writing fulltime as a writer and author given to much introspection and fascinated by human behavior nature and our universe it was important to me to simplify my life as much as possible as anyone given to philosophical speculation about many things must that much of my writing covers some metaphysical thoughts about god angels and demons an afterlife and biblical stories of origins of prophecies of the end times and so much more have been absorbing studies as well and i freely share my thoughts about these in this volume

Empowering Indian Women 2022-03-08

i do not stand for women s liberation as a solution to all the ills affecting women but definitely women should be accorded a fully human status and their feelings thoughts and attitudes should be reciprocated with human sympathy and dignity women empowerment is not all about ambitious women with vanity attached to them but women born and brought up with the right mental frame and attitude to carry on their life with prestige and a good nowhere would have reached and achieved even the slightest success without such good people in my life as family members whatever little have achieved today is their making

Scars Across Humanity 2018-02-20

christianity today 2019 book of the year award politics and public life across the globe acts of violence against women produce more deaths disability and mutilation than cancer malaria and traffic accidents combined the truth is that violence on such a scale could not exist were it not structured in some way into the very fabric of societies and cultures themselves it could not continue if it were not somehow supported by deep assumptions about the value of women or some justification of the use of power in many cultures such assumptions are reiterated every day in the absence of legal protection for women or indifference toward issues of human rights in scars across humanity elaine storkey offers a rigorously researched overview of this global pandemic from female infanticide and child brides to domestic abuse prostitution rape and honor killings violence against women occurs at all stages of life and in all cultures and societies how and why has this violence become so prevalent it seems ambitious to hope that we can find an answer to this question but if violence to women is ever to be eliminated we need to know what we are up against

Stolen Jesus 2017-10-03

stolen jesus does not shy away from the hurts inflicted by messed up religion yet this is the funniest christian book i have read thank god for honest authors like jami amerine who are brave enough to write about life as it is paul ellis author of stuff jesus never said and letters from jesus candid vulnerable and raw popular blogger jami amerine delivers a hilarious memoir of her search for an authentic relationship with jesus in a sea of impersonators raised in the mormon church jami amerine was excommunicated for apostasy before she was even old enough to be baptized this experience left her curious about all things religious and set her on a path that would introduce her to many apparitions of jesus over the years it

wasn't until jami stole a portrait of jesus from a local ymca storage closet and gave him a home on her mantel that she began to ponder why the bad stuff of religion tends to stick the hardest in stolen jesus jami sets out to strip all her preconceived notions of jesus to discover his genuine character in doing so she discovers the real jesus when she stops trying to fit him in a box and allows him to be her all in all jami's frank tell it like it is writing style is full of the kinds of self-deprecating anecdotes that will have you laughing and crying all at the same time

The Pyrotechnic Insanitarium 1999-12

from the far left to the far right on talk radio and the op-ed page more and more americans believe that the social fabric is unraveling celebrity worship and media frenzy suicidal cultists and heavily armed secessionists modern life seems to have become a pyrotechnic insanitarium mark dery says borrowing a turn of the century name for coney island dery elucidates the meaning to our madness deconstructing american culture from mainstream forces like disney and nike to fringe phenomena like the unabomber and alien invaders our millennial angst he argues is a product of a pervasive cultural anxiety a combination of the social and economic upheaval wrought by global capitalism and the paranoia fanned by media sensationalism the pyrotechnic insanitarium is a theme park ride through the extremes of american culture of which the atlantic monthly has written mark dery confirms once again what writers and thinkers as disparate as nathanael west fyodor dostoyevsky sigmund freud and oliver sacks have already shown us the best place to explore the human condition is at its outer margins its pathological extremes

Childhood on Fire 2016-07-19

childhood on fire my journey from the hell of baltimore to high water is a true story based on events that happened in talisha's life it is a gritty harrowing tale of how she endured and prevailed over heinous acts and unspeakable atrocities challenging talisha to change her life in ways she never thought would otherwise be possible this is a remarkable story of tragic loss and incredible redemption one in which talisha conquered her past and now lives in a way where she is far more at the cause of her experience rather than at its mercy talisha believes that hardships for most people are part of life but for some these tests can seem monumental and insurmountable when viewed through the narrow and unenlightened lens of childhood talisha was separated from her mother while still only in grade school abandoned by her birth family placed in foster care and ultimately raised in a brutally unsympathetic environment far from the home she once knew throughout her early years talisha dealt with separation anxiety codependence dissociative identity disorder and a string of bad relationships all arising from the severe repetitive and soul numbing effects of living with damaged dysfunctional people and succumbing to the trials and tribulations that most others have been fortunate to avoid wrenching disillusionment and overt abuse were talisha's constant companions and it would not be until her early thirties that she realized her world was ablaze talisha had suffocated in physical mental emotional and spiritual anguish and was near physical death on the night that she contemplated suicide like all of us though this brave girl had a choice choose life or end life and talisha chose to not only keep going but to embrace the pain with open arms and acknowledge the harm it had done talisha stared unflinchingly at the full length film of her years of suffering and decided that very day that it all stopped here and now she went through a remarkable transformation a rebirthing experience that healed that little girl trapped inside her and when she did talisha resurfaced as a refined sharp and powerful woman enjoy this book but more importantly take its lessons and become the best version of yourself starting today
