American Politics from American and Japanese Perspectives 2021-09-30

The 25 Issues that Shape American Politics 2017-10-02 this book is organized to examine the major subjects taught in american politics through the lens of twenty five hot button issues affecting american politics and policy today these key issues reflect the ideas principles concerns fears morals and hopes of the american people the authors argue that these issues are the heart and soul of the american political system serving as the basis for the disagreements that drive citizens public servants and elected officials into action features of this innovative text examines 25 issues in light of the 2016 presidential election and beyond up to date chapters reflect important developments in the arenas of immigration health care race relations and civil rights gun control gay rights and money and politics in particular includes international coverage with recent and ongoing events surrounding iran syria israel and palestine and china a chapter on russia puts recent developments in syria ukraine crimea and the near abroad in context with us foreign policy

American Politics, Then & Now 2010-06-10 james q wilson is one of america s preeminent public policy scholars for decades he has analyzed the changing political and cultural landscape with clarity and honesty bringing his wisdom to bear on all facets of american government and society this is a collection of fifteen of wilson s most insightful essays drawing on thirty years of his observations on religion crime the media terrorism and extremism and the old fashioned notion of character readers of every political persuasion will come away from this volume with a new understanding of how american politics and culture have evolved over the last half century these essays are not the grumpy words of a conservative who can t be reconciled to the realities of contemporary american life wilson writes rather they are straight talk from a painstaking empiricist and consummate social scientist who believes in american exceptionalism american politics then now is a compelling portrait of a beloved nation

The Logic of American Politics 2006 conveying how the american political system is both extraordinary and complex the authors explain in a simple and straightforward way that there is a

rationale embedded in the u s political system this underlying logic helps students see why political institutions are structured the way they are and why the politicians who occupy them and the citizens who monitor and respond to their actions behave as they do kernell and jacobson analyze political institutions and practices as imperfect solutions to problems facing people who need to act collectively throughout the text the authors highlight these collective action problems including the conflict over values and interests and the costs associated with finding and agreeing on a course of action they describe how the choices made to resolve problems at one moment affect politics in the future long after the original issues have faded they emphasize the strategic nature of political action from the framers careful drafting of the constitution to contemporary politicians strategic efforts to shape policy according to their own preferences

Independent Nation 2004-02-24 fifty percent of american voters define themselves as political moderates two thirds favor political solutions that come from the center of the political spectrum and independents outnumber both democrats and republicans bill clinton and george w bush each explicitly used centrist strategies to win the white house and twenty first century candidates will be compelled to do the same independent nation documents the rich history of the defining political movement of our time organized as a series of short and colorful political biographies it offers an insightful and engaging analysis of the successes and failures of key centrist leaders throughout the twentieth century in the process it demonstrates that centrism is not only a winning political strategy but an enlightened governing philosophy that best reflects the will of the people by putting patriotism ahead of partisanship and the national interest ahead of special interests

American Politics: A Very Short Introduction 2013-03-28 this concise volume fills a long standing need for a sophisticated brief primer on american national politics a major theme of the book is the interplay between constitutional and extra constitutional institutions and political processes it provides engaging and exceptionally instructive treatments of the nuts and bolts of how american politics works and of the strengths of american democracy while candidly considering gaps in representation and the issue of increasing income inequality

The Politicians and the Egalitarians: The Hidden History of American Politics 2016-05-17 one of our most eminent historians reminds us of the commanding role party politics has played in america s enduring struggle against economic inequality there are two keys to unlocking the secrets of american politics and american political history so begins the politicians the egalitarians princeton historian sean wilentz s bold new work of history first america is built on an egalitarian tradition at the nation s founding americans believed that extremes of wealth and want would destroy their revolutionary experiment in republican government ever since that idea has shaped national political conflict and scored major egalitarian victories from the civil war and progressive eras to the new deal and the great society along the way second partisanship is a permanent fixture in america and america is the better for it every major egalitarian victory in united states history has resulted neither from abandonment of partisan politics nor from social movement protests but from a convergence of protest and politics and then sharp struggles led by principled and effective party politicians there is little to be gained from the dream of a post partisan world with these two insights sean wilentz offers a crystal clear portrait of american history told through politicians and egalitarians including thomas paine abraham lincoln and w e b du bois a portrait that runs counter to current political and historical thinking as he did with his acclaimed the rise of american democracy wilentz once again completely transforms our understanding of this nation s political and moral character

The Two Majorities and the Puzzle of Modern American Politics 2003 where did the era of divided government come from what sustains split partisan control of the institutions of american national government year after year why can it shift so easily from democratic or republican presidencies coupled with republican or democratic congresses how can the vast array of issues and personalities that have surfaced in american politics over the last forty years fit so neatly within indeed reinforce the sustaining political pattern of our time these big questions constitute the puzzle of modern american politics the old answer a majority and a minority party plus dominant and recessive public issues will not work in the era of divided government byron shafer a political scientist who is regarded as one of the most comprehensive and original thinkers on

american politics provides a convincing new answer that has three major elements these elements in combination not divided government as a catch phrase are the real story of politics in our time the first element is comprised of two great sets of public preferences that manifest themselves at the ballot box as two majorities the old cluster of economic and welfare issues has not so much been displaced as simply joined by a second cluster of cultural and national concerns the second element can be seen in the behavior of political parties and party activists whose own preferences don't match those of the general public that public remains reliably left of the active republican party on economic and welfare issues and reliably right of the active democratic party on cultural and national concerns the third crucial element is found in an institutional arrangement the distinctively american matrix of governmental institutions which converts those first two elements into a framework for policymaking year in and year out in the first half of the book shafer examines how dominant features of the reagan first bush clinton and second bush administrations reflect the interplay of these three elements recent policy conflicts and institutional combatants in shafer's analysis illuminate this new pattern of american politics in the second half he ranges across time and nations to put these modern elements and their composite pattern into a much larger historical and institutional framework in this light modern american politics appears not so much as new and different but as a distinctive recombination of familiar elements of a political style a political process and a political conflict that has been running for a much much longer time

What's Good for Business: Business and American Politics since World War II 2012-03-13 this volume showcases the most exciting new voices in the fields of business and political history while the media frequently warns of the newfound power of business in the world of politics the authors in this book demonstrate that business has mobilized to shape public policy and government institutions as well as electoral outcomes for decades rather than assuming that business influence is inevitable the chapters explore the complex evolution of this relationship in a wide range of different arenas from attempts to create a corporate friendly tax policy and regulations that would work in the interests of particular industries to local boosterism as a

weapon against new deal liberalism to the nexus between evangelical christianity and the oil industry to the frustrations that business people felt in struggles with public interest groups the history that emerges show business actors organizing themselves to affect government in myriad ways sometimes successfully but other times with outcomes far different than they hoped for the result in an image of american politics that is more complex and contested than it is often thought to be the essays represent a new trend in scholarship on political economy one that seeks to break down the barriers that once separated old subfields to offer a vision of the economy as shaped by politics and political life influenced by economic relationships

Understanding American Politics, Second Edition 2000 understanding american politics provides an excellent introduction to the contemporary political landscape in the united states using the idea of american exceptionalism as its core organizing feature this text offers an original and highly useful approach to understanding american government and politics

The Genius of American Politics 1958-10-15 how much of our political tradition can be absorbed and used by other peoples daniel boorstin s answer to this question has been chosen by the carnegie corporation of new york for representation in american panorama as one of the 350 books old and new most descriptive of life in the united states he describes the uniqueness of american thought and explains after a close look at the american past why we have not produced and are not likely to produce grand political theories or successful propaganda he also suggests what our attitudes must be toward ourselves and other countries if we are to preserve our institutions and help others to improve theirs a fresh and on the whole valid interpretation of american political life reinhold niebuhr new leader

Deadlock and Disillusionment 2016-02-22 deadlock and disillusionment american politics since 1968 is an insightful consideration of the events people and policy debates that have shaped and continue to influence even control the current political era rejects conventional wisdom that the dominant force shaping recent american politics in the last half century has been the rise of the right considers the achievements and frustrations of each administration from nixon to obama in its assessment of contemporary u s politics features authorship by an expert scholar in the field

who takes a thematic rather than a partisan approach to recent american politics offers a concise comprehensive and thoroughly up to date synthesis of the literature in the field and concludes with a comprehensive bibliographical essay an aid to student research

We the People 2017 politics is relevant and participation matters

Legacies of Losing in American Politics 2018-01-05 this is a study of the losers in three major episodes in american political history and shows how their ideas ended up at least partially winning in the long run the authors consider the campaign of the anti federalists against the adoption of the constitution the failed presidency of andrew johnson and the defeat of barry goldwater in 1964 as political losses that later heavily influenced american politics later sometimes the losers because they articulate a vision of american government that resonates with some part of america later contribute to a new political order this is not an effort to explain winning or losing in american politics rather it is intended to offer a new understanding of american political development as the product of a kind of dialectic between different political visions that have opposing ideas particularly about the size and role of the federal government and about whether america is exclusively a liberal regime or one in which illiberal ideas on topics such as race play an important role

Agendas and Instability in American Politics 1993-04 in this innovative account of the way policy issues rise and fall on the national agenda the first detailed study of so many issues over an extended period frank r baumgartner and bryan d jones show that rapid change not only can but does happen in the hidebound institutions of government short term single issue analyses of public policy the authors contend give a narrow and distorted view of public policy as the result of a cozy arrangement between politicians interest groups and the media baumgartner and jones upset these notions by focusing on several issues including civilian nuclear power urban affairs smoking and auto safety over a much longer period of time to reveal patterns of stability alternating with bursts of rapid unpredictable change a welcome corrective to conventional political wisdom agendas and instability revises our understanding of the dynamics of agenda setting and clarifies a subject at the very center of the study of american politics

Women in American Politics 2002-08 this is a textbook for women and politics courses as well as a supplement for introductory american government and political science courses the text is designed so that students unfamiliar with the structure and the processes of american government will gain enough familiarity to enable them to analyze women s role in american politics this book can be used both by students who have not had instruction on the basic workings of government as well as those who are familiar with how government works the text also describes the impact of selected public policies on women this book examines women s increasing role in american government and politics and demonstrates the impact of their participation pref

Keeping the Republic 2020-12-10 keeping the republic gives students the power to examine the narrative of what s going on in american politics distinguish fact from fiction and balance from bias and influence the message through informed citizenship keeping the republic brief edition draws students into the study of american politics showing them how to think critically about who gets what and how while exploring the twin themes of power and citizenship the thoroughly updated ninth edition analyzes not only the 2020 election results and supreme court rulings but also examines the activism of the black lives matter movement political outsiders in campaigns and party nominations the federal government s response to the covid 19 pandemic and the presidency of donald trump with students living through one of the most challenging periods in american life keeping the republic brief edition is there to be a much needed resource to help them make sense of politics in america today and become savvy consumers of political information carefully condensed from the full 10th edition by authors christine barbour and gerald c wright keeping the republic brief edition gives your students the same continuity and crucial content in a more concise value oriented package this title is accompanied by a complete teaching and learning package digital option courseware sage vantage is an intuitive digital platform that delivers this text s content and course materials in a learning experience that offers auto graded assignments and interactive multimedia tools all carefully designed to ignite student engagement and drive critical thinking built with you and your students in mind it offers simple

The Warren Court and American Politics 2000 about the united states supreme court during earl warren s term as united states chief justice and its involvement in politics

Muslim American Politics and the Future of US Democracy 2020-07-28 reveals the important role of muslim americans in american politics since the 1950s and especially in the post 9 11 era muslim americans have played outsized roles in us politics sometimes as political dissidents and sometimes as political insiders however more than at any other moment in history muslim americans now stand at the symbolic center of us politics and public life this volume argues that the future of american democracy depends on whether muslim americans are able to exercise their political rights as citizens and whether they can find acceptance as social equals many believe that over time muslim americans will be accepted just as other religious minorities have been yet curtis contends that this belief overlooks the real barrier to their full citizenship which is political rather than cultural the dominant form of american liberalism has prevented the political assimilation of american muslims even while leaders from eisenhower to obama have offered rhetorical support for their acceptance drawing on examples ranging from the political rhetoric of the nation of islam in the 1950s and 1960s to the symbolic use of fallen muslim american service members in the 2016 election cycle curtis shows that the efforts of muslim americans to be regarded as full americans have been going on for decades yet never with full success curtis argues that policies laws and political rhetoric concerning muslim americans are quintessential american political questions debates about freedom of speech and religion equal justice under

law and the war on terrorism have placed muslim americans at the center of public discourse how americans decide to view and make policy regarding muslim americans will play a large role in what kind of country the united states will become and whether it will be a country that chooses freedom over fear and justice over prejudice

Divided America 2007-03-20 divided america tells the biggest story in american politics today it s the story behind the emergence of a ferocious power struggle between conservative republicans and liberal democrats that is tearing the country s politics apart drawing on extensive polling data and close analyses of presidential senatorial and congressional elections over the past fifty years two eminent political scientists show for the first time how partisan warfare has reduced both major parties to minority status and locked them into fierce power struggles in each election cycle thereby making america less stable and more difficult to govern because the two major parties are now evenly balanced in the national electorate control of the white house and congress can shift dramatically with each election neither republicans nor democrats operate with any lock on the presidency house of representatives or senate as demonstrated by the 2006 congressional elections earl black and merle black examine the party battles as they ve played themselves out in the nation s five principal geographic areas each party has developed two important regional strongholds as exemplified in the 2004 elections when republicans won all the electoral votes and sizable majorities of house and senate seats in the south and mountain plains states while the democrats won almost all the electoral votes and large majorities in the northeast and the pacific rim states the midwest is the perennial swing region the authors describe the enormous changes that have occurred in the electorates of each region over the past fifty years with emphasis on how the size and partisan affiliations of key groups have changed and show how these transformations have generated today s unstable two party battles although the relentlessly competitive nature of modern american politics is generally appreciated the regional causes underlying this new state of affairs are not well understood because neither democrats nor republicans can produce national majorities simply by sweeping their regional strongholds they are locked in a fierce power struggle in each election divided america tells the story of these

remarkable developments in clear vigorous prose and provides a pragmatic understanding of the strengths and weaknesses of each party for the foreseeable future each party will be within striking distance of winning or losing political power in every national institution understanding the party battles in america s regions is vital to understanding how today s losers can become tomorrow s winners

Essentials Of American Politics 2018-06-27 essentials of american politics is an undergraduate text with a novel analytical and comparative focus it takes as a central theme the increasing tension in american politics between a general philosophy of limited government and particular public demands for more and better government programs and services while this has always been a feature of the american polity recent events have brought it into sharp focus both a republican congress and democratic president extol the virtues of less government but continue to grapple with demands for improved education health care transportation and almost every other area of social and economic life all praise the virtues of lower taxation and at the same time promise improvements in the quality of public services a similar tension applies in the courts in state politics and indeed throughout the system recent successes such as a balanced budget have been achieved in part because the limited government philosophy has been on the ascendant and has won support from all shades of political opinion but conflicts over the distributional questions of who gets what has hardly subsided in few other democracies is this tension as well defined as in the united states and essentials reminds readers of this fact through comparison with democratic processes in other countries and in particular with european countries essentials weaves this theme into a discussion of american national politics up to date and well organized chapters are devoted to beliefs and values the constitution federalism congress presidency the federal bureaucracy interest groups and the courts policy chapters include economic social and foreign affairs in all chapters the analytical approach explains to

students some of the main controversies in american political science at all times essentials seeks to impart basic information on american politics in an analytical but stimulating manner features concise format of 17 chapters that cover institutions behavior and policy arenas theme of american s general philosophy of limited government versus our particular demands for expanded government programs and services rich comparative examples britain canada and mexico versus u s throughout the book s narrative

American Politics 1981 a study of the gap between the promise and practice of american democracy examines the historical national unity derived from the democratic ideal and the frustration of that ideal by political institutions and hierarchies

Developments in American Politics 9 2022-02-27 this textbook provides students of us politics with an informed scholarly analysis of recent developments in the american political environment using historical background to contextualize contemporary issues as the ninth edition this book reviews a time of political controversy in the united states touching on topics such as gender economic policy gun control immigration the media healthcare the covid 19 pandemic and the widespread social protests against police brutality the book looks both backwards to trump s presidency and forward to biden s ultimately the editors and contributors evaluate the significance of these events on the future of american politics providing a perspective that is at once broad and meticulous

Remaking American Politics 1989-01-29 the essays in this volume examine the nature and extent of the institutional shifts in american politics brought about by the reforms of the 1970s

Years of Decision 1993 this well known survey tells the story of american politics during the 1890s

Upending American Politics 2020 the election of barack obama in 2008 was startling as was the victory of donald trump eight years later because both presidents were unusual and gained office backed by congresses controlled by their own parties their elections kick started massive counter movements the tea party starting in 2009 and the resistance after november 2016 transformed america s political landscape upending american politics offers a fresh perspective on recent

upheavals tracking the emergence and spread of local voluntary citizens groups the ongoing activities of elite advocacy organizations and consortia of wealthy donors and the impact of popular and elite efforts on the two major political parties and candidate led political campaigns going well beyond national surveys theda skocpol caroline tervo and their contributors use organizational documents interviews and local visits to probe changing organizational configurations at the national level and in swing states this volume analyzes conservative politics in the first section and progressive responses in the second to provide a clear overview of us politics as a whole by highlighting evidence from the state level it also reveals the important interplay of local and national trends

Film Propaganda and American Politics 2013-12-17 originally published in 1994 this important book traces the rise of film propaganda in the 20th century discussing specifically how film can be used to manipulate public perception and opinions two distinct areas are covered war propaganda including feature and documentary films regarding warfare and civilian propaganda including films that address a variety of political subjects although the focus is american film and american politics this book offers insights for all those interested in the affect of film on the minds of citizens of any country or state

Undercurrents in American Politics 2023-07-18 undercurrents in american politics is a thought provoking analysis of the subtle forces that shape american politics arthur twining hadley explores the underlying currents that influence political trends and argues that the key to understanding american politics lies in recognizing these undercurrents drawing on historical examples and contemporary events this book sheds light on the complexities of american democracy and highlights the need for a nuanced understanding of political issues this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work scholars believe and we concur that this work is important enough to be preserved reproduced and made generally

available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

The New American Politics 1995-05-16 original essays by leading political scientists examine key components of the american agenda and assess the current administration s position

The Republican Party and American Politics from Hoover to Reagan 2014-01-02 during a long period of the twentieth century stretching from the great depression until the reagan years defeat generally characterized the electoral record of the republican party although republicans sometimes secured victory in presidential contests a majority of americans identified with the democratic party not the gop this book investigates how republicans tackled the problem of their party s minority status and why their efforts to boost gop fortunes usually ended in failure at the heart of the republicans minority puzzle was the profound and persistent popularity of new deal liberalism this puzzle was stubbornly resistant to solution efforts to develop a republican version of government activism met little success the same was true of conservative strategies that stressed a more fundamental rejection of the democrats arguments technocratic initiatives to improve party organization and communications similarly failed to facilitate an electoral breakthrough only the democratic party s decline eventually created opportunities for republican resurgence this book is the first to offer a wide ranging analysis of the topic which is of central importance to any understanding of modern u s political history

Debating Democracy's Discontent 1998-10-15 in this timely and provocative volume some of the world s leading political and constitutional theorists come together to debate michael sandel s celebrated thesis that the united states is in the the grip of a flawed public philosophy procedural liberalism beginning with an original stage setting introduction by ronald beiner and ending with a reply by michael sandel sandel s liberal and feminist critics square off with his communitarian and civic republican sympathizers in a lively and wide ranging discussion spanning constitutional law culture and political economy practical topical issues of immigration gay marriage federalism adoption abortion corporate speech militias and economic disparity are debated alongside theories of civic virtue citizenship identity and community not only does this volume provide the

most comprehensive and insightful critique of sandel s democracy s discontent to date it also makes a very significant substantive contribution to contemporary political and legal philosophy in its own right it will prove essential reading for all those interested in the future of american politics law and public philosophy

The Great Revolt 2018-05-08 a cnn political analyst and a republican strategist reframe the discussion of the trump voter to answer the question what s next named one of the best books of the year by foreign affairs unlike most retellings of the 2016 election the great revolt provides a cohesive non wild eyed argument about where the republican party could be headed the atlantic political experts were wrong about the 2016 election and they continue to blow it predicting the coming demise of the president without pausing to consider the durability of the winds that swept him into office salena zito and brad todd have traveled over 27 000 miles of country roads to interview more than three hundred trump voters in ten swing counties what emerges is a portrait of a group of citizens who span job descriptions income brackets education levels and party allegiances united by their desire to be part of a movement larger than themselves they want to put pragmatism before ideology and localism before globalism and demand the respect they deserve from washington the 2016 election signaled a realignment in american politics that will outlast any one president zito and todd reframe the discussion of the trump voter to answer the question what s next

Securing the Revolution 1974 explores the cultural and political significance of the election of president trumpdonald j trump s presidency has delivered a seismic shock to the american political system its public sphere and to our political culture worldwide written by leading scholars across a range of disciplines as well as professionals in the field of political journalism this collection of essays offers a deeper understanding of trump and the impact that his rise to power has had both domestically and worldwide the first section provides varied perspectives on the realignments of political culture in the united states that signify a paradigm shift a radical disruption of fundamental beliefs and values about the political process and national identity the second section of the book focuses on us foreign policy and diplomacy taking stock of how the

trump presidency has disturbed the international system and us primacy within it the third section of the book addresses the dynamics and consequences of what has come to be called e post truth e politics where conviction surpasses facts and the norms of political communication have been profoundly disrupted liam kennedy is professor of american studies and director of the clinton institute for american studies at university college dublin

American Politics and Public Policy 1978-01-01 white rage examines the development of the modern american extreme right and american politics from the 1950s to the present day it explores the full panoply of extreme right groups from the remnants of the ku klux klan to skinhead groups and from the militia groups to neo nazis in developing its argument the book discusses the american extreme right in the context of the oklahoma city bombing 9 11 and the bush administration explores the american extreme right s divisions and its pursuit of alliances analyses the movement s hostilities to other racial groups written in a moment of crisis for the leading extreme right groups this original study challenges the frequent equation of the extreme right with other sections of the american right it is a movement whose development and future will be of interest to anyone concerned with race relations and social conflict in modern america

Trump's America 2020-09-09 emerson said of the left and right each is a good half but an impossible whole in public affairs the left traditionally pushes for political economic and social progress while the right steers towards individual opportunity stability tradition and the maintenance of gains already made their disagreement is the basis of most of our political discourse drawing on four decades of field research on partisan conflicts in the u s northern ireland and israel the author provides a clear concise explanation of how the left and right think and why their respective philosophies reflect competing views of human nature
