Directory ... Weights and Measures Officials in the U.S. and All Members of the National Conference on Weights and Measures 1917 as a result of the coronavirus disease covid 19 pandemic the world is facing one of the greatest challenges we have experienced in over a century the economic consequences for society at large are potentially catastrophic the health and social care sectors have reacted by providing emergency care on an unprecedented scale while the scientific community has focused on developing new treatments and a vaccine to prevent future waves of the pandemic evidence is emerging to suggest that certain conditions such as obesity and hypertension predispose some individuals to a worse outcome if they become infected and that women may be less likely to die from covid 19 than men it is also currently believed that pregnant women are at no greater risk than the general population there is an urgent need to determine whether these early observations are correct furthermore we need to be sure that pregnancy outcomes are not affected by covid 19 and that sars cov 2 is not transmitted to the fetus during pregnancy or labour nor to the infant through breast milk there are so many questions that need to be answered to optimise care avoid harm reduce anxiety amongst women and their families and inform health professionals and policymakers we also need to
