elie wiesel has given hundreds of interviews yet his fame as a human rights advocate often directs such conversations toward non literary issues indeed many of wiesel s questioners barely address the writer s role that has defined him since the 1950s unlike previous volumes in which he speaks with interviewers elie wiesel conversations collects interviews which set in relief the writer at work this book focuses on wiesel the literary artist instead of wiesel the holocaust survivor or the 1986 nobel peace prize laureate beyond highlighting wiesel s literary significance these interviews also correct many faulty assumptions about his achievement few american readers know that he writes in french that he has been favorably compared to andr malraux and albert camus not many realize that the holocaust has been the subject of only a few of his forty books particularly in his nonfiction wiesel s scope is wide addressing jewish life in all its religious and historical complexity though most of wiesel s books do not focus on the holocaust they are written against the backdrop of what he has come to term the event always the presence of auschwitz can be felt always the author lives

in the shadows of the flames that once illuminated and blinded him these interviews are reminders that the writing life is both solitary and public interior and social the writer must venture beyond his study and speak out against the world's traumas and outrages robert franciosi is an associate professor of english at grand valley state university in allendale mich he is the editor of good morning a holocaust memoir his work has appeared in american poetry contemporary literature modern jewish studies and the william carlos williams review

elie wiesel plucked from the ashes of the holocaust became a nobel peace laureate an activist on behalf of the oppressed a teacher an award winning novelist and a renowned humanist he moved easily among world leaders but was equally at home among the disenfranchised following his nobel prize wiesel established the elie wiesel foundation for humanity one of their early initiatives was the founding of the elie wiesel ethics essay contest the reflections in this volume come from judges of the contest they share their personal and professional experiences working with and learning from wiesel providing a glimpse of the person behind the public figure at a time when the future seems ominous and chaotic at best these reflections hold on to the promise of an ethically and morally robust possibility the students whose essays prompt this sense of hope are remarkable for their insight and dedication the messages embedded in the judges reflections mirror wiesel's convictions about the importance of friendship the need to interrogate without abandoning god and the power of remembrance in order to fight indifference

in 1997 saul friedländer emphasized the need for an integrated history of the holocaust his suggestion to connect the policies of the perpetrators the attitudes of surrounding society and the world of the victims provides the inspiration for this volume following in these footsteps this innovative study approaches holocaust history through a combination of macro analysis with micro studies featuring a range of contemporary research from emerging scholars in the field this peer reviewed volume provides detailed engagement with a variety of historical sources such as documents artifacts photos or text passages the contributors investigate particular aspects of sound materiality space and social perceptions to provide a deeper understanding of the holocaust which have often been overlooked or generalised in previous historical research yet as we approach an era of no first hand witnesses this multidisciplinary micro historical approach remains a fundamental aspect of holocaust research and can provide a theoretical framework for future studies

The SAGE Handbook of Qualitative Research in the Asian Context 2013-05-17

the author of this book weaves together five compelling and interrelated narratives the book's main concern is to present the world's first unauthorized biography of elie wiesel it shines the light of truth on the mythomaniac who in the 1970s transformed the word holocaust and made it the brand name of the world's greatest hoax the unfounded claim by an extremist segment of world jewry to the effect that the german government's wartime policy of territorial transfer of europe's jews out of the reich was in actuality an extermination program in these pages both wiesel's personal deceits and the whole myth of the six million are mercilessly exposed and laid bare for the reader's perusal unfortunately zionist control of the u s government as well as the nation's media and academic apparatus has allowed wiesel and his fellow extremists to force a string of u s presidents to genuflect before this imposter as symbolic acts of subordination to world jewry while simultaneously forcing u s school children to submit to holocaust brainwashing by their teachers the second strand involves close readings of several of wiesel's published texts with emphasis on his alleged autobiography the novel night the author demonstrates wiesel's appalling ignorance of both the physical details and layouts of the auschwitz and buchenwald camps and this ignorance also extends to german administrative protocols and procedures amazingly the novel's chronology of the events said to have really happened in the author's life is also disjointed confusing and internally contradictory the author also shows the role played by the meme of retroactive continuity in the telling of the holocaust story the third strand involves an historical account of the rise of holocaust revisionism mainly in the u s and france in response to the many obvious lies contained in the jewish holocaust narrative from the sudden appearance of the revisionist work of profs butz and faurisson in the 1970s through the zündel trials of the 1980s to the work of contemporary revisionists like bradley r smith germar rudolf carlo mattogno thomas kues and others today this study shows through the words of the holocaustian extremists themselves how effective the revisionists have been in demolishing their lies the fourth strand shows how certain ambitious and unscrupulous u s catholic intellectuals have hitched a ride on the holocaust bandwagon as a means of advancing their careers ritual denunciation of the alleged silence of pope pius xii is unfortunately very much a part of this behavior finally the fifth strand concerns all those u s jews young and old who have been turned off by one or another aspect of the holocaust story and its use within the u s jewish community but who never criticize it openly for non jewish ears as for younger u s jews rabbi jacob

neusner has been pointing out for years that it has not kept them jewish what he calls the holocaust and redemption cult within u s jewry has contributed to a pronounced abandonment of jewish identity through intermarriage with non jews at percentages never before seen or even imagined

for many decades the holocaust in south eastern europe lacked the required introspection research and study and most importantly access to archives and documentation only in recent years and with the significant help of an emerging generation of local scholars the holocaust from this region became the focus of many studies in 2018 under the european holocaust research infrastructure umbrella the elie wiesel national institute for the study of the holocaust in romania organized a workshop dedicated to holocaust research education and remembrance in south eastern europe the present volume is a natural continuation of the above mentioned workshop with the aim of introducing the current state of holocaust research in the region to different categories of scholars in the field of holocaust studies to students and why not to the general public our scope not an exhaustive one is to present a historical contextualization using archival resources to display the variety of recordings of discrimination destruction and rescue efforts and to introduce the remembrance initiatives and processes developed in the region in the aftermath of the holocaust

Elie Wiesel, Saint of the Holocaust 1992

no catastrophe challenges treasured beliefs and cherished hopes more than the holocaust nazi germany's genocide against the european jews during world war ii fueled by virulent racist anti semitism that disaster which targeted judaism as well as every jewish life within the third reich's lethal grasp still underlines the fragile status of human rights and ethics still undercuts optimism about human progress and still undermines confidence about god's moral authority providential engagement with human history and even god's existence itself elie wiesel who died in 2016 was one of the relatively few jews who survived auschwitz before and after receiving the nobel peace prize in 1986 he wrote profoundly in varied genres about the reverberations of the holocaust in *a consuming fire* john k roth a christian philosopher transformed by wiesel's writings and friendship explores how to cope constructively with the daunting realization that christianity and western philosophy were deeply implicated in the nazi genocide so much so that in the case of christianity one can credibly argue no christianity no holocaust *a consuming fire* is not a biography a literary analysis a philosophical critique or a history instead it offers a story all its own one that seeks to enliven a post holocaust christian humanism an outlook that roth shares by underscoring his own journey his quest to be responsible and accountable as he responds to holocaust challenges intensified poignantly and insistently by wiesel's testimony
