toward the end of the global economic crisis in 2009 stress testing of large financial institutions has become the cornerstone of banking supervision worldwide the aim of the tests is to determine which banks are adequately capitalized under severe economic shocks and to order corrective measures for those that are vulnerable in banking s final exam one of the world s leading experts on banking regulation concludes that the tests administered on both sides of the atlantic suffer from fundamental weaknesses leading to a false sense of reassurance about the safety and soundness of the banking system some weaknesses can be corrected within the existing bank capital regime but others will require bold reforms including higher minimum capital requirements for the largest and most systemically important banks the banking industry is likely to resist these reforms but this book explains why their objections do not hold water the association of chartered certified accountants acca is the global body for professional accountants with over 100 years of providing world class accounting and finance qualifications the acca has significantly raised its international profile in recent years and now supports a bsc hons in applied accounting and an mba bpp learning media is an acca official publisher p2 is a very challenging paper which builds on the knowledge and skills acquired at earlier levels in the preparation and analysis of financial reports for single entities and groups it takes these areas to a higher level putting into context the role of the accountant as a professional steward and adviser who is responsible to the stakeholders of an organisation it has five main sections 1 regulatory and ethical framework and current issues 2 reporting the financial performance of entities 3 group financial statements 4 specialised entities 5 analysis of the financial performance of entitiesthe main new topics introduced at this level relate to group accounts but other topics are tested with a different emphasis and in more depth than at the fundamentals level we provide material for both international and uk streams international is now the acca main stream question practice is essential for all papers but for p2 there is a strong quote fear factor quote questions look intimidating and it is only once you get into the detail that you realise that there are easy marks and more complicated parts that are not essential to get a pass our practice and revision kit follows the order of the text and there are a large number of questions on all syllabus topics our kit gives ample opportunity to practice the long 50 mark case studies which will be the compulsory section a question in the exam three mock exams including the pilot paper also reflect this format as a gentle introduction to many of the topics there are preparation questions giving instructions in basic techniques most questions have marking schemes so that you can see that the examiner awards marks for these techniques for p2 international a revised edition of the kit is being produced for december 2008 to reflect the changes to ifrs 3 business combinations this will be available at the end of september bpp learning media is the publisher of choice for many acca students and tuition providers worldwide join them and plug into a world of expertise in acca exams this book provides mcqs based questions on insolvency and bankruptcy code 2016 rules regulations allied laws general awareness finance accounts decisions of the nclt nclat high courts and supreme court on the issues emerging out of the code and case studies which will help in thorough preparation for the examination to the aspirants tranzission insolvency practice exams contains 890 mcqs in a methodical logical and systematic manner as per the weightage given in the syllabus for the limited insolvency examination mcqs comprehensively covers both the insolvency and bankruptcy code 2016 and the notified ~~librarians regulations on line~~ **librarians regulations on line**
