writings and the overall figure which emerges from this volume is a very different carnap to the caricature that many philosophers will know

Itinerari di storia sociale dell'educazione occidentale - Volume Secondo

2014-03-05

nel momento in cui si parla di crisi dell'istruzione eppure si realizza almeno nelle aree occidentali del benessere l'obiettivo per tanti secoli considerato utopico dell'educazione per tutta la vita dell'accesso a tutti alla lettura alla cultura che conoscenze abbiamo in materia di storia dell'istruzione dell'educazione della formazione quali conoscenze e competenze ci sono state tramandate come appartenenti a coloro genitori educatori insegnanti formatori facilitatori e tante altre figure di adulti che sono stati in un momento o un altro della loro vita in posizione di educatori formatori coach etc i tradizionali manuali di storia della pedagogia da questo punto di vista segnano il passo poiché

concepiscono la storia educativa sostanzialmente come storia delle idee e del pensiero dei grandi autori e ideologi del passato non tanto come storia di fatti ed eventi educativo formativi che hanno segnato realmente i passaggi epocali della trasmissione dei saperi delle pratiche dell'identità stessa ma la ricerca contemporanea nasce ancora da quella storica dove lo studio delle esperienze socio educative fondamentali dell'uomo o la storia della mentalità formativa sono inevitabilmente fonte di esperienza per costruire o ricostruire le azioni formative del presente a partire dalla modernità gli orientamenti formativi ratificano un'esigenza percepita diffusamente di responsabilità umana metodo barocco scienza nuova illuminismo e di intenzionalità formative umana storico e dialettico romanticismo e movimenti dell'Ottocento e primo Novecento di valorizzazione delle potenzialità del singolo che rifiuta le forme di omologazione e standardizzazione di pensiero e atteggiamenti che frammentano e impoveriscono la condizione esistenziale degli individui lanciando uno sguardo al futuro sulla base del passato la ricerca storico educativa si conclude con la proposta di un framework dinamico dell'eco-identità inteso come contributo per elaborare un nuovo progetto di uomo per la formazione contemporanea

Central Works of Philosophy

2014

The philosopher and historian of culture Wilhelm Dilthey (1833-1911) has had a significant and continuing influence on twentieth-century continental philosophy and in a broad range of scholarly disciplines. This volume is the third to be published in Princeton University Press's projected six-volume series of his most important works. Part one makes available three of his works on hermeneutics and its history: Schleiermacher's hermeneutical system in relation to earlier Protestant hermeneutics; the prize essay of 1860 on understanding and hermeneutics (1867-68) based on student lecture notes; and *The Rise of Hermeneutics* (1900) which traces the history of hermeneutics back to Hellenistic Greece. All the addenda to this well-known essay are translated here, some for the first time. Dilthey articulates three philosophical aporias concerning hermeneutics and projects an ultimate convergence between understanding and explanation. Part two provides translations of review essays by Dilthey on Buckle's use of statistical history and on Burckhardt's cultural history; an essay by Friedrich Schlegel on the problem of universal history; and a talk recalling his early years as a student of Boeckh, Jakob Grimm, Mommsen, Ranke, and Ritter. It also contains the important historical essay *The Eighteenth Century and the Historical World* in which Dilthey reexamines the Enlightenment to show its significant contributions to the rise of historical consciousness.
