## Intellectual Disability and Being Human

2016-02-26

intellectual disability is often overlooked within mainstream disability studies and theories developed about disability and physical impairment may not always be appropriate when thinking about intellectual or learning disability this pioneering book in considering intellectually disabled people s lives sets out a care ethics model of disability that outlines the emotional caring sphere where love and care are psycho socially questioned the practical caring sphere where day to day care is carried out and the socio political caring sphere where social intolerance and aversion to difficult differences are addressed it does so by discussing issue based everyday life such as family relationships media representations and education in an evocative and creative manner this book draws from an understanding of how intellectual disability is represented in all forms of media a feminist ethics of care and capabilities as well as other theories to provide a critique and alternative to the social model of disability as well as illuminate care less spaces that inhabit all the caring spheres the first two chapters of the book provide an overview of intellectual disability the debates surrounding disability and outline the model having begun to develop an innovative theoretical framework for understanding intellectual disability and being human the book then moves onto empirical and narrative driven issue based chapters the following chapters build on the emergent framework and discuss the application of particular theories in three different substantive areas education mothering and sexual politics the concluding

remarks draw together the common themes across the applied chapters and link them to the overarching theoretical framework an important read for all those studying and researching intellectual or learning disability this book will be an essential resource in sociology philosophy criminology law social work education and nursing in particular

rico paganini one of the leading megalithic geomantic and spiritual researchers has visited all the earths major power points in this book we travel along with him and we are able to share in his stirring experiences in sensitive discoveries and the wondrous insights that he was able to gain he has not compiled them for himself but for us all perhaps he could only manage his adventures travels bear the travails and overcome some resistance because the spiritual world was on his side accompanied him encouraged him and led him with direct guidance these received messages are also an essential and moving part of this book and are a special feature is astonishing as

is the telling of the tale of the spiritual and material creation and the fact that mother earth is alive and is conscious our ancestors had not yet forgotten this he also leads us through the destruction of the environment climate changes and the increasing natural catastrophes what have we done at the same time he presents us with solution paths gives us courage and hope in this dramatic turning point it is not yet too late hence gaia legacy is much more than a travel report and insight into the power points it is one can say without exaggeration an incomparable book full of awakening and strength just as the fifteenth power source
