*Three Essays on Torts* 2021-01-21 this book of essays champions tort scholarship that puts judges at centre stage what they do how they understand their role the heterogeneous reasons they give for their decisions and their constitutional responsibility to identify and articulate the living and evolving common law this is reflexive tort scholarship reflexive tort scholars seek dialogue with bench and bar their approach is very different from the currently fashionable academic search for grand theories that descriptively assert that tort law is fundamentally all about one thing a unifying idea that alone explains and justifies the whole of tort law this book illustrates the advantages and pay offs of the reflexive style of scholarship by showing how it illuminates key features of tort law the first essay contrasts the reflexive approach with the grand theory approach while the second essay identifies a principle of tort law the cooperative principle that is latent in the cases and that vindicates the value of collaborative human arrangements identifying this principle calls into question in disputes between commercial parties the reasoning used to support one of the most entrenched lines of authority in tort law that based on the famous case of *hedley byrne v heller* the final essay deploys the reflexive method to argue that the iconic but for test of factual causation is inadequate and narrower than the concept actually utilized in the cases application of the method also prompts a reassessment of the scope of duty concept and of the appropriate characterisation of the much discussed decision in *saamco* these essays based on the 2018 clarendon law lectures given at oxford university clearly demonstrate the value of scholarship that takes the judges seriously
