confidant of statesmen politicians and royalty father of eight children champion of the marginalised and founder and first general of the salvation army general booth's courage oratory and passion changed victorian britain he resolutely ignored his critics including those who decried him as the anti christ and reached out to those who considered themselves well outside the concern of almighty god prayer and practicality were his hallmarks he ridiculed the idea of preaching to a beggar while that beggar was cold and hungry william booth worked tirelessly campaigning researching negotiating adapting music hall songs and writing this book introduces us to his heart and convictions here we find the urgency thought and humanity which drove him on the suicidal proclivity of our time writes the acclaimed philosopher j budziszewski is to deny the obvious our hearts are riddled with desires that oppose their deepest longings because we demand to have happiness on terms that make happiness impossible why and what can we do about it budziszewski addresses these vital questions in his brilliantly persuasive new book the line through the heart the answers can be discovered in an exploration of natural law a venture that with budziszewski as our expert guide takes us through politics religion ethics law philosophy

and more natural law the author states plainly but provocatively is a fact about human beings as surely as we have hands and feet we have the foundational principles of good and evil woven into the fabric of our minds from this elemental fact emerges a natural law theory that unfolds as part of a careful study of the human person thus budziszewski shows natural law forms a common ground for humanity but this common ground is slippery while natural law is truly an observable part of human nature human beings are hell bent quite literally on ignoring it the mere mention of the obligations imposed on man by his nature will send him into a rage in this sense the line through the heart explores natural law as not simply a fact and a theory but also a sign of contradiction while investigating the natural law and its implications budziszewski boldly confronts and offers a newly integrated view of a wide range of contemporary issues including abortion evolution euthanasia capital punishment the courts and the ersatz state religion being built in the name of religious toleration written in budziszewski s usual crystalline style the line through the heart makes clear that natural law is a matter of concern not merely to scholars it touches how each of us lives and how all of us live together his profoundly important examination of this subject helps us make sense of why habits that run against our nature have become second nature and why our world seems to be going mad through the lens of cultural anthropology presents an introduction to cultural anthropology By exploring the limited ways in which Shakespeare uses Islamic and Muslim tropes and topoi, Ambereen Dadabhoy argues that Islam and Muslim cultures function as an alternate or shadow text in his works, ranging from his staged Mediterranean plays to his histories and comedies. By consigning the diverse cultures of the Islamic regimes that occupied and populated the early modern Mediterranean, Shakespeare constructs a Europe and Mediterranean freed from the presence of non-white, non-European, and non-Christian others, which belied the reality of the world in which he lived. Focusing on the Muslims at the margins of Shakespeare's works, Dadabhoy reveals that Islam and its cultures informed the plots, themes, and intellectual investments of Shakespeare's plays. She puts Islam and Muslims back into the geographies and stories from which Shakespeare had evacuated them. This innovative book will be of interest to all those working on race, religion, global, and cultural exchange within Shakespeare, as well as people working on Islamic, Mediterranean, and Asian studies in literature and the early modern period.

Power Through the Written Word 1994. Polk and Chotas explore and destroy the myths, stereotypes, and misplaced fears that get in the way of female partnerships. Drawing from their own twelve-year partnership and from interviews with 125 women business partners across the world, they have learned something powerful: when women work together, they discover a level of support, balance, confidence, accountability, and a freedom to be themselves that is rarely found in other work relationships. Heroic male partnerships are a staple business success story, but female partnerships rarely get the same kind of attention. This is a call for women to recognize and build on the inherent strengths that make them uniquely able to create successful, trust-based professional relationships. Readers are offered advice for handling potential challenges like finding the best partner, dealing with conflict, facing fears, taking risks, and knowing when to let go of a partnership.
