feisty intelligent and charming james runcie author of the the grantchester mysteries 1951 brighton with the war over and the nazis brought to justice at nuremberg mirabelle bevan retired whitehall secretary thinks her skills are no longer required after her lover s death she retires to the seaside to put the past behind her and takes a job at a debt collection agency run by the charismatic big ben mcguigan but when the case of romana laszlo a pregnant hungarian refugee comes in mirabelle soon discovers that her specialist knowledge is vital with enthusiastic assistance from insurance clerk vesta churchill they follow a mysterious trail of gold sovereigns and corpses that only they can unravel beneath that prim exterior lies a fearless fly by the seat of her pants kind of gal one part nancy drew two parts jessica fletcher mirabelle has a dogged tenacity to rival poirot sunday herald pcmag com is a leading authority on technology delivering labs based independent reviews of the latest products and services our expert industry analysis and practical solutions help you make better buying decisions and get more from technology in the summer of 1942 stanley lovell a renowned industrial chemist received a mysterious order to report to an unfamiliar building in washington d c when he arrived he was led to a barren room where he waited to meet the man who had summoned him after a disconcerting amount of time william wild bill donovan the head of the office of strategic services oss walked in the door you know your sherlock holmes of course donovan said as an introduction professor moriarty is the man i want for my staff i think you re it following this life changing encounter lovell became the head of a secret group of scientists who developed dirty tricks for the oss the precursor to the cia their inventions included bat bombs suicide pills fighting knives silent pistols and camouflaged explosives moreover they forged documents for undercover agents plotted the assassination of foreign leaders and performed truth drug experiments on unsuspecting subjects based on extensive archival research and personal interviews the dirty tricks department tells the story of these scheming scientists explores the moral dilemmas that they faced and reveals their dark legacy of directly inspiring the most infamous program in cia history mkultra creative strategies for getting young students excited about writing don t forget to write for the elementary grades offers 50 creative writing lesson plans from the imaginative and highly acclaimed 826 national writing labs created as a resource to reach all students even those most resistant to creative writing the lessons range from goofy fun like the other toy story make your toys come to life to practical from sports to science music to mysteries these lessons are written by experts and favorite novelists actors and other celebrities pitched in too lessons are linked to the common core state standards a treasure trove of proven field tested lessons to teach writing skills inventive and unique lessons will appeal to even the most difficult to reach students 826 national has locations in eight cities san francisco new york los angeles ann arbor chicago seattle boston and washington dc 826 national is a nonprofit organization founded by dave eggert and committed to supporting teachers publishing student work and offering services for english language learners sequential images are as natural at conveying narratives as verbal language and have appeared throughout human history from cave paintings and tapestries right through to modern comics contemporary research on this visual language of sequential images has been scattered across several fields linguistics psychology anthropology art education comics studies and others only recently has this disparate research begun to be incorporated into a coherent understanding in the visual narrative reader neil cohn collects chapters that cross these disciplinary divides from many of the foremost international researchers who explore fundamental questions about visual narratives how does the style of images impact their understanding how are metaphors and complex meanings conveyed by images how is meaning understood across sequential images how do children produce and comprehend sequential images are visual narratives beneficial for education and literacy do visual narrative systems differ across cultures and historical time periods this book provides a foundation of research for readers to engage in these fundamental questions and explore the most vital thinking about visual narrative it collects important papers and introduces review chapters summarizing the literature on specific approaches to understanding visual narratives the result is a comprehensive

reader that can be used as a coursebook a researcher resource and a broad overview of fascinating topics suitable for anyone interested in the growing field of the visual language of comics and visual narratives amnesiopolis explores the construction of marzahn the largest prefabricated housing project in east germany built on the outskirts of east berlin in the 1970s and 1980s and touted by the regime as the future of socialism it focuses particularly on the experience of east germans who moved often from crumbling slums left over as a legacy of the nineteenth century into this radically new place one defined by pure functionality and rationality a material manifestation of the utopian promise of socialism eli rubin employs methodologies from critical geography urban history architectural history environmental history and everyday life history to ask whether their experience was a radical break with their personal pasts and the german past amnesiopolis asks can a dramatic change in spatial and material surroundings sever the links of memory that tie people to their old life narratives and if so does that help build a new socialist mentality in the minds of historical subjects the answer is yes and no as much as the east german state tried to create a completely new socialist settlement divorced of any links to the pre socialist past the massive construction project uncovered the truth buried literally in the ground which was that the urge to colonize the outskirts of berlin was not new at all furthermore the construction of a new city out of nothing using repeating identical buildings created a panopticon like effect giving the stasi the possibility of more complete surveillance than they previously had a thrilling challenging and educational book examines the roles of spies such a edith cavell mata hari violette szabo and noor inayat khan pennant magazine women spies have rarely received the recognition they deserve they have often been trivialized and in cinema and popular fiction stereotyped as vamps or dupes the reality is very different as spies women have played a critical role during wartime receiving and passing on vital information frequently at considerable risk often able to blend into their background more easily than their male counterparts women have worked as couriers transmitters and with resistance fighters their achievements often unknown many have died ann kramer describes the role of women spies during wartime with particular reference to the two world wars she looks at why some women chose to become spies their motives and backgrounds she looks at the experience of women spies during wartime what training they received and what skills they needed she examines the reality of life for a woman spy operating behind enemy lines and explores and explodes the myths about women spies that continue until the present day the focus is mainly on britain but also takes an international view as appropriate tells the often surprising stories of some of the women who chose to become spies and to serve their country an excellent work the great war magazine this book argues for a change in our understanding of the relationships among law politics and history since the turn of the nineteenth century a certain anti foundational conception of history has served to undermine law s foundations such that we tend to think of law as nothing other than a species of politics thus viewed the activity of unelected common law judges appears to be an encroachment on the space of democracy however kunal m parker shows that the world of the nineteenth century looked rather different democracy was itself constrained by a sense that history possessed a logic meaning and direction that democracy could not contravene in such a world far from law being seen in opposition to democracy it was possible to argue that law specifically the common law did a better job than democracy of guiding america along history s path

journalists and few americans know what really goes on among the spy masters who plot america s worldwide campaign against terrorists only ronald kessler an award winning former washington post and wall street journal investigative reporter could have gained the unprecedented access to tell the story kessler interviewed fifty current cia officers including all the agency s top officials and toured areas of the cia the media has never seen the agency actively encouraged retired cia officers and officials to talk with him as well in six years as director george j tenet has never appeared on tv shows and has given only a handful of print interviews all before 9 11 but tenet agreed to be interviewed by kessler for this book he spoke candidly and passionately about the events of 9 11 the war on terror the agency s intelligence on iraq and the controversies surrounding the agency the cia at war tells the inside story of how tenet a son of greek immigrants turned around the cia from a pathetic risk averse outfit to one that has rolled up 3 000 terrorists since 9 11 was critically important to winning in afghanistan and iraq and now kills terrorists with its predator drone aircraft the book portrays tenet as a true american hero one who overcame every kind of washington obstacle and the destructive actions of previous director john deutch to make the agency a success as tenet said in a recent speech nowhere in the world could the son of an immigrant stand before you as the director of central intelligence this is simply the greatest country on the face of the earth the cia at war discloses highly sensitive information about the cia s unorthodox methods and its stunning successes and shocking failures the book explores whether the cia can be trusted whether its intelligence is politicized and whether it is capable of winning the war on terror in doing so the book weaves in the history of the cia and how it really works it is the definitive account of the agency from the cia s intelligence failure of 9 11 to its critical role in preventing further attacks the cia at war tells a riveting unique story about a secretive powerful agency and its confrontation with global terrorism no detailed description available for world databases in geography and geology vols for 19 include the directory issue of the american railway engineering association a whopping big celebration of the work of the late great nora ephron america s funniest and most acute writer famous for her brilliant takes on life as we ve been living it these last forty years everything you could possibly want from nora ephron is here from her writings on journalism feminism and being a woman the notorious piece on being flat chested the clarion call of her commencement address at wellesley to her best selling novel heartburn written in the wake of her devastating divorce from carl bernstein from her hilarious and touching screenplay for the movie when harry met sally i ll have what she s having to her recent play lucky guy published here for the first time from her ongoing love affair with food recipes and all to her extended takes on such controversial women as lillian hellman and helen gurley brown from her pithy blogs on politics to her moving meditations on aging i feel bad about my neck and dying her superb writing her unforgettable movies her honesty and fearlessness her nonpareil humor have made nora ephron an icon for america s women and not a few of its men a hair raising account of a barbie dreamhouse size jarndyce and jarndyce jill lepore the new yorker this provocative work spotlights the legal battles between behemoth mattel and audacious mga over incredibly successful toys and the ownership of an idea law professor orly lobel deeply researched this riveting story interviewing those involved to draw attention to the contentious debate over creativity and intellectual property she also explores
