in the face of an outpouring of research on holocaust history holocaust angst takes an innovative approach it explores how germans perceived and reacted to how americans publicly commemorated the holocaust it argues that a network of mostly conservative west german officials and their associates in private organizations and foundations with chancellor kohl located at its center perceived themselves as the victims of the afterlife of the holocaust in america they were concerned that public manifestations of holocaust memory such as museums monuments and movies could severely damage the federal republic s reputation and even cause americans to question the federal republic s status as an ally from their perspective american holocaust memorial culture constituted a stumbling block for west german american relations since the late 1970s providing the first comprehensive archival study of german efforts to cope with the nazi past vis à vis the united states up to the 1990s this book uncovers the fears of german officials some of whom were former nazis or world war ii veterans about the impact of holocaust memory on the reputation of the federal republic and reveals their at times negative perceptions of american jews focusing on a variety of fields of interaction ranging from the diplomatic to the scholarly and public spheres the book unearths the complicated and often contradictory process of managing the legacies of genocide on an international stage west german decision makers realized that american holocaust memory was not an anti german plot by american jews and acknowledged that they could not significantly change american holocaust discourse in the end german confrontation with american holocaust memory contributed to a more open engagement on the part of the west german government with this memory and eventually rendered it a positive resource for german self representation abroad holocaust angst offers new perspectives on postwar germany s place in the world system as well as the holocaust culture in the united states and the role of transnational organizations

contributions by apryl alexander alisia grace chase brian faucette laura e felschow lindsay hallam rusty hatchell dru jeffries henry jenkins jeffrey sj kirchoff curtis marez james denis mcglynn brandy monk payton chamara moore drew morton mark c e peterson jayson quearry zachary j a rondinelli

suzanne scott david stanley sarah pawlak stanley tracy vozar and chris yogerst alan moore and dave gibbons s watchmen fundamentally altered the perception of american comic books and remains one of the medium s greatest hits launched in 1986 the year that changed comics for most scholars in comics studies watchmen quickly assisted in cementing the legacy that comics were a serious form of literature no longer defined by the comics code era of funny animal and innocuous superhero books that appealed mainly to children after midnight watchmen after watchmen looks specifically at the three adaptations of moore and gibbons s watchmen zack snyder s watchmen film 2009 geoff johns s comic book sequel doomsday clock 2017 and damon lindelof s watchmen series on hbo 2019 divided into three parts the anthology considers how the sequels especially the limited series have prompted a reevaluation of the original text and successfully harnessed the politics of the contemporary moment into a potent relevancy the first part considers the various texts through conceptions of adaptation remediation and transmedia storytelling part two considers the hbo series through its thematic focus on the relationship between american history and african american trauma by analyzing how the show critiques the alt right represents intergenerational trauma illustrates alternative possibilities for black representation and complicates our understanding of how the mechanics of the show s production can impact its politics finally the book s last section considers the themes of nostalgia and trauma both firmly rooted in the original moore and gibbons series and how the sequel texts reflect and refract upon those often intertwined phenomena
