the of the other mirror sites to see if they have
it indexed audioline pt345 this cb base station
radio came in with many faults which included the
channel display had segments missing the channel
control only tuned to 3 channels and it only
transmitted 2 watts even though the front meter
read 4 watts the meter lamp had blown and the
power supply had been turned up to 15 6v which had
caused a load of components in the radio to give
and stop working
