a new vocabulary is increasingly gaining prominence in nigeria s political lexicon it is the nine letter word revolution hardly can any political event hold in the country today without the word revolution sneaking into direct discourse expectedly discussants always disagree on this vexatious political jargon that while some segments of outlook would fall for it and actually want it bloody others prefer a moderated approach just as others caution against it in entirety whether bloody or mild the reality is that one does not need a soothsayer or contemporary political psychotherapist to recognize that god indeed has blessed nigeria to be a great nation with almost everything on earth what then could be the malady militating against the structured development of this great nation with great people under a sane ambiance the membership of nigeria in some major international organizations like the premier united nations un and her organs the world bank international monetary fund imf et cetera the ecowas sub region the africa union and the commonwealth of nations to mention but a few is that nigeria is very well positioned to be a primus inter pares in world affairs unfortunately the state of affairs has not pointed in this direction domestically the country is stagnate decayed and trapped in corruption and at present utterly different from the nigeria we used to know as productive thriving nation with robust infrastructure that was well organized with a vibrant economy the giant of africa that a short while ago celebrated her fiftieth year independence as a matter of fact is a society now completely the reverse of the one symbolized by former patriotic heroes and nationalist leaders the likes of the great zik of africa of blessed memory with his compatriots who deftly wrestled independence from british colonialism giant in the sun echoes of looming revolution evokes the mêlée of a people as portrayed by a multitalented author encapsulating his qualms for a great country that may never be as

unprecedented demands have recently arrived at the doorstep of courts and parliaments the world over nonhuman animals should receive some of the rights that have so far been reserved to human beings this development has raised fundamental questions about the nature of legal rights and who should have them more equal than others humans and the rights of other animals provides a sustained analysis of the fundamental rights of human and nonhuman animals to explore the issue of whether conferring fundamental legal rights to animals would undermine the equal status and rights of humans raffael n fasel proposes an unorthodox but practical solution to this issue the species membership approach sma according to the sma legal rights and similar entitlements should be granted to animals based on the species to which they belong not their individual capacities by pioneering an approach that focuses on species membership rather than individual capacities the author demonstrates how fundamental legal rights can be extended to nonhuman animals without threatening the status and equal rights of humans this book examines the antithetical nature of the human rights and animal rights conceptions that have so far dominated the debate and demonstrates how a middle ground can be reached between these opposing conceptions informed by the forgotten history of animal and human rights in the french enlightenment more equal than others radically reimagines the spectrum of fundamental rights conceptions

## **Transnational France**

2018-04-20

scholars commonly take the declaration of the rights of man and citizen of 1789 written during the french revolution as the starting point for the modern conception of human rights according to the declaration the rights of man are held to be universal at all times and all places but as recent crises around migrants and refugees have made obvious this idea sacred as it might be among human rights advocates is exhausted it s long past time to reconsider the principles on which western economic and political norms rest this book advocates for a tradition of political universality as an alternative to the juridical universalism of the declaration insurgent universality isn t based on the idea that we all share some common humanity but rather on the democratic excess by which people disrupt and reject an existing political and economic order going beyond the constitutional armor of the representative state it brings into play a plurality of powers to which citizens have access not through the funnel of national citizenship but in daily political practice we can look to recent history to see various experiments in cooperative and insurgent democracy the indignados in spain the arab spring occupy the zapatistas in mexico and going further back the paris commune the 1917 peasant revolts during the russian revolution and the haitian revolution this book argues that these movements belong to the common legacy of insurgent universality which is characterized by alternative trajectories of modernity that have been repressed hindered and forgotten massimiliano tomba examines these events to show what they could have been and what they can still be as such he explores how their common legacy can be reactivated insurgent universality analyzes the manifestos and declarations that came out of these experiments considering them as collective works of an alternative canon of political theory that challenges the great names of the western pantheon of political thought and builds bridges between european and non european political and social experiments

teaching life writing theory methodology and practice combines research in life writing and pedagogy to examine the role of life stories in diverse learning contexts disciplines and global settings while life stories are increasingly integrated into curricula their incorporation raises the risk of reducing them to mere historical evidence recognizing the importance of teaching life stories in a manner that goes beyond a surface understanding life writing scholars have been consistently exploring innovative pedagogical practices to engage with these stories in ways that encourage dynamic and nuanced conversations about identity agency authenticity memory and truth as well as the potential of these narratives to instigate social change this book assembles contributions from a diverse group of international educators weaving together life writing research critical reflection and concrete pedagogical strategies the chapters are organized around three overarching conversations the materials practices and mediations involved in teaching life writing within the context of contemporary social change the unique perspectives presented in this collection provide educators with valuable insights into effectively incorporating life stories into their teaching practices featuring works by over a dozen educators the volume interlaces life writing research critical reflection and tangible pedagogical practices the chapters in this book were originally published as a special issue of a b auto biography studies

## **Clio Wired**

2011-01-05

in this sequel to his prize winning book the eyes of the people jeffrey edward green draws on philosophy history social science and literature to ask what democracy can mean in a world where it is understood that socioeconomic status to some degree will always determine opportunities for civic engagement and career advancement under this shadow of unfairness green argues that the most advantaged class are rightly subjected to compulsory public burdens and just as provocatively he urges ordinary citizens living in polities permanently darkened by plutocracy to acknowledge their second class status and the uncomfortable civic ethics that come with it specifically an ethics whereby the pursuit of egalitarianism is informed at least in part by indignation envy uncivil modes of discourse and even the occasional suspension of political care deeply engaged in the history of political thought the shadow of unfairness is still first and foremost an effort to illuminate present day politics with the plebeians of ancient rome as his muse green develops a plebeian conception of contemporary liberal democracy at once disenchanting yet idealistic in its insistence that the few many distinction might be enlisted for progressive purpose green s analysis is likely to unsettle all sides of the political spectrum but its focus looks beyond narrow partisan concerns and aims instead to understand what the ongoing quest for free and equal citizenship might require once it is accepted that our political and educational systems will always be tainted by socioeconomic inequality

### **Eighteenth-Century Thing Theory in a Global Context**

2016-04-29

throughout history the right to vote has been extended to landowning men the poor minorities women and young adults in each case the meaning of democracy itself has been transformed the one major group still denied suffrage is the third of humanity who are under 18 years of age however children are becoming increasingly active in political movements for climate regulation labor rights gun control transexual identity and racial justice and these have led to a growing global movement to eliminate minimum ages of enfranchisement this book argues that it is time to give children the vote using political theory and drawing on childhood studies it shows why suffrage cannot legitimately be limited according to age as well as why truly universal voting is beneficial to all and can help save today s crumbling democratic norms it carefully responds to a wide range of objections concerning competence knowledge adult rights power relations harms to children and much more and it develops a detailed childist theory of voting based on holding elected representatives maximally responsive to the people s different lived experiences the book also introduces the concept of proxy claim voting wherein parents or guardians exercise proxy votes for non competent persons both child and adult until whatever time those persons wish to claim or reclaim the exercise of their vote for themselves ultimately the book maps out a new vision of democratic voting that by equally empowering children is at last genuinely democratic

### ***Dress and Ideology***

2014-12-18

human dignity is one of the most challenging and exciting ideas for lawyers and political philosophers in the twenty first century even though it is rapidly emerging as a core concept across legal systems and is the first foundational value of the european union and its overarching human rights commitment under the lisbon treaty human dignity is still little understood and often mistrusted based on extensive comparative and cross disciplinary research this path breaking monograph provides an innovative and critical investigation of human dignity s origins development and above all its potential at the heart of european constitutionalism today grounding its analysis in the connections among human dignity human rights constitutional law and democracy this book argues that human dignity s varied and increasing uses point to a deep transformation of european constitutionalism at its heart are the construction and protection of constitutional time and the multi dimensional definition of humanity as human beings citizens and workers anchored in a detailed comparative study of case law including the two european supranational courts and domestic constitutional courts especially those of germany the uk france and hungary this monograph argues for a new understanding of european constitutionalism as a form of humanism

### **Confronting Modernity in Fin-de-Siècle France**

2009-11-27

the best history of free speech ever written and the best defense of free speech ever made p j o rourke hailed as the first freedom free speech is the bedrock of democracy but it is a challenging principle subject to erosion in times of upheaval today in democracies and authoritarian states around the world it is on the retreat in free speech jacob mchangama traces the riveting legal political and cultural history of this idea through captivating stories of free speech s many defenders from the ancient athenian orator demosthenes and the ninth century freethinker al rāzī to the anti lynching crusader ida b wells and modern day digital activists mchangama reveals how the free exchange of ideas underlies all intellectual achievement and has enabled the advancement of both freedom and equality worldwide yet the desire to restrict speech too is a constant and he explores how even its champions can be led down this path when the rise of new and contrarian voices challenge power and privilege of all stripes meticulously researched and deeply humane free speech demonstrates how much we have gained from this principle and how much we stand to lose without it

### **Free Speech**

2022-02-08

the tulip age a concept that described the beginning of the ottoman empire s westward inclination in the eighteenth century was an idea proposed by ottoman historian ahmed refik in 1912 in the first reassessment of the origins of this concept can erimtan argues the tulip age was an important template for various political and ideological concerns of early twentieth century turkish governments the concept is most reflective of the 1930s republican leadership s attempt to disengage turkey s population from its islamic culture and past stressing the virtues of progress modernity and secularism it was only the death of ataturk in 1938 that precipitated a hesitant revival of islam in turkey s public life and a state sponsored re invigoration of research into turkey s ottoman past in this exciting reassessment erimtan shows us that the trope of the tulip age corresponds more to turkish society s desire to re orientate itself to the occident throughout the twentieth century rather than to early eighteenth century ottoman realities

□□

2005

the european world 1500 1800 provides a concise and authoritative textbook for the centuries between the renaissance and the french revolution it presents early modern europe not as a mere transitional phase but a dynamic period worth studying in its own right written by an experienced team of specialists and derived from a perennially successful undergraduate course it offers a student friendly introduction to all major themes and processes of early modern history structured in four parts dealing with socio economic religious cultural and political issues it adopts a deliberately broad geographical perspective western and central europe receive particular attention but dedicated chapters also explore the wider global context for this thoroughly revised and improved second edition the authors have added three new chapters on politics and government impact of war and revolution specially designed to assist learning the european world 1500 1800 features state of the art surveys of key topics written by an international team of historians suggestions for seminar discussion and further reading extracts from primary sources and generous illustrations including maps a glossary of key terms and concepts a chronology of major events a full index of persons places and subjects a fully featured companion website enhanced for this new edition the european world 1500 1800 will be essential reading for all students embarking on the discovery of the early modern period

□□□□□□

2009

people have always lived in families but what that means has varied dramatically across time and cultures the family is not a natural phenomenon but an institution with a dynamic history stretching 10 000 years into the past mary jo maynes and ann waltner tell the story of this fundamental unit from the beginnings of domestication and human settlement they consider the codification of rules governing marriage in societies around the ancient world the changing conceptions of family wrought by the heightened pace of colonialism and globalization in the modern world and how state policies shape families today the authors illustrate ways in which differences in gender and generation have affected family relations over the millennia cooperation between family members by birth or marriage has driven expansions of power and fusions of culture in times and places as different as ancient mesopotamia where kings daughters became priestesses who mediated among the various cultures and religions of their fathers kingdom and sixteenth century mexico in which alliances between spanish men and indigenous women variously allowed for consolidation of colonial power or empowered resistance to colonial rule but family discord has also driven and been driven by historical events such as china s 1919 may fourth movement in which young people seeking an end to patriarchal authority were key participants maynes s and waltner s view of the family as a force of history brings to light processes of human development and patterns of social life and allows for new insights into the human past and present
