The Ethics of Dissent 2019-03-01

winner of the 2021 best book award from the academy of management division of public and nonprofit management rosemary o leary s the ethics of dissent offers a novel take on rule breakers and whistle blowers in the federal government finding a book that elegantly interweaves theory case detail and practice in a way useful to students and researching proves challenging o leary achieves those aims randall davis southern illinois university from constructive contributors to deviant destroyers government guerrillas work clandestinely against the best wishes of their superiors these public servants are dissatisfied with the actions of the organizations for which they work but often choose not to go public with their concerns in her third edition of the ethics of dissent rosemary o leary shows that the majority of guerrilla government cases are the manifestation of inevitable tensions between bureaucracy and democracy which yield immense ethical and organizational challenges that all public managers must learn to navigate new to the third edition new examples of guerrilla government showcase the power of public servants as well as their ethical obligations key concepts are connected to real examples such as kim davis the kentucky county clerk who refused to sign the marriage certificates of gay couples and kevin chmielewski the deputy chief of staff for operations at the u s environmental protection agency epa who led environmental groups to the wrong doings of epa administrator scott prewitt a new section on the creation of alt twitter accounts designed to counter and even sabotage the policies of president donald trump highlights the power of social media in guerrilla government activities a new section on the u s department of state dissent channel provides readers with a positive example of the right way to dissent as a public servant a new chapter on edward snowden demonstrates the practical relevance and contemporary importance

of the world's largest security breach a new profile of u s department of state diplomat mary a wright illustrates how she used her resignation to dissent about u s policies in iraq

The Ethics of Dissent 2006

guerrillas in government are all around us they can be as high profile as deep throat or as low profile as the bureaucrat who belligerently slows the processing of an application for a driver's license their dissent stems from dissatisfaction with the actions of public organizations they work for but they strategically choose not to go public with their concerns instead they work against the wishes either implicitly or explicitly communicated of their superiors and run the spectrum from anti establishment liberals to fundamentalist conservatives from constructive contributors to deviant destroyers typically guerrilla government is undetected as it is woven into the fabric of the everyday often mundane world of bureaucracy rosemary o leary shows that the majority of guerrilla government cases are the manifestation of inevitable tensions between bureaucracy and democracy which yield immense ethical and organizational challenges that all public managers must learn to navigate to illustrate these tensions and challenges o leary presents three in depth case studies and 21 mini case studies that showcase the range of guerrillas from an official at a regional epa office to a doctor at a medical school to the director of planning in a county office o leary's fresh analysis combined with great story telling underscores the importance of dissent and presents strategies for ways public servants can decide ethically to engage in guerrilla activity while offering ways public managers can learn to tap into the potentially insightful creative ideas and energy of dissenters in order to make constructive changes in the system

The Ethics of Dissent: Managing Guerilla Government plus Public Management: A Three-Dimensional Approach Package 2005-12-15

the ethics of dissent is developed in this book through a new interpretation of the german philosopher jurgen habermas s communicative ethics and political philosophy freedom the right to dissent and thoughtful critique are emphasized in the concept of negative discourse ethics this critical perspective is integrated in a broader interpretation of habermas s theory of communicative action and related to the classical traditions of political philosophy represented by plato aristotle kant hegel kierkegaard and rawls book jacket

Right to Dissent 2009

disagreement is for better or worse pervasive in our society not only do we form beliefs that differ from those around us but increasingly we have platforms and opportunities to voice those disagreements and make them public in light of the public nature of many of our most important disagreements a key question emerges how does public disagreement affect what we know this volume collects original essays from a number of prominent scholars including catherine elgin sanford goldberg jennifer lackey michael patrick lynch and duncan pritchard among others to address this question in its diverse forms the book is organized by thematic sections in which individual chapters

address the epistemic ethical and political dimensions of dissent the individual contributions address important issues such as the value of disagreement the nature of conversational disagreement when dissent is epistemically rational when one is obligated to voice disagreement or to object the relation of silence and resistance to dissent and when political dissent is justified voicing dissent offers a new approach to the study of disagreement that will appeal to social epistemologists and ethicists interested in this growing area of epistemology

Voicing Dissent 2018-02-01

a broadly liberal politics requires political compassion not simply in the sense of compassion for the victims of injustice but also for opponents confronted through political protest and more broadly dissent there are times when out of a sense of compassion a just cause should not be pressed there are times when we need to accommodate the dreadfulness of loss for opponents even when the cause for which they fight is unjust we may also have to come to terms with the irreversibility of historic injustice and reconcile political compassion of this sort carries risks pushed too far it may weaken our commitment to justice through too great a sympathy for those on the other side it would be convenient if such compassion could be constrained by a clear set of political principles but principles run the quite different risk of promoting an ossified dissent unable to respond to change in this book tony milligan argues that principles are only a limited guide to dissent in unique contingent circumstances they will not tell us how to deal with the truly difficult cases such as the following should the lakota celebrate thanksgiving when is the crossing of a picket line justified what kind of toleration must animal rights advocates cultivate to make progress within a broadly liberal political

domain and how should we respond to the entangling of aspiration towards social justice with anger and prejudice such as the anti zionist discourse we may be tempted to answer these questions by presupposing that alignment the business of choosing sides is ultimately more important than compassion but sometimes political compassion trumps alignment sometimes being on the right side is not the most important thing

The Ethics of Political Dissent 2022-07-08

this book embraces the political intellectual social and cultural history of soviet russia providing a useful perspective of putin s russia and with a strong historical and religious background the book looks at the changing features of the soviet ideology from lenin to stalin and the moral universe of stalin s time explores the history of the moral thinking of the dissident intelligentsia examines the moral dimension of soviet dissent amongst dissidents of both religious and secular persuasions and includes biographical material explores the ethical assumptions of the perestroika era firstly amongst communist leaders and then in the emerging democratic and national forces

The Right to Dissent 2008

from constructive contributors to deviant destroyers government guerrillas work clandestinely against the best wishes of their superiors these public servants are dissatisfied with the actions of the organizations for which they work but often choose not to go public with their concerns in her third edition of the ethics of dissent rosemary o leary shows that the majority of guerrilla government cases

are the manifestation of inevitable tensions between bureaucracy and democracy which yield immense ethical and organizational challenges that all public managers must learn to navigate

Conscience, Dissent and Reform in Soviet Russia 2008-08-05

this volume explores how nine different religious and secular traditions deal with pluralism dissent and the challenges these issues pose

The Ethics of Dissent 2019-03-01

a broadly liberal politics requires political compassion not simply in the sense of compassion for the victims of injustice but also for opponents confronted through political protest and more broadly dissent there are times when out of a sense of compassion a just cause should not be pressed there are times when we need to accommodate the dreadfulness of loss for opponents even when the cause for which they fight is unjust we may also have to come to terms with the irreversibility of historic injustice and reconcile political compassion of this sort carries risks pushed too far it may weaken our commitment to justice through too great a sympathy for those on the other side it would be convenient if such compassion could be constrained by a clear set of political principles but principles run the quite different risk of promoting an ossified dissent unable to respond to change in this book tony milligan argues that principles are only a limited guide to dissent in unique contingent circumstances they will not tell us how to deal with the truly difficult cases such as the following should the lakota celebrate thanksgiving when is the crossing of a picket line justified what kind of

Whistleblowing 1986

this volume explores how nine different religious and secular traditions deal with pluralism dissent and the challenges these issues pose

Dissent on Core Beliefs 2015-04-23

this book offers the first comprehensive analysis of warfare ethics in early china as well as its subsequent development chinese attitudes toward war are rich and nuanced ranging across amoral realism defensive just war humanitarian intervention and mournful skepticism covering the five major intellectual traditions in the golden age of chinese civilization confucian daoist mohist legalist and military strategy schools the book s chapters immerse readers in the proper historical contexts examine the moral concerns in the classical texts on their own terms reframe those concerns in contemporary ethical idioms and forge a critical dialogue between the past and the present the volume develops fresh moral interpretations of classical texts such as the art of war mencius xunzi

mozi and the daodejing and discusses famous philosophers such as han fei and wang yang ming representing antithetical schools of thought about warfare attention is also given to the military ethics of the people s liberation army examining its thinking against the backdrop of its own civilizational context this book will be of much interest to students of just war theory chinese politics ethics and philosophy military studies and international relations in general

The Ethics of Political Dissent 2022-07-08

first published in 1988 routledge is an imprint of taylor francis an informa company

Dissent on Core Beliefs 2015

employees often disagree with workplace policies and practices leaving few workplaces unaffected by organizational dissent while disagreement persists in most contemporary organizations how employees express dissent at work and how their respective organizations respond to it vary widely through the use of case studies first person accounts current examples conceptual models and scholarly findings this work offers a comprehensive treatment of organizational dissent readers will find a sensible balance between theoretical considerations and practical applications theoretical considerations include how dissent fits within classical and contemporary organizational communication approaches dissent s relationship to yet distinctiveness from related organizational concepts like conflict resistance and voice explanations for why employees express dissent and how they make sense of it the relationship between organizational dissent and ethics practical applications

encompass recommendations for employees expressing dissent and managers responding to it consideration of the range of events that trigger dissent strategies employees use to express dissent and tools organizations can apply to solicit it effectively the unique challenges and benefits associated with expressing dissent to management the book s specific focus and engaged voice provide students scholars and practitioners with a deeper understanding of dissent as an important aspect of workplace communication

The Right to Dissent 1986

mary wollstonecraft revolutionized ancient traditions of the virtues in modern and christian modes for feminist and abolitionist aims formed by religious traditions of dissent wollstonecraft radically altered the garments of the eighteenth century religious ethical political and aesthetic imagination she sought to discard sexed virtues to shed corsets that restrict women s roles and rights to expose and break chains of domination to exchange the vicious finery of the rich for virtue in rags and to design garb fit for a society in which all participate in defining and cultivating common goods the virtues and debate about them remain indispensable to modern christian traditions and democratic societies when wed virtues and contestation are among the goods shared in common canonical in women and gender studies feminist philosophy political science literary studies and history wollstonecraft is mostly unknown or ignored in contemporary virtue ethics theology and religious studies modern virtue seeks to transform prominent narratives in each wollstonecraft scholars debate whether theology is ornamental or foundational for her radical arguments her use of the wardrobe metaphor provides a fitting alternative modern virtue also challenges influential and competing narratives about

the virtues in modernity these stories render modern virtue a contradiction in terms common goods obsolete modern accounts of the virtues must address this two fold conundrum systems of domination thwart virtue and mask vice and the virtues are integral to just socio political transformation wollstonecraft s does just this

Chinese Just War Ethics 2015-05-15

this volume provides an in depth discussion on the central question how can people express and survive dissent and disagreement in confined habitats in space the discussion is an important one because it could be that the systems of inter dependence required to survive in space are so strong that dissent becomes impossible john locke originally said that people have a right to use revolution to overthrow a despotic regime but if revolution causes violence and damage that causes depressurisation with the risk of killing many people is it even permissible to have a revolution how then are people to express their liberty or dissatisfaction with their rulers the emergence of structures of dissent and disagreement is an essential part of the construction of a framework of liberty in space revolution is just the extreme example and thus the topic deserves in depth and immediate attention even today the way in which we assemble organisations and corporations for the government and private exploration of space must take into account the need for mechanisms to allow people to express dissent

Prophecy and Dissent, 1914-16 1988

one of the central difficulties to a right understanding of american civil military relations is the nature of the u s military are our armed forces just obedient bureaucracies like most of the executive branch or are they vocational professions granted significant autonomy and a unique role in these relationships because of their expert knowledge and their expertise to apply it in the defense of america to large measure the answer to this question should determine the behavior of the strategic leaders of these professions including the uncommon behavior of public dissent using the revolt of the generals in 2006 as stimulus the author develops from the study of military professions the critical trust relationships that should have informed their individual decisions to dissent after doing so he makes recommendations for the restoration of the professions ethic in this critical area of behavior by the senior officers who are the professions strategic leaders

Dissent in Organizations 2011-07-12

the lack of public support for climate change policies and refusals to vaccinate children are just two alarming illustrations of the impacts of dissent about scientific claims dissent can lead to confusion false beliefs and widespread public doubt about highly justified scientific evidence even more dangerously it has begun to corrode the very authority of scientific consensus and knowledge deployed aggressively and to political ends some dissent can intimidate scientists stymie research and lead both the public and policymakers to oppose important public policies firmly rooted in science

to criticize dissent is however a fraught exercise skepticism and fearless debate are key to the scientific process making it both vital and incredibly difficult to characterize and identify dissent that is problematic in its approach and consequences indeed as de melo martín and intemann show the criteria commonly proposed as means of identifying inappropriate dissent are flawed and the strategies generally recommended to tackle such dissent are not only ineffective but could even make the situation worse the fight against doubt proposes that progress on this front can best be achieved by enhancing the trustworthiness of the scientific community and by being more realistic about the limits of science when it comes to policymaking it shows that a richer understanding of the context in which science operates is needed to disarm problematic dissent and those who deploy it this the authors argue is the best way forward rather than diagnosing the many instances of wrong headed dissent

Faithful Dissent 1987-03-01

a revelatory history of the first artist collective in the united states and its effort to reshape nineteenth century art culture and politics the american pre raphaelites founded a uniquely interdisciplinary movement composed of politically radical abolitionist artists and like minded architects critics and scientists active during the civil war this dynamic collective united in a spirit of protest seeking sweeping reforms of national art and culture painting dissent recovers the american pre raphaelites from the margins of history and situates them at the center of transatlantic debates about art slavery education and politics artists such as thomas charles farrer and john henry hill championed a new style of landscape painting characterized by vibrant palettes antipicturesque

compositions and meticulous brushwork their radicalism however was not solely one of style sophie lynford traces how the american pre raphaelites proclaimed themselves catalysts of a wide ranging reform movement that staged politically motivated interventions in multiple cultural arenas from architecture and criticism to collecting exhibition design and higher education she examines how they publicly rejected their prominent contemporaries the artists known as the hudson river school and how they offered incisive critiques of antebellum society by importing british models of landscape theory and practice beautifully illustrated and drawing on a wealth of archival material painting dissent transforms our understanding of how american artists depicted the nation during the most turbulent decades of the nineteenth century

Modern Virtue 2022

eighteenth century dissent and cambridge platonism identifies an ethically and politically engaged philosophy of religion in eighteenth century rational dissent particularly in the work of richard price 1723 1791 and in the radical thought of mary wollstonecraft it traces their ethico political account of reason natural theology and human freedom back to seventeenth century cambridge platonism and thereby shows how popular histories of the philosophy of religion in modernity have been over determined both by analytic philosophy of religion and by its critics the eighteenth century has typically been portrayed as an age of reason defined as a project of rationalism liberalism and increasing secularisation leading inevitably to nihilism and the collapse of modernity within this narrative the rational dissenters have been accused of being the culmination of eighteenth century rationalism in britain epitomising the philosophy of modernity this book challenges this reading of

history by highlighting the importance of teleology deformity the immutability of goodness and the divinity of reason within the tradition of rational dissent and it demonstrates that the philosophy and ethics of both price and wollstonecraft are profoundly theological price s philosophy of political liberty and wollstonecraft s feminism both grounded in a platonic conception of freedom are perfectionist and radical rather than liberal this has important implications for understanding the political nature of eighteenth century philosophical theology these thinkers represent not so much a shaking off of religion by secular rationality but a challenge to religious and political hegemony by distinguishing price and wollstonecraft from other forms of rationalism including deism and socinianism this book takes issue with the popular division of eighteenth century philosophy into rationalistic and empirical strands and through considering the legacy of cambridge platonism draws attention to an alternative philosophy of religion that lies between both empiricism and discursive inference

Dissent, Revolution and Liberty Beyond Earth 2018-04-20

the intimate life of dissent examines the meanings and implications of public acts of dissent drawing on examples from ethnography and history acts of dissent are never simply just about abstract principles but also come at great personal risk to both the dissidents and to those close to them dissent is therefore embedded in deep complex and sometimes contradictory intimate relations this book puts acts of high principle back into the personal relations out of which they emerge and take effect raising new questions about the relationship between intimacy and political commitment it does so through an introduction and eight individual chapters drawing on examples including sri lankan leftists soviet dissidents tibetan exiles kurdish prisoners british pacifists indonesian student

activists and jewish peace activists

Dissent and Strategic Leadership of the Military Professions **2008**

since it was first published in 1991 the ethics challenge in public service has become a classic text used by public managers and in public management programs across the country this second edition is filled with practical tools and techniques for making ethical choices in the ambiguous pressured world of public service it explores the day to day ethical dilemmas managers face in their work including what to do when rules recommend one action and compassion another and whether it is ethical to dissent from agency policy this essential text explores managers accountability to different stakeholders and how to balance the often competing responsibilities

considers dissent its theological analysis and place in catholic life

Eighteenth-Century Dissent and Cambridge Platonism **2017-05-12**

rules of disengagement examines the reasons men and women in the military have disobeyed orders and resisted the wars in Iraq and Afghanistan. It takes readers into the courtroom where sailors, soldiers, and Marines have argued that these wars are illegal under international law and unconstitutional under U.S. law through the voices of active-duty service members and veterans. It explores the growing conviction among our troops that the wars are wrong while the Obama administration's pledge to remove all American troops from Iraq by the end of 2011 is encouraging. And in no small way likely attributable to resistance by our armed forces, it continues to fight in Afghanistan and the military may soon have a heightened presence elsewhere in the Middle East and in Africa. As such, Rules of Disengagement provides inspiration and lessons for anyone who opposes an interventionist U.S. military policy.

The Right to Dissent 1974

The series Religion and Society contributes to the exploration of religions as social systems both in Western and non-Western societies. In particular, it examines religions in their differentiation from and intersection with other cultural systems such as art, economy, law, and politics. Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual, the religious imagination,

constructions of tradition iconography or media in addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series

The Intimate Life of Dissent: Anthropological Perspectives

2020-09-01

loyal dissent is the candid and inspiring story of a catholic priest and theologian who despite being stripped of his right to teach as a catholic theologian by the vatican remains committed to the catholic church over a nearly fifty year career charles e curran has distinguished himself as the most well known and the most controversial catholic moral theologian in the united states on occasion he has disagreed with official church teachings on subjects such as contraception homosexuality divorce abortion moral norms and the role played by the hierarchical teaching office in moral matters throughout however curran has remained a committed catholic a priest working for the reform of a pilgrim church his positions he insists are always in accord with the best understanding of catholic theology and always dedicated to the good of the church in 1986 years of clashes with church authorities finally culminated in a decision by the congregation for the doctrine of the faith headed by then cardinal josef ratzinger that curran was neither suitable nor eligible to be a professor of catholic theology as a result of that vatican condemnation he was fired from his teaching position at catholic university of america and since then no catholic university has been willing to hire him yet curran continues to defend the possibility of legitimate dissent from those teachings of the catholic faith not

core or central to it that are outside the realm of infallibility in word and deed he has worked in support of more academic freedom in catholic higher education and for a structural change in the church that would increase the role of the catholic community from local churches and parishes to all the baptized people of god in this poignant and passionate memoir curran recounts his remarkable story from his early years as a compliant pre vatican ii catholic through decades of teaching and writing and a transformation that has brought him today to be recognized as a leader of progressive catholicism throughout the world

Professional Dissent 1984

this volume provides an in depth discussion on the central question how can people express and survive dissent and disagreement in confined habitats in space the discussion is an important one because it could be that the systems of inter dependence required to survive in space are so strong that dissent becomes impossible john locke originally said that people have a right to use revolution to overthrow a despotic regime but if revolution causes violence and damage that causes depressurisation with the risk of killing many people is it even permissible to have a revolution how then are people to express their liberty or dissatisfaction with their rulers the emergence of structures of dissent and disagreement is an essential part of the construction of a framework of liberty in space revolution is just the extreme example and thus the topic deserves in depth and immediate attention even today the way in which we assemble organisations and corporations for the government and private exploration of space must take into account the need for mechanisms to allow people to express dissent

The Ethics Challenge in Public Service 2005-03-11

this book provides unique and detailed perspectives on different aspects of dissent protest and disputes and how these have in turn continued to pose challenges in africa the contributors argue that dissent protest and most forms of disputes in africa are the result of daily challenges that its people have faced and continue to encounter to this day these challenges include amongst others demands for transparency good governance and accountability waves of instability that have created insecurity in most parts of the continent an unsustainable level of youth unemployment rapid population growth a continent wide healthcare and poverty crises and numerous environmental challenges the chapters elevate the debates on dissent protest and disputes conflict in africa by adding new ideas and introducing new and useful interpretations the book s strength lies in the contributors ability to conflate colonial and postcolonial tendencies to show how challenges of the past are not so different from those of today while also presenting important historical issues from various scholarly perspectives dissent protest and dispute in africa will be of interest for students and scholars of african history politics and culture as well as those interested in social movements and civil society

Loyalty, Dissent, and Betrayal 2005

synopsis coming soon

Dissent in the Church 1988

denzin and giardina have brought together the works of leading cultural critics who have given cultural studies a global framework that meets our need to examine the governing strategies of the military the economy the media and educational elites this is a must read for those who want cultural studies to really matter in the present moment patricia ticineto clough contesting empire globalizing dissent cultural studies after 9 11 is a landmark text leading scholars from cultural studies education gender studies and sociology reposition critical cultural studies research around the goals of moral clarity and political intervention chapters range in focus from neoliberalism and democracy to america s war on kids and the cultural politics of national identity
