Specialty Competencies in Couple and Family Psychology 2011-05-05

over the past two decades considerable progress has been made in developing specialist psychosocial treatments for borderline personality disorder bpd yet the majority of people with bpd receive treatment within generalist mental health services rather than specialist

treatment centres this is a book for general mental health professionals who treat people with borderline personality disorder bpd it offers practical guidance on how to help people with bpd with advice based on research evidence after a discussion of the symptoms of bpd the authors review all the generalist treatment interventions that have resulted in good outcomes in randomised controlled trials when compared with specialist treatments and summarise the effective components of these interventions the treatment strategies are organised into a structured approach called structured clinical management scm which can be delivered by general mental health professionals without extensive additional training the heart of the book outlines the principles underpinning scm and offers a step by step guide to the clinical intervention practitioners can learn the interventions easily and develop more confidence in treating people with bpd in addition a chapter is devoted to how to help families an issue commonly neglected when treating patients with bpd finally the authors discuss the top 10 strategies for delivering treatment and outline how the general mental health clinician can deliver these strategies competently

Psychiatric Index for Interdisciplinary Research 1964

this is the tenth volume in the research advances series and the seventh published by plenum press volume 10 is another omnibus volume providing specialized and advanced reviews in a number of areas related to the use of alcohol illicit drugs and tobacco we include also a brief history of the center for alcohol studies that gives mark keller s unique perspective on this noted institution two of the chapters are decidedly longer than the others very long chapters have appeared occasionally in the past and we think that it is one of the strengths of the series that we are able to accommodate such reviews again the editorial board has changed after several years of service reginald g smart has stepped down new to the board are helen m annis michael s goodstadt lynn t kozlowski and evelyn r vingilis this is likely to be the sole volume for which goodstadt is on the board since before completion of this volume he moved from the addiction research foundation to the center for alcohol studies rutgers university

NIH Guide for Grants and Contracts 1991
