suicide has been a public health crisis for at least the last two decades when this book was first published in 2007 according to the center for disease control cdc suicide was the third leading cause of death for youths ages 15 to 24 and the fourth leading cause of death for youths ages 10 to 14 suicide rates have steadily increased so

much that since 2017 it is the second leading cause of death for youths in both age groups 15 24 10 14 the rate of suicide attempts has increased even more rapidly over the last two decades by more than 400 the u s data captured by the cdc is an unfortunate reflection of a global epidemic of suicide as author osborne explains existing approaches to preventing youth suicide have had little impact on reducing the number of suicides and suicide attempts across america while there are countries with suicide rates higher than the u s there are even more countries with rates that are lower what can we and should we seek to learn from countries with much lower suicide rates than the u s countries like barbados jamaica italy peru and panama like many youths electra is a well loved beautiful highly intelligent teenager by unveiling the private thoughts of a suicidal teenager in this unprecedented book osborne hopes that electra s diary which spans 7 years from age 15 to 22 will provide an understanding of the adolescent mind that will spur more effective means to recognize treat and heal those at risk and so vastly reduce suicide among our youth
