working effectively with apple platforms at a corporate or business level includes not only infrastructure but a mode of thinking that administrators have to adopt to find success a mode of thinking that forces you to leave 30 years of it dogma at the door this book is a guide through how to integrate apple products in your environment with a minimum of friction because the apple ecosystem is not going away you ll start by understanding where apple third party software vendors and the it community is taking us what is mobile device management and how does it work under the hood by understanding how mdm works you will understand what needs to happen on your networks in order to allow for mdm as well as the best way to give the least amount of access to the servers or services that s necessary you ll then look at management agents that do not include mdm as well as when you will need to use an agent as opposed to when to use other options once you can install a management solution you can deploy profiles on a device or you can deploy profiles on macs using scripts with apple device management as your guide you ll customize and package software for deployment and lock down devices so they re completely secure you ll also work on getting standard qa environments built out so you can test more effectively with less effort apple is forging their own path in it they trade spots with amazon google and microsoft as the wealthiest company to ever exist and they will not be constrained by 30 or more years of dogma in the it industry you can try to shoehorn apple devices into outdated modes of device management or you can embrace apple s stance on management with the help of this book what you ll learn deploy profiles across devices effectively and securely install apps remotely both from the app store and through custom solutions work natively with apple environments rather than retrofitting older it solutions who this book is for mac administrators within organizations that want to integrate with the current apple ecosystem including windows administrators learning how to use manage macs mobile administrators working with iphones and ipads and mobile developers tasked with creating custom apps for internal corporate distribution

PDF Hacks 2019

covers red hat enterprise linux 8 covers all official exam objectives for the rhcsa exam based on red hat enterprise linux 8 equally good for self study and in class training 81 step by step exercises 70 do it yourself challenge labs 375 check your understanding questions answers concepts explained with diagrams commands and options summarized in tables exam tips included 4 unique sample rhcsa exams this book has 21 chapters that are organized logically it covers the topics on local rhel 8 installation initial interaction with the system and basic commands compression and archiving file editing and manipulation standard and special permissions file searching and access controls user monitoring and authentication files users groups and password aging bash shell features and startup files processes and task scheduling basic and advanced software administration techniques system boot process and bootloader kernel management and system initialization logging and system tuning basic and advanced storage management tools and solutions local and remote file systems and swap regions network device and connection configuration time synchronization and hostname resolution the secure shell service and firewall and selinux controls each chapter highlights the major topics and relevant exam objectives at the beginning and ends with review questions answers and do it yourself challenge labs throughout the book figures tables screen shots examples and exam tips have been furnished to support explanation and exam preparation this book includes four sample exams for rhcsa which are expected to be done using the knowledge and skills attained from reading the material and practicing the exercises and challenge labs the labs and the sample exams include references to relevant topics and or exercises

Apple Device Management

highlights covers all latest official exam objectives for rhcsa 8 including containers and shell scripting great for self study and in class virtual training 108 real life step by step exercises and shell scripts 80 do it yourself challenge labs 408 review questions answers

4 realistic sample rhcsa exams 23 tasks per exam rhcsa red hat enterprise linux 8 updated training and exam preparation guide second edition provides in depth coverage of the latest rhcsa ex200 exam objectives that include shell scripting and containers the most definitive guide available on the subject this book explains concepts analyzes configuration files describes command outputs shows step by step procedures includes screenshots of actual commands executed and outputs they produced and challenges the readers comprehension of the concepts and procedures by presenting plenty of additional labs and sample realistic exam tasks to perform on their own this book has 23 chapters that are organized logically from setting up the lab to the fundamentals of linux to sophisticated linux administration topics the book covers the topics on local rhel 8 installation initial interaction with the system basic linux commands compression and archiving file editing and manipulation standard and special permissions file searching and access controls user monitoring and authentication files users groups and password aging bash shell features and startup files processes and task scheduling basic and advanced software administration techniques system boot process and bootloader kernel management and system initialization logging and system tuning basic and advanced storage management tools and solutions local file systems and swap regions network device and connection configuration remote file systems and automounting time synchronization and hostname resolution the secure shell service firewall and selinux controls and shell scripting and containers each chapter highlights the major topics and relevant exam objectives at the beginning and ends with several review questions answers and do it yourself challenge labs throughout the book figures tables screen shots examples notes and exam tips are furnished to support explanation and exam preparation this book includes four sample rhcsa exams that are expected to be performed using the knowledge and skills attained from reading the material following the exercises and completing the challenge labs the labs and the sample exams include hints to relevant topics and or exercises this book may be used as a self learning guide by rhcsa 8 exam aspirants a resource by instructors and students to follow in physical and virtual training sessions an on the job resource for reference and an easy to understand guide by novice and non rhel administrators

RHCSA Red Hat Enterprise Linux 8:

canada s involvement in afghanistan is the longest martial conflict in its history precipitated literally overnight by a world changing event in the 2001 9 11 attack in new york city in 2010 the afghan mission remains front page news for canadians even threatening to undermine the federal government due to the so called detainee scandal the human cost canadian and afghan financial burdens and impact on the self perception of canadians as a peace keeping middle power are immense and likely will form a watershed in canadian history and yet the mission remains little scrutinized by faith communities and further left as a non conversation for many and the domain of a nebulous foreign policy and largely toothless manley report this volume is the first such major attempt by the centre for public theology to bring together theologians philosophers faith leaders ngos politicians and other academics from sociology politics and peace keeping in order to dialogue about the impact of the afghan mission these papers form much of the conversation of a conference held in may 2009 at the centre for public theology the papers offer reflections on the manley report investigations on the theological and philosophical issues at play in canada s response interaction with canada s shift from peace keeping to war fighting and the new nato mandate thoughts on the role of islamic nations and analysis of the role of the abrahamic faith communities in this wider canadian conversation the centre for public theology is a federally funded research centre housed at huron university college whose mandate is to bring into conversation academics ngos media government and the public on issues of public policy and life with a particular attention to the role of religion in canadian life its founding motto is intelligence not advocacy it is not an advocacy or lobbying centre instead seeking only to facilitate dialogue across boundaries its webpage can be found at publictheology.org
