Education and the UN Sustainable Development Goals

2023-11-02

this book focuses on the complex relationship between education and the sustainable development goals sdgs and highlights how important context is for both critiquing and achieving the goals though education given the critical role teachers schools and curriculum play in young people s lives readers will find examples of thinking and practice across the spectrum of education and training sectors both formal and informal the book adds to the increasing body of literature that recognises that education is and must be in its praxis at the heart of all the sdgs as we enter the third decade of the 21st century we have a clear understanding of the wicked and complex crises regarding the health of life on our planet and we cannot ignore the high levels of anxiety our young people are experiencing about their future continuing in the direction of unsustainable exploitation of people and nature is no longer an option if life is to have a flourishing future the book illustrates how sdgs are supported in and by education and training showcasing the conditions necessary to ensure sdgs are fore fronted in policy reform it includes real world examples of sdgs in education and training contexts as well as novel critiques of the sdgs in regard to their privileging of anthropocentrism and neoliberalism this book is beneficial to academics researchers post graduate and tertiary students from all fields relating to education and training it is also of

~~specific issues in child psychology research each chapter begins with a concise and accessible overview of relevant empirical and theoretical findings in developmental psychology the chapters cover intrinsic motivation and curiosity motor development examining both manipulation and locomotion perceptual development including face recognition and perception of space social learning emphasizing such phenomena as joint attention and cooperation language from phonetic babbling to syntactic processing and abstract knowledge including models of number learning and reasoning strategies boxed text offers technical and methodological details for both psychology and robotics experiments~~

Dividing Africa with Policy

2020-06-08

this book addresses timely concerns of rising african nationalism and the 2nd decolonisation in africa the wholesale rejection of all things considered western is seen to be a result of integrationalism defined as the specific kind of methodology by which eu foreign policy engagement may be interpreted using complexity theory and panarchy a specific arrangement of interacting complex adaptive systems together with a resilience assessment the eu s foreign policy is shown to be undermining the aims of the premier african institution the au created to provide unity and security on the continent the eu pursues these objectives
