2020-04-01 put your 12 step speakers sponsors and counselors to work you may regularly listen to excellent speakers sponsors and counselors in 12 step programs chances are however that they probably rarely if ever talk to you about the origins history and practices of early pioneer recovery programs why because there are few histories to inform them few teachers to instruct them and too few people who really want to change speakers can get lots of applause if they stick to their drunkalogs and make you laugh cry and maybe identify sponsors have few resources that connect the dots counselors feel safer telling you about your disease and taking the safe path handing out a big book a twelve x twelve and a devotional and sending you to outside groups and meetings what does this our book say it says that it is high time to take these talented and admired people to the schoolroom three decades ago there was no place to look and if one of these people talked about history he or she usually talked about the party line that left out god left out the bible left out the sources of the twelve steps and pointed to a program that simply said you didn't really have to believe anything at all just choose your own higher power and go to meetings we believe the many fine speakers sponsors and facilitators can and should get cracking they should pick up the accurate history books now available learn from them and talk about them why because they can then tell the afflicted exactly how and why the pioneers were cured and had a documented 75 to 93 success rate and those who teach you can also train you to look for yourself think for yourself and place your reliance on the creator rather than teachers this new book tells you our history how to approach it how to teach it and how to use it
