## lan

Sep 17 2023

lan stands for local area network. It is a type of network that connects computers and devices within a limited geographical area. LANs are commonly used in homes, offices, and schools. They allow users to share files, printers, and other resources. LANs are typically faster and more secure than wide area networks (WANs). LANs can be wired or wireless. LANs are a type of network that connects computers and devices within a limited geographical area. LANs are commonly used in homes, offices, and schools. They allow users to share files, printers, and other resources. LANs are typically faster and more secure than wide area networks (WANs). LANs can be wired or wireless.

## wiring diagram

Aug 16 2023

wiring diagram is a schematic drawing of the wiring of an electrical system. It shows the connections between various components of the system, such as switches, outlets, and lights. Wiring diagrams are essential for troubleshooting and repairing electrical systems. They are also used by electricians to plan and install new wiring. Wiring diagrams are a type of schematic drawing of the wiring of an electrical system. They show the connections between various components of the system, such as switches, outlets, and lights. Wiring diagrams are essential for troubleshooting and repairing electrical systems. They are also used by electricians to plan and install new wiring.
