have you on the edge of your seat vol 2 books 5 6 and 7 salvage a shadow files novel book 5 former marine turned private investigator walter reed has been given yet another strange and amazing opportunity to become an agent with the fbi s nightshade division though confident her training will make quantico a cake walk even with only one leg walter is discovering her shot at a new career has disaster written all over it her first hurdle walter doesn t graduate training if her new partner gj janson doesn t graduate too after previously being arrested by the fbi gj janson hopes to redeem herself with the chance to become an agent unfortunately her snooping around her grandfather s laboratory reveals he s been hiding strange skeletons with strikingly similar anomalies to those she notices in her friend donovan when a weekend visit to her grandfather s lab yields a fresh body gj goes into investigation mode but the body is that of a fellow nightshade agent and walter and gj quickly realize that nothing in nightshade is what it seems not the case the other agents nor even their job descriptions only one thing is clear the killer is coming after them next and they suspect it s someone gj knows garden of bone book 6 fbi agent eleri eames was there the day her sister disappeared at

eight years old however eleri is the only one who knows that her sister is already dead and has been for quite some time when a skeleton is unearthed in new orleans eleri is convinced it belongs to emmaline the age and ancestry of the remains are a match and there s something telling eleri that new orleans is the place where her sister lived and died as eleri hunts for answers demons old and new begin following her the lobomau have been entering the city in ever increasing numbers and that might just have something to do with the dauphine sisters and their long family history of witchcraft and voodoo eleri desperately needs her partner donovan on this case with her but can he risk his own job to help her eleri s ancestry may have imbued her with some powers but compared to her own great grandmother and the dauphines she s untrained and untested at best when the bones turn out not to belong to her sister eleri has to ask how a case so similar to emmaline s even exists and is it an arrow pointed to her own twisted family history the camelot gambit book 7 can eleri and donovan outsmart a killer who leaves no evidence behind or even a discernable cause of death how will they track down someone who is more intelligent than both of them together curie nebraska was designed

as a research haven for the ultra intelligent in fact applicants must pass a rigorous iq test before they can call the strange town home nearly every resident including several child geniuses is suspect and no one is safe going undercover as the new neighbors leaves the agents struggling to find even the most basic clues eleri and donovan can barely maintain their false identities against their overly curious and stunningly intelligent new friends let alone solve a murder can they figure it out before the next body turns up or has the killer already found them she s in the top five of my best writers list i have a list of king grisham koontz you know those guys they are the authors who you know will deliver the lit critic this is a five star series loved it can t wait for the next one please these are the fifth sixth and seventh books in the nightshade forensic fbi files series by usa today bestselling author a j scudiere these books can each be read as a standalone but readers who love paranormal investigations and fbi thrillers will want to read the entire series

Senate Journal of the Legislature of the State of Nebraska 1879 huge savings off the individual book cost under dark skies book 1 eleri eames didn t think she d ever be allowed to work for the fbi again

so the special fbi division of nightshade seems like an amazing opportunity but all too soon her chance to start over starts to disturb her when the fbi offers donovan a chance to leave his job as a medical examiner and try his hand at something new he takes a chance on the nightshade division somehow he has to try to escape from his shadows but can he trust eleri with the truth thrown together on their first case eleri and donovan must deal with a charismatic cult leader and his true believers the cult is mixed up with several decade old kidnapping cases and the missing daughter of a prominent fbi agent as eleri and donovan dig deeper they discover that nightshade s mysteries aren t coincidence their secrets will save them or destroy them fracture five book 2 nightshade s newest agents are in l a to bring down a burgeoning terrorist cell to make things worse it s not just one terrorist cell it s two or is it three there is little to go on only links between missing army munitions and a veteran named cooper rollins with his special ops training and severe ptsd it s impossible to tell what kind of game rollins is playing eleri and donovan will have to use their unique skills to stop the attack before it happens but in the crowded city there are too many people who might reveal what donovan is if he dares to make the

change and eleri is starting to show signs of powers she didn't know she had and can't control on the surface the cells seem unrelated each with separate perpetrators and different motives but they are all linked by rollins and the very disturbing passcode fracture five the atlas defect book 3 eleri wanted a different kind of case she should have been careful what she wished for when an odd human skeleton in michigan's manistee huron national forest triggers a nightshade investigation eleri and donovan arrive to find it missing but two other skeletons are a little too easily uncovered each displays different anomalies that raise alarming questions the bones aren't from the area or probably even the continent a decades old abandoned building doesn't register on satellite images files detailing genetic experiments on children are even more disturbing and most of the children are unaccounted for who were the test subjects and where are the bodies if the case itself wasn't enough of a problem someone is watching someone with a particular interest in donovan's own skeletal anomalies echo and ember book 4 fbi agents donovan and eleri left their last case with a sense of unease unable to close the investigation they've been thrown into their next assignment far too fast a string of strange

arson based murders are just part of the trouble not only is former agent wade de gottardi on their team for this one so are two other nightshade agents dana brantley and christina pines the problem is eleri is no longer the senior agent dana is maybe their boss no longer trusts them or maybe it s simply because four people have already died either way donovan and eleri are no longer in control of the case as they hunt a serial killer who s getting bolder with each success while eleri and donovan are just getting their special skills in hand dana and christina are more at ease with theirs while dana s talents prove useful christina s are frightening and suspicious these are the first through fourth books in the nightshade forensic fbi files series by usa today bestselling author a j scudiere these books can each be read as a standalone but readers who love paranormal investigations and fbi thrillers will want to read the entire series
