named a 2013 doody's essential purchase this is a terrific text with good basic information and a level of detail tools and practicality that make it a useful resource to get older adults mobilized in any setting the gerontologist this book provides a practical hands on perspective for implementing function focused care in all settings it is a unique resource that is relevant for all nurses and health care providers working with older adults in addition to addressing functional decline function focused care provides a fresh and practical solution to many of the problems that tend to arise with older adults such as infections falls and pressure ulcers all known to be associated with immobility from the foreword by colin milner ceo international council on active aging this book encourages individualization which is difficult to achieve with more prescriptive approaches this second edition includes chapters on cognitively impaired adults ethical issues and patient centered care all of which are so important in long term care i found it to be very motivating in the way it helped me apply the philosophy and strategies to elders with whom i come in contact i would highly recommend this book to anyone working with elders score 95 4 stars doody's medical reviews the purpose of restorative care nursing often referred to as function focused care is to take an active role in helping older adults maintain their highest level of function thereby preventing excess disability this is the only volume to educate caregivers about both the philosophy of restorative care and how to integrate it into all care settings for older adults now in its second edition the text contains updated content in each chapter along with two entirely new chapters on function focused care for cognitively impaired adults ethical issues and patient centered care the book provides a complete six week education program in restorative care for nurses and other caregivers numerous practical suggestions for beneficial activities that will enhance function and strategies for motivating both older adults and caregivers to engage in restorative care woven throughout the text is research that documents the benefits and expected outcomes of restorative care the book also includes the requirements for restorative care across all settings and the necessary documentation restorative care nursing for older adults will help formal and informal caregivers and administrators at all levels assimilate the philosophy of restorative care and be able to develop and implement successful restorative care programs this new edition features completely updated information including two new chapters on function focused care for cognitively impaired adults ethical issues and patient centered care a six week education program that teaches practical application of restorative care nursing helpful suggestions and strategies for motivating older adults and caregivers education materials designed for nursing home assisted living and acute care settings including required documentation and goal setting forms educational materials for family caregivers

Restorative Nursing for Long Term Care

2009-11-12

working at the margins describes and analyzes the move from welfare rolls to paid employment of adults who were marginalized from the mainstream by race ethnicity language and economic status frances julia riemer utilizes ethnographic data gathered over two years from four workplaces that employed thirty seven former welfare recipients she examines how the private sector accommodates these workers and their differences and how the workers themselves negotiate the barriers they experience the book illustrates how government policies and adult education initiatives designed ostensibly to create opportunities often reify existing inequalities

this is the second ebook in a series of three publications that form part of a larger programme that was conducted in october 2023 april 2024 the programme aimed to develop a framework for advanced or enhanced practice in nursing in social care settings in the united kingdom to this end there is a need to understand the competencies required for enhanced and advanced nursing practice in social care and to articulate the training that is currently on offer for nursing staff working in social care settings the overall programme hypothesis is that the evolving social care system requires the deployment of both enhanced and advanced nursing competencies and the creation of career grade opportunities such competencies require further description and definition to demonstrate the benefits of employing enhanced and or advanced social care nurses the research of the overall programme is structured around three phases phase 1 involved comprehensive desk based research to establish a baseline for subsequent investigations phase 2 is concluded with this ebook which is based on original fieldwork that was carried out between december 2023 february 2024 this involved 13 in depth semi structured interviews and 2 semi structured focus groups the first focus group nurses nursing background had 6 participants while the second one employers training providers consisted of 8 participants this second e book in the series represents a significant stride forward in the exploration of advanced or enhanced levels of practice for registered nurses within social care settings i was relieved to see that this original piece of qualitative research gathered top tier practitioners including frontline nurses employers and educational providers who could accurately paint the picture the e book delves deep into existing gaps and analyses with a profound understanding of the needs around infrastructure education funding and regulation in social care nursing finally the research team not only provides clear guidance and recommendations but also outlines the necessary stakeholders and priorities it builds upon the groundwork laid in the first e book of the series advancing the practice of social care nursing juliet anderson director buckinghamshire health and social care academy to cite this ebook gavrielides t et al 2024 developing a framework for social care nurses enhanced or advanced practice the voices of practitioners and educators london rj4all publications isbn 978 1 80463 001 3 authors gavrielides t sideridou s and iosif m doi 10 13140 rg 2 2 14021 46567

Minnesota Code of Agency Rules

1982

this is the third ebook in a series of three publications that form part of a larger programme that was conducted in october 2023 april 2024 the programme aimed to develop a framework for advanced or enhanced practice in nursing in social care settings in the united kingdom to this end there is a need to understand the competencies required for enhanced and advanced nursing practice in social care and to articulate the training that is currently on offer for nursing staff working in social care settings the overall programme hypothesis is that the evolving social care system requires the deployment of both enhanced and advanced nursing competencies and the creation of career grade opportunities such competencies require further description and definition to demonstrate the benefits of employing enhanced and or advanced social care nurses the research of the overall programme is structured around three phases phase 1 involved comprehensive desk based research to establish a baseline for subsequent investigations phase 2 was based on original fieldwork that involved 13 in depth semi structured interviews and 2 semi structured focus groups the first focus group nurses nursing background had 6 participants while the second one employers training providers consisted of 8 participants following phase 2 and 3 this ebook undertakes triangulation of findings from both secondary and primary research by juxtaposing results across phases and consulting 4 key stakeholders from bhsca and bnu including also the analysis of an online survey which was completed by 171 practitioners and educators this final e book in the series is the culmination of a research journey around the potential of advanced and enhanced levels of practice for registered nurses within social care settings providing a scientifically proven conclusion it is impressive to note the significant participation

in the online survey which validated the research results and identified the necessary steps to elevate social care nursing through the collaboration of numerous participants the research team has not only triangulated the results but also accurately addressed the initial research questions regarding the potential development of a framework for advanced and enhanced practice this e book stands as a testament to the sector s commitment to advancing the practice of social care nursing juliet anderson director buckinghamshire health and social care academy to cite this ebook gavielides t et al 2024 developing a framework for social care nurses enhanced or advanced practice a triangulated study of primary and secondary evidence london rj4all publications isbn 978 1 80463 002 0 authors gavielides t sideridou s and iosif m doi 10 13140 rg 2 2 15699 18728

Working at the Margins

2012-02-01

america is number one in health care cost per capita and 38th in quality care statistically americans spend more money on their health care than anything else but food but the consumption of the health care dollar is predominately not paid for by the consumer the middlemen so to speak make the forces of free enterprise moot consumers are bystanders in the relationship between purchase and quality because they do not directly pay for the service or products this phenomenon is called monopsony the consumer is not the buyer but the buyer is almost singly dominant this is the reverse of monopoly where the seller has the last say this is not microsoft at work it is the federal and state medicare and medicaid programs that buy upwards of 75 of all health care service products under the obama nation government will be the purchaser of last resort for all americans due to the onslaught of the baby boomers both the government run health care and the insurance industry will bankrupt america unless they learn how to win the monopsony game this book defines the problems and proposes common sense solutions
