factory girls meets the vagina monologues in this fascinating narrative on china s single women and why they could be the source of its economic future forty years ago china enacted the one child policy only recently relaxed among many other unintended consequences it resulted in both an enormous gender imbalance with a predicted twenty million more men than women of marriage age by 2020 and china s first generations of only daughters given the resources normally reserved for boys these girls were pushed to study excel in college and succeed in careers as if they were sons now living in an economic powerhouse enough of these women have decided to postpone marriage or not marry at all to spawn a label leftovers unprecedentedly well educated and goal oriented they struggle to find partners in a society where gender roles have not evolved as vigorously as society itself and where new professional opportunities have made women less willing to compromise their careers or concede to marriage for the sake of being wed further complicating their search for a mate the vast majority of china s single men reside in and are tied to the rural areas where they were raised this makes them geographically economically and educationally incompatible with city dwelling leftovers who also face difficulty in partnering with urban men given the urban men s general preference for more dutiful domesticated wives part critique of china s paternalistic ideals part playful portrait of the romantic travails of china s trailblazing women and their well meaning parents who are anxious to see their daughters snuggled into traditional wedlock roseann lake s leftover in china focuses on the lives of four individual women against a backdrop of colorful anecdotes hundreds of interviews and rigorous historical and demographic research to show how these leftovers are the linchpin to china s future this book grows out of the question what is south asian american writing and what insights can it offer us about living in the world at this particular moment of tense geopolitics and inter linked economies south asian american literature with its focus on the multiple geographies and histories of the global dispersal of south asians pulls back from a close up view of the united states to reveal a wider landscape of many nations and peoples drawing on the cosmopolitan sensibility of scholars like anthony appiah vinay dharwadker martha nussbaum bruce robbins and amartya sen this book argues that to read the body of south asian american literature justly one must engage with the urgencies of places as diverse as bangladesh sri lanka india burma pakistan and trinidad poets novelists and playwrights like indran amirthanayagam meena alexander amitav ghosh michael ondaatje shani mootoo amitava kumar tahira naqvi and sharbari ahmed exhort north american residents to envision connectedness with inhabitants of other lands these writers significant contribution to american literature and to the american imagination is to depict the nation as simultaneously discrete and entwined within the fold of other nations the world out there arrives next door marooned in the world
