to phraseology the computational treatment of multiword expressions and the development annotation and exploitation of corpora for phraseological studies sisters in blue tells the story of two young women one spanish one puebloan meeting across space and time sor maría de jesús de Ágreda new mexico s famous lady in blue is said to have traveled to new mexico in the seventeenth century here anna m nogar and enrique r lamadrid bring her to life imagining an encounter between a pueblo woman and sor maría during the nun s mystical spiritual journeys tales of sor maría who described traveling across the earth and the heavens have traditionally presented her as an evangelist who helped bring catholicism to the pueblos instead this book which includes an essay providing historical context shows a connection between sor maría and her friend paf sheuri the two women find more similarities than differences in their shared experiences and what they learn from each other has an impact for centuries to come the collected essays in this volume address contemporary issues regarding the relationship between indigenous groups and archaeologists including the challenges of dialogue colonialism the difficulties of working within legislative and institutional frameworks and nagpra and similar legislation the disciplines of archaeology and cultural heritage management are international in scope and many countries continue to experience the impact of colonialism in response to these common experiences both archaeology and indigenous political movements involve international networks through which information quickly moves around the globe this volume reflects these dynamic dialectics between the past and the present and between the international and the local demonstrating that archaeology is a historical science always linked to contemporary cultural concerns tag along with rosita the roadrunner on her journey to learn about the land of enchantment and politics of the american political science association awash under a brown tide the relentless flow of immigrants like waves on a beach these human flows are remaking the face of america since 1993 metaphorical language such as this has permeated mainstream media reporting on the united states growing latino population in this groundbreaking book otto santa ana argues that far from being mere figures of speech such metaphors produce and sustain negative public perceptions of the latino community and its place in american society precluding the view that latinos are vested with the same rights and privileges as other citizens applying the insights of cognitive metaphor theory to an extensive natural language data set drawn from hundreds of articles in the los angeles times and other media santa ana reveals how metaphorical language portrays latinos as invaders outsiders burdens parasites diseases animals and weeds he convincingly demonstrates that three anti latino referenda passed in california because of such imagery particularly the infamous anti immigrant measure proposition 187 santa ana illustrates how proposition 209 organizers broadcast compelling new metaphors about racism to persuade an electorate that had previously supported affirmative action to ban it he also shows how proposition 227 supporters used antiquated metaphors for learning school and language to blame latino children's speech rather than gross structural inequity for their schools failure to educate them santa ana concludes by calling for the creation of insurgent metaphors to contest oppressive u s public discourse about minority communities a comprehensive encyclopedic guide to the authors works and topics crucial to the literature of central and south america and the dios existe es imposible conocerlo el panteísmo el mundo y dios son lo mismo y el deísmo creencia de que dios existe y creó el universo físico pero no interfiere con él intentan usar el conocimiento científico para apuntalar sus creencias sin embargo a pesar de ciertas contramarchas la ciencia va en dirección contraria apunta en el mismo sentido que la fe judeo cristiana revelada en la biblia en este libro el autor muestra como tanto desde los descubrimientos científicos a través del tiempo como desde el testimonio de figuras prominentes de las principales áreas de la ciencia como newton pascal boyle faraday maxwell townes collins etc se fortalece la confianza en el dios de la biblia y de la naturaleza los dos libros que nos revelan su grandeza poder y amor infinitos y su propósito para con los hombres la obra que el lector tiene en sus manos es en mi opinión una contribución muy oportuna y necesaria como respuesta a una guerra cultural que se libra contra la fe cristiana y su lugar en la sociedad y pretende usar a la ciencia como fundamento fernando d saraví diplomado en teología y doctor en medicina the poetical gazette the official organ of the poetry society and a
