this edited collection explores the philosophy of clarence irving lewis through two major concepts that are integral to his conceptual pragmatism the a priori and the given the relation between these two elements of knowledge forms the core of lewis s masterpiece mind and the world order while lewis s conceptual pragmatism is directed against any conception of the a priori as constraining the mind and experience it also emphasizes the inalterability and the unavoidability of the given that remains the same through any interpretation of it by the mind the chapters in this book probe lewis s new account of the relation between the a priori and the given in dialogue with other notable figures in twentieth century philosophy including goodman putnam quine russell sellars and sheffer c i lewis the a priori and the given represents a focused treatment of a longneglected figure in twentieth century american philosophy

the more things change the more they stay the same from nonresistance to justice explores how this is true when it comes to teaching about peace for the former mennonite church now part of mennonite church usa has the church changed in regard to its beliefs and practices about peace over the past 100 years yes has it remained the same yes reading this book will show that both are true through the book ervin stutzman shows how the church moved from an emphasis on nonresistance and nonconformity to engage in advocacy for peace and justice at the same time he presses

for a greater emphasis on the way that god s activity must guide our work in the world arguing for a stronger link between god s grace justice and peace volume 46 in the studies in anabaptist and mennonite history series

in this study teun van der leer tells the story of the believers church tradition a tradition mainly rooted in the so called radical reformation which prefers to be called a movement or rather a renewal movement its name is a program a vision and a way of being church based on extensive source research this book describes and analyzes the defining characteristics of this so called third type of church and investigates its ecumenical value with an extensive description of its nature of faith the church hermeneutical discernment and mission this book colors a movement within the church landscape that has never been mapped in such detail before as such the book provides an in depth introduction to this ecumenically important but still a bit underexposed movement and makes a substantial contribution to the ecumenical

ecclesiological debate about the church and its future
