*Teaching Emergent Bilingual Students with Dis/Abilities* 2023-03-24 grounded in authentic teaching

and learning experiences this book shows elementary school educators how to create spaces that more respectfully and humanely address the needs of emergent bilinguals with disabilities while the fields of bilingual education and disability studies have been traditionally kept separate martínez Álvarez argues that many of the constructs researchers and educators employ in their respective fields can be combined to improve instruction this book establishes a dialogue among important constructs such as issues of assimilation and ableism and the expansion of identity agency and humanistic pedagogies it then looks at how these constructs can be used to better understand children who have been assigned inflexible labels that do not cohesively represent their bilingual bicultural identities and their varied ways of learning the text explores the limitations of categorizing children into boxes particularly those of minoritized backgrounds and focuses on actual practices that will engage and empower learners book features combines the fields of bilingual education and disability studies so that bilingual students with disabilities can be understood and taught from a strengths based perspective includes activity invitations to help teachers create high quality learning spaces provides sample work from diverse elementary school aged children as well as children s responses to the learning activity proposes curriculum to expand what identity and agency look like in schools embracing more humanistic pedagogies

Response to Intervention 2007-04-05 discover a resource that shows teachers how to implement rti in the classroom this practical guide helps educators understand the tiers of the response to intervention rti process as well as how to implement interventions and utilize the results to modify existing instruction for students in the classroom with vignettes examples and reproducible forms based on the problem solving and standards based approaches to rti this accessible handbook gives teachers the tools to document the existence or nonexistence of a learning disability monitor individual student progress plan specific follow up interventions based on a learner s needs implement strategies to support students success

Healers in the Making: Students, Physicians, and Medical Education in Medieval Bologna (1250-1550) 2020-12-15 in healers in the making kira robison investigates medical instruction at the university of bologna using the lens of practical medicine examining both the formation of medical authority and innovations in practical medical pedagogy during the late medieval period

**Examining the Roles of Teachers and Students in Mastering New Technologies** 2020-02-21 the development of technologies education and economy play an important role in modern society digital literacy is important for personal development and for the economic growth of society technological learning provides students with specific knowledge and capabilities for using new technologies in their everyday lives and in their careers examining the roles of teachers and students in mastering new technologies is a critical scholarly resource that examines computer literacy knowledge levels in students and the perception of computer use in the classroom from various teacher perspectives featuring a wide range of topics such as higher education special education and blended learning this book is ideal for teachers instructional designers curriculum developers academicians policymakers administrators researchers and students

Statistics of Land-grant Colleges and Universities 1931 this edited volume focuses on the thorny and somewhat controversial issue of teaching and learning interculturality in a way that considers the notion from critical and reflexive perspectives when introduced to students comprised of three parts the book discusses the nuts and bolts of teaching interculturality considers changes in the teaching of interculturality and provides pedagogical insights into interculturalising the notion it studies both teaching im ex plicitly about interculturality and how to incorporate interculturality into teaching practices or into an institution by sharing varied cases and theoretical reflections on the topic the editors and contributors from different parts of the world aim to stimulate more initiatives to enrich the field instead of delimiting it especially in complement to and beyond the west or global north and also to build up further reflexivity in the way readers engage with interculturality in education this will be a must read for teachers and researchers of intercultural communication education at different educational levels as well as anyone interested in scholarship on education
