## **The Senses 2018-07-24**

this handbook is a state of the field volume  
containing diverse approaches to sensory  
experience bringing to life in an innovative  
remarkably vivid and visceral way the lives of  
past humans through contributions that cover  
the chronological and geographical expanse of  
the ancient near east it comprises thirty two  
chapters written by leading international  
contributors that look at the ways in which  
humans through their senses experienced their  
lives and the world around them in the ancient  
near east with coverage of anatolia egypt the  
levant mesopotamia syria and persia from the  
neolithic through the roman period it is  
organised into six parts related to sensory  
contexts practice production and taskscape  
dress and the body ritualised practice and  
ceremonial spaces death and burial science  
medicine and aesthetics and languages and

semantic fields in addition to exploring what makes each sensory context unique this organisation facilitates cross cultural and cross chronological as well as cross sensory and multisensory comparisons and discussions of sensory experiences in the ancient world in so doing the volume also enables considerations of senses beyond the five sense model of western philosophy sight hearing touch taste and smell including proprioception and interoception and the phenomena of synaesthesia and kinaesthesia the routledge handbook of the senses in the ancient near east provides scholars and students within the field of ancient near eastern studies new perspectives on and conceptions of familiar spaces places and practices as well as material culture and texts it also allows scholars and students from adjacent fields such as classics and biblical studies to engage with this material and is a must read for any scholar or student interested in or already engaged with the field of sensory studies in any period
