

Ebook free A social history of maternity and childbirth key themes in maternity care [PDF]

the growth of public health courses aimed at undergraduates has created a new need for textbooks that are appropriate and stimulating miranda thurston has succeeded in producing something which strikes the right note it is wide ranging in scope without being superficial and is accessible to the young learner it is a sort of wiki just what the aspiring public health practitioner ordered professor john r ashton c b e president of the uk faculty of public health key themes in public health comprises a series of introductory essays exploring key themes and concepts in public health ranging from political and economic concern with improving population health and reducing health inequalities to debates about how to protect populations from new health threats as well as a concern with individual responsibility for lifestyles and behaviour the themes discussed include determinants of health globalisation evidence climate change ethics development poverty risk and population presenting provocative ways of thinking about key ideas in a concise fashion each essay provides a basic grounding in the relevant theme as well as a departure point for further study by defining the theme in an accessible way placing each idea in its particular social political economic and historical context illustrating its application and significance for public health identifying and exploring issues surrounding each of the themes this text provides an accessible overview for students new to public health who want to get to grips with the full range and complexity of this diverse and multidisciplinary field key themes in youth sport is a concise easy to read guide to core concepts in the study of young people s relationship with sport exercise and leisure designed to help students get to grips with the basics and go on to master the central ideas and debates in contemporary youth sport this book reflects the multi disciplinary interest in youth sport exploring perspectives from sociology psychology physiology sports policy sports development and physical education key themes in health and social care is a learning resource for students in health and social care it provides an overview of foundational issues and core themes in the field and introduces key areas of debate moving from an introductory level to in depth discussion as the book progresses divided into three parts the first part sets the scene addressing introductory psychology and sociology social policy equality and diversity skills for practice and working with people the second part considers key themes such as the contribution of philosophy and politics criminal justice management of services the relationship between place and wellbeing research in health and social care theories of counselling housing and the built environment the third part looks at discrete areas of practice such as mental health substance abuse protection work health promotion disability studies working with men child welfare and public responsibility each chapter begins with an outline of the content and learning outcomes and includes reflective exercises to allow students to reflect on what they have read review their learning and consolidate their understanding time pressed readers wanting to dip into the book for relevant areas can do so but read from cover to cover the book provides a comprehensive introduction to the key areas of contemporary health and social care practice it will be particularly helpful for students undertaking health and social care undergraduate and foundation degrees this introductory text explores the socio cultural surround in which interpersonal communication takes place and considers the interface between interpersonal and mass communication key themes in qualitative research is an attempt by three well respected ethnographic researchers to present a balanced view of qualitative methodology and research the book is structured around classic texts written by methodological pioneers which comprise the basic foundation of modern qualitative research the authors examine key premises in these texts such as intimacy advocacy and validity and how they may be supported redesigned or made problematic in today s field this allows for a critical analysis of old guard vs avant garde ideas and provides for the reader a guide to wade through the proliferation of texts and theories available since the postmodern turn while not designed as a primer in qualitative research methods anyone with modest experience in the field should find this book extremely useful this is a beautifully written book that takes the reader to the heart of ethnography as experience readers can walk in the shoes of ethnographers who have travelled before them and learn as they learned sara

delamont is an undisputed expert in both ethnography and education and here illustrates she is also a tour de force in writing style all the important ingredients for a recipe to make a good quality ethnography are here and they are served up with relish karen o reilly loughborough university this is a powerful richly nuanced evocative work a stunning and brilliantly innovative intervention it provides ground zero the starting place for the next generation of social scholars of education a major accomplishment norman k denzin university of illinois at urbana champaign the ethnography of education has been conducted by sociologists and anthropologists largely in self contained and self referential ways this book celebrates the continuities and the strengths of ethnographic research on education in formal and non formal settings deliberately transgressing the sociology anthropology divide education is broadly defined to cover many settings other than schools in many countries for many age groups the book is structured thematically including chapters on movement and mobilities memories and time and timescapes bodies and performativities multi sensory research and narratives strategies for designing innovative ethnographic projects and for fighting familiarity are provided what are the main influences on the formation of self identity what role do language and non verbal communication play in the construction and display of identity how does consumer culture impact on displays of self identity the rapid growth of cultural diversity within western societies not only presents new possibilities and dilemmas for the construction of self and social identity but also highlights the need for individuals to be aware of the factors which impact upon co cultural and intercultural communication many of the messages carried in everyday social interaction can be seen to carry the raw materials out of which identities are explored displayed and constructed this introductory text explores the socio cultural surround in which interpersonal communication takes place and considers the interface between interpersonal and mass communication case studies models questions for discussion and examples linking theory and practice allow you to explore ideas about the formation and display of identity in everyday encounters topics include exploration of the concept of identity identities in groups social identities ethnic class gender and sexuality consumer identities marginalised or outsider identities models of communication intercultural communication key themes in interpersonal communication is a must read for all students on communication studies cultural studies and sociology courses philosophy key themes is a beginner s guide to understanding and critiquing philosophical arguments each chapter introduces one of the major themes in philosophy baggini s approach combines explanation with summary while encouraging the reader to question the arguments and positions presented the current state of qualitative research methodological writing and practices of ethnography are in danger of losing basic necessary continuities argue a team of sociologists from cardiff u k they further suggest that many of the controversies viewed as new by postmodernists and others have already been recognized by earlier sociologists they explore these issues setting forth their own views on such matters as autoethnography participation observation and styles of reporting key themes in youth sport is a concise easy to read reference style guide to the core concepts in the study of young people s relationship with sport exercise and leisure designed to help students get to grips with the basics and go on to master the central ideas and debates in contemporary youth sport this book reflects the multi disciplinary interest in youth sport exploring perspectives from sociology psychology physiology sports policy sports development and physical education this text comprises a series of introductory essays exploring key themes and concepts in public health the themes discussed include determinants of health globalisation evidence climate change ethics development poverty risk and population presenting provocative ways of thinking about key ideas in a concise fashion each essay provides a basic grounding in the relevant theme as well as a departure point for further study it provides an accessible overview for students new to public health who want to get to grips with the full range and complexity of this diverse and multidisciplinary field key history for gcse offers a cost effective approach to resourcing the new gcse syllabuses as one core book covers all the modern world syllabus requirements the series is practical and flexible the core book is supplemented by topic books providing resurces for modern world and schools history project depth studies teachers will enjoy a comprehensive support package each pupils book is supported by a fully integrated teacher s resource guide providing worksheets for mixed abilities homework resources and guidelines on assessment suitable for all ability levels extra help is given for lower ability pupils the series makes an ideal core resource for gcse suitable for use either as a stand alone course or as a follow on to key history for key stage 3 providing progression in learning style and presentation key themes is a critical introduction to key

theories of media for undergraduate students this book offers a comprehensive multidisciplinary introduction to theme parks and the field of theme park studies it identifies and discusses relevant economic social and cultural as well as medial historical and geographical aspects of theme parks worldwide from the big international theme park chains to smaller regional family operated parks the book also describes the theories and methods that have been used to study theme parks in various academic disciplines and reviews the major contexts in which theme parks have been studied by providing the necessary backgrounds theories and methods to analyze and understand theme parks both as a business field and as a socio cultural phenomenon this book will be a great resource to students academics from all disciplines interested in theme parks and professionals and policy makers in the leisure and entertainment as well as the urban planning sector the aim of this book is to provide a coherent picture of contemporary social theory the hope is that an uncluttered and more unified discussion of key themes will improve the ability of students to master this topic this book is not organised around persons or schools of thought likewise the attempt is made to avoid insider debates and the jargon that has become the hallmark of this stage of theory development key themes are thus identified and reviewed in a straightforward manner while trying to unpack the relevant philosophical themes in an accessible way this book addresses a range of highly debated problems among scholars of plato s phaedo and provides an overall interpretation of the dialogue nicholas medtner 1880 1951 has always been a neglected figure in the history of russian music and yet his friend rachmaninoff considered him the greatest of contemporary composers he wrote three fine piano concertos more than one hundred solo piano compositions including a cycle of fourteen sonatas fully worthy to be set alongside those of scriabin and prokofiev and many beautiful songs he was also a great pianist leaving russia after the bolshevik revolution medtner lived for a time in germany and france before finally settling in london where he passed the final sixteen years of his life the present work is the first to tell the full story of his eventful life and to consider in turn each of his compositions the author has drawn on medtner s own correspondence and writings and collected the reminiscences of those who knew him personally to build a comprehensive picture of a great if still largely unrecognised musician

h

the book reviews problems issues and presentations of the newest research in the field of cyberwarfare and cyberterrorism while enormous efficiencies have been gained as a result of computers and telecommunications technologies use of these systems and networks translates into a major concentration of information resources creating a vulnerability to a host of attacks and exploitations provided by publisher faber piano adventures these sonatinas offer a path for developing finger dexterity contents include sonatina in f attwood sonatina in g beethoven sonatina op 36 no 1 clementi sonatina in f 1st mvt diabelli sonatina in c haslinger sonatina in a minor jacoby sonatina op 55 no 1 kuhlau sonatina in c 1st mvt mvt gurlitt the most terrible disaster that one group of human beings can inflict on another is war wars cause misery on an indescribable scale yet we go on doing it to one another generation after generation why warfare is a recurrent and universal characteristic of human existence the mythologies of practically all peoples abound in wars and the superhuman deeds of warriors and pre literate communities apparently delighted in the recital of stories about battles since our species became literate a mere 5 000 years ago written history has mostly been the history of wars thousands who knew war evidently sickened of it and dreamt of lasting peace expressing their vision in literature and art in philosophy and religion they imagined utopias freed of martial ambition and bloodshed which harked back to the golden age of classical antiquity to the christian vision of a paradise lost and to the arcadia of greek and latin poetry so richly celebrated in the canvases of claude and poussin all these things bear eloquent testimony to the human longing for peace but they have not triumphed over our dreadfully powerful propensity to war from the introduction by anthony stevens in this multi disciplinary collection of essays on the manifestations of war in poetry fiction drama music and documentaries scholars and practitioners from an international context describe the transformation of the war experience into chronicles of hope and despair from herodotus up to the present day do existing measures of state fragility measure fragility accurately based on commonly used fragility measures south africa sa is classified as a relatively stable state yet rising violent crime high unemployment endemic poverty eroding public trust identity group based preferential treatment policies and the rapid rise of the private security sector are all indications that sa may be suffering from latent state fragility based on a

comprehensive view of security this study examines the extent to which measures of political legitimacy and good governance effectiveness in the security system especially with respect to the police system and mounting economic challenges may be undermining the stability of sa in ways undetected by commonly used measures of state fragility using a mixed methods approach based on quantitative secondary data analysis and semi structured interviews with government officials security practitioners and leading experts in the field this study finds that the combination of colonization apartheid liberation struggle transition from autocracy to democracy high levels of direct and structural violence stagnating social political and economic developments make south africa a latently fragile state conceptually the results of this research call into question the validity of commonly used measures of state fragility and suggest the need for a more comprehensive approach to assessing state fragility practically this study offers a number of concrete policy recommendations for how south africa may address mounting levels of latent state fragility universal design design for all and inclusive design are all aimed at dismantling physical and social barriers to inclusion in all areas of life engagement in universal design is on the increase worldwide as practitioners and researchers explore creative and desirable solutions to shape the future of universal design products and practices this book is a collection of the papers presented at ud2014 the international conference on universal design held in lund sweden in june 2014 the conference offered a creative and diverse meeting place for all participants to exchange knowledge experiences and ideas and to build global connections and creative networks for future work on universal design the themes of ud2014 span many aspects of societal life and the papers included here cover areas as diverse as architecture public transport educational and play environments housing universal workspaces and the internet of things as well as designs and adaptations for assistive technology the book clearly demonstrates the breadth of universal design and its ongoing adoption in societies all over the world and will be of interest to anyone whose work involves building a more inclusive environment for all originally published by oxford in 1998 psycho oncology was the first comprehensive text in the field and remains the gold standard today edited by a team of leading experts in psycho oncology spearheaded by dr jimmie c holland the founder of the field the text reflects the interdisciplinary nature and global reach of this growing field thoroughly updated and developed in collaboration with the american psychosocial society and the international psycho oncology society the third edition is a current comprehensive reference for psychiatrists psychologists oncologists hospice workers and social workers seeking to understand and manage the psychological issues involved in the care of persons with cancer and the psychological social and behavioral factors that contribute to cancer risk and survival new to this edition are chapters on gender based and geriatric issues and expanded coverage of underserved populations community based programs and caregiver training and education in global politics women s bodies are policed objectified surveilled and feared with particular attention paid to both their met or unmet procreative potential by illuminating and interrogating representations and narratives of maternity this volume shows how practices of global politics shape and are shaped by the gendered norms and institutions that underpin motherhood the guiding theoretical idea in this volume is that motherhood matters in global politics however as with so many political phenomena coded female in the binary cognitive architectures of the west the diverse ways in which performances and practices of motherhood are constituted by and are constitutive of other dimensions of political life they are frequently obscured or assumed to be of little interest to scholars policy makers and practitioners featuring innovative and diverse interrogations of the politics of motherhood as an institution this collection shows that maternity is troubled complicated and heterogeneous in global politics and thus performances and practices of motherhood warrant closer and more sustained scrutiny a vital part of daily life in the nineteenth century games and play were so familiar and so ubiquitous that their presence over time became almost invisible technological advances during the century allowed for easier manufacturing and distribution of board games and books about games and the changing economic conditions created a larger market for them as well as more time in which to play them these changing conditions not only made games more profitable but they also increased the influence of games on many facets of culture playing games in nineteenth century britain and america focuses on the material and visual culture of both american and british games examining how cultures of play intersect with evolving

gender norms economic structures scientific discourses social movements and nationalist sentiments

Key Themes in Public Health 2014-06-27

the growth of public health courses aimed at undergraduates has created a new need for textbooks that are appropriate and stimulating miranda thurston has succeeded in producing something which strikes the right note it is wide ranging in scope without being superficial and is accessible to the young learner it is a sort of wiki just what the aspiring public health practitioner ordered professor john r ashton c b e president of the uk faculty of public health key themes in public health comprises a series of introductory essays exploring key themes and concepts in public health ranging from political and economic concern with improving population health and reducing health inequalities to debates about how to protect populations from new health threats as well as a concern with individual responsibility for lifestyles and behaviour the themes discussed include determinants of health globalisation evidence climate change ethics development poverty risk and population presenting provocative ways of thinking about key ideas in a concise fashion each essay provides a basic grounding in the relevant theme as well as a departure point for further study by defining the theme in an accessible way placing each idea in its particular social political economic and historical context illustrating its application and significance for public health identifying and exploring issues surrounding each of the themes this text provides an accessible overview for students new to public health who want to get to grips with the full range and complexity of this diverse and multidisciplinary field

Key Themes in Youth Sport 2010-10-04

key themes in youth sport is a concise easy to read guide to core concepts in the study of young people s relationship with sport exercise and leisure designed to help students get to grips with the basics and go on to master the central ideas and debates in contemporary youth sport this book reflects the multi disciplinary interest in youth sport exploring perspectives from sociology psychology physiology sports policy sports development and physical education

Key Themes in Health and Social Care 2010-10-04

key themes in health and social care is a learning resource for students in health and social care it provides an overview of foundational issues and core themes in the field and introduces key areas of debate moving from an introductory level to in depth discussion as the book progresses divided into three parts the first part sets the scene addressing introductory psychology and sociology social policy equality and diversity skills for practice and working with people the second part considers key themes such as the contribution of philosophy and politics criminal justice management of services the relationship between place and wellbeing research in health and social care theories of counselling housing and the built environment the third part looks at discrete areas of practice such as mental health substance abuse protection work health promotion disability studies working with men child welfare and public responsibility each chapter begins with an outline of the content and learning outcomes and includes reflective exercises to allow students to reflect on what they have read review their learning and consolidate their understanding time pressed readers wanting to dip into the book for relevant areas can do so but read from cover to cover the book provides a comprehensive introduction to the key areas of contemporary health and social care practice it will be particularly helpful for students undertaking health and social care undergraduate and foundation degrees

Key Themes In Interpersonal Communication 2007-11-01

this introductory text explores the socio cultural surround in which interpersonal communication takes place and considers the interface between interpersonal and mass communication

Key Themes in Qualitative Research 2004-01-01

key themes in qualitative research is an attempt by three well respected ethnographic researchers to present a balanced view of qualitative methodology and research the book is structured around classic texts written by methodological pioneers which comprise the basic foundation of modern qualitative research the authors examine key premises in these texts such as intimacy advocacy and validity and how they may be supported redesigned or made problematic in today s field this allows for a critical analysis of old guard vs avant garde ideas and provides for the reader a guide to wade through the proliferation of texts and theories available since the postmodern turn while not designed as a primer in qualitative research methods anyone with modest experience in the field should find this book extremely useful

Key Themes in the Ethnography of Education 2013-12-05

this is a beautifully written book that takes the reader to the heart of ethnography as experience readers can walk in the shoes of ethnographers who have travelled before them and learn as they learned sara delamont is an undisputed expert in both ethnography and education and here illustrates she is also a tour de force in writing style all the important ingredients for a recipe to make a good quality ethnography are here and they are served up with relish karen o reilly loughborough university this is a powerful richly nuanced evocative work a stunning and brilliantly innovative intervention it provides ground zero the starting place for the next generation of social scholars of education a major accomplishment norman k denzin university of illinois at urbana champaign the ethnography of education has been conducted by sociologists and anthropologists largely in self contained and self referential ways this book celebrates the continuities and the strengths of ethnographic research on education in formal and non formal settings deliberately transgressing the sociology anthropology divide education is broadly defined to cover many settings other than schools in many countries for many age groups the book is structured thematically including chapters on movement and mobilities memorials and memories time and timescapes bodies and performativities multi sensory research and narratives strategies for designing innovative ethnographic projects and for fighting familiarity are provided

EBOOK: Key Themes in Interpersonal Communication 2007-11-16

From Death to Life: Key Themes in Plato's Phaedo 2023-01-16

the most terrible disaster that one group of human beings can inflict on another is war wars cause misery on an indescribable scale yet we go on doing it to one another generation after generation

why warfare is a recurrent and universal characteristic of human existence the mythologies of practically all peoples abound in wars and the superhuman deeds of warriors and pre literate communities apparently delighted in the recital of stories about battles since our species became literate a mere 5 000 years ago written history has mostly been the history of wars thousands who knew war evidently sickened of it and dreamt of lasting peace expressing their vision in literature and art in philosophy and religion they imagined utopias freed of martial ambition and bloodshed which harked back to the golden age of classical antiquity to the christian vision of a paradise lost and to the arcadia of greek and latin poetry so richly celebrated in the canvases of claudelouise and poussin all these things bear eloquent testimony to the human longing for peace but they have not triumphed over our dreadfully powerful propensity to war from the introduction by anthony stevens in this multi disciplinary collection of essays on the manifestations of war in poetry fiction drama music and documentaries scholars and practitioners from an international context describe the transformation of the war experience into chronicles of hope and despair from herodotus up to the present day

Nicolas Medtner 2017-07-05

do existing measures of state fragility measure fragility accurately based on commonly used fragility measures south africa sa is classified as a relatively stable state yet rising violent crime high unemployment endemic poverty eroding public trust identity group based preferential treatment policies and the rapid rise of the private security sector are all indications that sa may be suffering from latent state fragility based on a comprehensive view of security this study examines the extent to which measures of political legitimacy and good governance effectiveness in the security system especially with respect to the police system and mounting economic challenges may be undermining the stability of sa in ways undetected by commonly used measures of state fragility using a mixed methods approach based on quantitative secondary data analysis and semi structured interviews with government officials security practitioners and leading experts in the field this study finds that the combination of colonization apartheid liberation struggle transition from autocracy to democracy high levels of direct and structural violence stagnating social political and economic developments make south africa a latently fragile state conceptually the results of this research call into question the validity of commonly used measures of state fragility and suggest the need for a more comprehensive approach to assessing state fragility practically this study offers a number of concrete policy recommendations for how south africa may address mounting levels of latent state fragility
