the revelation of metatron is a medieval jewish work that claims to have been written in the late 2nd century ad by rabbi ishmael the high priest it is known by various names including the sepher hekhalot book of the palaces the 3rd book of enoch and the book of rabbi ishmael the high priest although its most common name is the revelation of metatron the earliest name for the work was likely the sepher hekhalot book of the palaces however all copies have been so reworked that it cannot be known for sure it is clear that rabbi ishmael did not write it and his name which is in almost every verse was inserted to replace another name that the medieval publisher did not want associated with the book rabbi ishmael was the author of the book called hekhalot rabbati greater palaces sometime between 100 and 130 ad and his name was late used as a pseudonym by many authors of merkabah literature between 200 and 1000 ad several fragments of the ascension of moses have survived to the present however most of the work is likely lost forever the ascension of moses is almost certainly the precursor to the revelation of metatron in which rabbi ishmael was taken up to the sky by metatron the supreme archangel in the ascension of moses it was moses who was taken up to the sky and metatron played a smaller role although clearly the same role in the long aramaic revelation of moses which is the closest to revelation of metatron in both the long aramaic revelation of moses and the revelation of metatron metatron identifies himself as enoch moses ancestor which connects this clearly heretical jewish work with the older enochian literature in the other surviving fragments the connection is less clear as is the cosmography of the seven skies and it is therefore possible that there were several stages of textual development before the version that was redacted into the revelation of metatron in the revelation of metatron the role of moses has

been replaced by rabbi ishmael a rabbi who lived in palestine in the late 1st century and early 2nd century ad however his name was attached to most of the merkabah literature in that circulated in babylonia during between 400 and 1000 ad and is universally considered to have been used to replace an earlier name chapter 15b of the revelation of metatron is itself an excerpt from the ascension of moses which if nothing else proves that the ascension has been viewed as an earlier copy of the revelation since at least the 1000 ad the latest the revelation was likely to have been edited significantly the story of samyaza and azazel which like the yiddish ascension of moses is a yiddish story found among the chronicles of jarahmeel also appears to be a very ancient story bordering about as close as a jew could get to polytheism without actually crossing that imaginary line it is included as an appendix as it seems relevant to the question of metatron s origin within judaism however it is its treatment of astarah that reveals its true age the name is a variation of asherah who is mentioned many times in the hebrew bible generally in association with ba al her worship was banned by king josiah in the hebrew book of kings when he banned the worship of ba al and the armies of the sky hosts of heaven archaeological evidence has proven that jews or possibly essenes continued to worship asherah until the 6th century bc during the early persians era which is missing from the talmud s records

the revelation of metatron is a medieval jewish work that claims to have been written in the late 2nd century ad by rabbi ishmael the high priest it is known by various names including the sepher hekhalot book of the palaces the 3rd book of enoch and the book of rabbi ishmael the high priest

although its most common name is the revelation of metatron the earliest name for the work was likely the sepher hekhalot book of the palaces however all copies have been so reworked that it cannot be known for sure it is clear that rabbi ishmael did not write it and his name which is in almost every verse was inserted to replace another name that the medieval publisher did not want associated with the book rabbi ishmael was the author of the book called hekhalot rabbati greater palaces sometime between 100 and 130 ad and his name was later used as a pseudonym by many authors of merkabah literature between 200 and 1000 ad hekhalot palaces and merkabah flying chariot are two related forms of jewish literature that developed from the visions from in the prophetic books such as ezeziel apocalyptic books such as isaiah and the enochian tradition hekhalot literature which includes books that focus on merkabah such as maaseh merkabah working of the flying chariot is the term used for works written during the second temple era during the second jewish roman war merkabah literature was prohibited largely it seems due to the teachings of rabbi elisha ben abujah more commonly referred to as aher meaning the other after the literature was banned it went underground and continued to be used in secret resulting in the merkabah flying chariot literature which itself later gave rise to the kabbalah school of judaism at each stage the literature became more metaphysical and spiritual resulting in stranger and stranger texts for the uninitiated much of which can be seen in the various additions and redactions to the revelation of metatron the contents of the chapters of the ascension of moses that have survived to the present show that the ascension is an earlier version of the revelation of metatron and the original protagonist of the story later redacted to rabbi ishmael there are several parallels between the stories of moses and metatron in the ascension and the stories of ishmael and metatron in the revelation however the revelation includes several heretical concepts that the original redactor and author of chapter 16 did not want to ascribe to moses and therefore used the popular merkabah pseudonym ishmael the date of the original redaction is also difficult to determine as aher is a

heretic in the talmuds and tosefta and so the derogatory nick name could have been adopted from the talmud or tosefta at any point nevertheless if the original work was rabbi elisha s'aher s'epher hekhalot it would have likely been redacted before the babylonian talmud's version of the story which did not bother to name him by that point the text would have been by a generally unknown author and there would have been no reason to redact his name from it this would place the original redaction sometime before 450 ad and likely in byzantine palestine

the five books of enoch are a collection of books written in semitic languages and often grouped together as the book of enoch or 1st enoch the books were likely written at different points in time and different semitic languages the first book was the book of the watchers which is generally considered to be the oldest book in the collection however the age of the book is debated the book is now known to have originated long before christianity since the discovery of the dead sea scrolls however was lost for well over a thousand years to europeans and assumed to be a christian era work when the europeans rediscovered it in ethiopia the five books of enoch only survive in ge'ez the classical language of ethiopia however do not survive intact and some sections of text do not survive other books attributed to enoch including the secrets of enoch which is also called the 2nd book of enoch however is not the same text as the semitic 2nd book of enoch the secrets of enoch has only survived in the old slavonic language in the balkan peninsula and may be a partial paraphrase of the book of the watchers another text attributed to enoch is the revelation of metatron also called the revelation of metatron book of the palaces book of rabbi ishmael the high

priest or the 3rd book of enoch however is not the same text as the ethiopian 3rd book of enoch or any section of the semitic books of enoch the revelation of metatron is written as a sequel to the first five books of enoch and is written from the perspective of enoch in the sky where his angelic name was metatron the revelation of metatron appears to have been written in hebrew but includes several greek and latin words that have led scholars to assume the text is a jewish text written in the christian era the revelation of metatron is a medieval jewish work that claims to have been written in the late 2nd century ad by rabbi ishmael the high priest it is known by various names including the sepher hekhalot book of the palaces the 3rd book of enoch and the book of rabbi ishmael the high priest although its most common name is the revelation of metatron the earliest name for the work was likely the sepher hekhalot book of the palaces however all copies have been so reworked that it cannot be known for sure it is clear that rabbi ishmael did not write it and his name which is in almost every verse was inserted to replace another name that the medieval publisher did not want associated with the book rabbi ishmael was the author of the book called hekhalot rabbati greater palaces sometime between 100 and 130 ad and his name was late used as a pseudonym by many authors of merkabah literature between 200 and 1000 ad

## The Legends of the Jews

to this day legends of the jews remains a most remarkable and comprehensive compilation of stories connected to the hebrew bible it is an indispensable reference on that body of literature known as midrash the imaginative retelling and elaboration on bible stories in which mythological tales about demons and magic co exist with moralistic stories about the piety of the patriarchs legends is the first book to which one turns to learn about the postbiblical understanding of a biblical episode or to discover the source for biblical legends that cannot be traced directly to the bible it is also the first place to find the answers to such questions as on what day was abraham born what was moses physical appearance or what was the name of potiphar s wife launched in 1901 by the jewish publication society the original project began as a single volume of 1 000 pages but grew much larger by 1938 when the seventh volume containing the indexes was finally published louis ginzberg was 28 years old when henrietta szold secretary of the society prepared the contract for what was conceived as a small popular volume on jewish legends as the scion of two distinguished rabbinical families ginzberg studied in the great lithuanian yeshivot of telz and slobodka later he received his secular education at strassburg and heidelberg universities this combination of religious and secular learning enabled him to pursue with great passion the wide ranging roots of jewish legend ginzberg believed that jewish legend was both earlier and greater than what was represented in the talmud and midrashic collections the primary rabbinic sources and so he scoured jewish christian islamic and oriental sources to rediscover the fine threads of jewish legend the result was a masterpiece a single coherent collection of legends that follows the biblical narrative accompanied by detailed notes that reveal a complex subtext of often intersecting and multi layered levels of influence

borrowed notions and interpretive commentaries

the universe is not the fruit of a series of random chaotic and blind events rather nature is the manifestation of a work full of intelligent science and wisdom always faithful to and constant with itself in the search for the original authentic universe only the great science of alchemy founded on the principle that everything works as a whole in close unity and is all subdued to the same forces of equilibrium or disequilibrium in origin has the power to expose the multiple faces of life and death in

equilibrium author josué roussel diligently explores the basis of the principle of universal equilibrium this progressive study refines our perceptions in identifying the nature of balance and imbalance in the universe rather than being based on an intuitive inspiration the science of alchemy exclusively provides an interpretation of the dual forces of good and evil with truth emblazoned on one side and illusion on another this science of the absolute establishes a close association between the physical world and the invisible world nothing is random since every single phenomenon we see and feel means something is there truth in spiritual revelation and how can we make sense of all this this innovative approach to both science and spirituality through alchemy will ultimately serve as the cornerstone of a series of works related to various themes associated with universal sciences building the philosopher s stone becomes the ultimate lever of alchemy and its breakthroughs will be demystified like never before

the book represents an in depth investigation of acquisition cultivation and transmission of divine mysteries in jewish apocalyptic and mystical accounts by focusing on the developments found in

early enochic writings these accounts deal both with revelations unveiled by god and angels to the patriarch enoch and with illicit transmission of divine knowledge by the rogue group of the fallen angels known as the watchers orlov argues that the map of otherworldly knowledge revealed to enoch inversely mirrors the map of illicit revelations given by the fallen watchers to humankind the study suggests that one of the possible objectives for the parallelism is that by revealing to enoch the same divine mysteries that were earlier transmitted by the watchers god attempts to mitigate the corruption caused by the fallen angels illicit instructions this book will be of interest not only for scholars specializing in historical and religious areas but also for experts in the fields of anthropology philosophy sociology psychology and gender theory it discusses several aspects of early and late jewish religious epistemologies that elucidate the ideological context for the construction and affirmation of social roles and identities in various jewish milieus

of the gods author craig hines invites readers to reconsider preconceived notions concerning biblical theology in light of recent scientific discoveries and inquiries concerning the nature of the universe this fascinating exploration reveals a number of ideas that have been suppressed and obscured behind layers of symbolism and misguided propaganda for thousands of years until now why is it that so many world cultures share details of an event when fallen angels descended upon the earth and fathered hybrid offspring called the nephilim is it possible that these beings used gateway technology housed within pyramids and holy temples to travel between the heavenly and earthly realms do the latest advances in theoretical physics lend credibility to the idea that otherworldly beings might reside in dimensions parallel to our own do the recorded voices of the dead known as electronic voice phenomena evp indicate that we may be able to communicate with these other realms was a secret message embedded within ancient texts that could only be revealed after we have attained the knowledge and technology necessary to understand it does this message offer a solution to the approaching environmental disaster that scientists warn will be more devastating to human civilization than any others in recorded history drawing from a variety of historical sources and years of meticulous research the author weaves together a compelling argument involving a range of seemingly disparate topics that when considered together formulate a radically new narrative concerning the history and destiny of the human race
