non stop india by mark tully jugaar can loosely be translated as muddling through or making do this is undoubtedly a valuable talent and has seen india through numerous crises which could have destabilised a country that is less adaptable four wars for example but while jugaar can be seen to have served india well in the past it has a downside it has led to a dangerous complacency the belief that as india has muddled through so many times before there is no need for urgency in tackling the problems it faces in non stop india veteran journalist mark tully draws on his unmatched knowledge of india garnered from thirty years of living in and reporting from the country to examine how this approach impacts on her much touted prospects of becoming an economic super power from maoist conflicts to huge industrial houses from the tiger project to farmer suicides from the ramayana to the remote valleys of the north east tully examines india's myriad negotiations with modernity and her prospects for the next century and beyond today india is likely to become one of the major economies of the twenty first century but many unresolved questions remain

about the sustainability of such growth and its effect on the stability of the nation veteran journalist mark tully draws on thirty years of reporting india and travels the length and breadth of the country to find the answers have the changes had any impact on the poor and marginalised how can the development of the country's creaking infrastructure be speeded up to match its huge advances in technology and industry with a gift for finding the human stories behind the headlines he looks at the pressing concerns in different areas of life such as governance business spirituality and ecology in revealing interviews with captains of industry and subsistence farmers politicians and dalits spiritual leaders and bandits mark tully captures the voices of the nation from the survival of india's languages and the protection of wildlife to the nation's thriving industries and colourful public affairs non stop india is a testament to india's vibrant history and incredible potential offering an unforgettable portrait of this emerging superpower at a pivotal moment of its history about the author sir mark tully was born in calcutta india in 1935 he was the chief of bureau bbc new delhi for twenty two years was knighted in the new year's honours list in 2002 and was awarded the padma bhushan in 2005 today his distinguished broadcasting career includes being the regular presenter of the contemplative bbc radio 4 programme something understood his books include no full stops in india the heart of india india in slow motion with his partner and colleague gillian wright and india's unending journey he lives in new delhi

## ***India in Slow Motion 2002***

for more than twenty years mark tully was the bbc chief of bureau in delhi and his name and his voice became synonymous with the country he had made his home for years he sent back dispatches interpreting the subcontinent to the outside world but the truth of india is remarkably resistant to reportage imbued with his love for the country and informed by his vast experience mark tully has woven together a series of extraordinary stories all the stories are set in uttar pradesh and tell of very

different lives of a barren wife who visits a holy man and subsequently conceives but is it a miracle or something more worldly of a son's carefully laid plot to take revenge against his father's murderer with a surprising twist when his case comes to court of a daughter persuaded by her friends to spurn an arranged marriage whose romance ends in blackmail of a man's inability to overcome the conventions of caste and go into business which leads to his wife breaking purdah and taking control of the family in these and in other stories mark tully delicately probes the nuances of life in india

since the indian economy was liberated from bureaucratic socialist controls in 1991 it has developed rapidly a country once renowned for the backwardness of its industries its commerce and its financial market is now viewed as potentially one of the major world economies of the twenty first century but there are many questions

which need to be asked about the sustainability of this rapid economic growth and its effect on the stability of the country have the changes had any impact on the poor and marginalised can india s democracy contain the mounting resentment of those left out of the new economic order can a high growth rate be sustained with india s notoriously corrupt and inefficient governance can the development of its creaking infrastructure be speeded up how is india going to feed itself unless agriculture is reformed this timely book will answer these questions through interviews with industrialists and cricketers god men and farmers plutocrats and former untouchables full of fascinating stories of real people at a time of great change it will be of interest to economists business people diplomats politicians as well as to those who love to travel and who take an interest in the rapid growth of one of the world s largest countries and what this means to us in the west
