the ieee 30 bus test case represents a portion of the american electric power system in the midwestern us as of december 1961 the data was kindly provided by iraj dabbagchi of aep and entered in ieee common data format by rich christie at the university of washington in august 1993

sensitivity analysis for the ieee 30 bus system using load

Nov 18 2023

in this paper we use the load flow to perform a sensitivity analysis of the ieee 30 bus system we find the maximum complex power flowing in each transmission line in case of no fault and in case of a single transmission line fault in the steady state condition
