i will always be somebody this assertion a startling one from a nineteenth century woman drove the life of
dr mary edwards walker the only american woman ever to receive the medal of honor president andrew johnson issued the award in 1865 in
recognition of the incomparable medical service walker rendered during the civil war yet few people today know anything about the woman so
well known even notorious in her own lifetime kaminski shares a different way of looking at the civil war through the eyes of a woman
confident she could make a contribution equal to that of any man this part of the story takes readers into the political cauldron of the
nation s capital in wartime where walker was a familiar if notorious figure mary walker s relentless pursuit of gender and racial equality
is key to understanding her commitment to a union victory in the civil war her role in the women s suffrage movement became controversial
and the us army stripped walker of her medal only to have the medal reinstated in 1977

Reports of the Town Officers of the Town of Leicester for the Year Ending 1889 the founder and president of the mothers union one of the
first and largest women s organisations mary sumner 1828 1921 was an influential educator and a force to be reckoned with in the church of
england of the late nineteenth and early twentieth centuries using the analytical tools of the sociologist pierre bourdieu sue anderson
faithful locates mary sumner s life and thought against social and religious networks in which she was restricted by gender yet privileged
by class and proximity to distinguished individuals this dichotomy is key to understanding the achievements of a woman who both replicated
and shaped victorian attitudes to women s roles in society to mary sumner mission and education meant the propagation of religious
knowledge through progressive pedagogy her activism was intended to promote social reform at home and nurture the growth of the british
empire with mothers wielding their political power as educators of future citizens the symbiotic relationship between church and state
concentrated power in the hands of a ruling class with which mary sumner identified and which she supported in her view the legitimacy of
national and imperial rule was intertwined with the moral force of anglicanism sue anderson faithful interprets mary sumner s lifelong work
in the light of these relationships contrasting her assertion of personal agency and an empowering discourse of motherhood with her
simultaneous reinforcement of patriarchy and class privilege
