Labour Law in an Era of Globalization

2004

throughout the industrial world the discipline of labor law has fallen into deep philosophical and policy crisis at the same time as new theoretical approaches make it a field of considerable intellectual ferment modern labor law evolved in a symbiotic relationship with a postwar institutional and policy agenda the social economic and political underpinnings of which have gradually eroded in the context of accelerating international economic integration and wage competition these essays which are the product of a transnational comparative dialog among academics and practitioners in labor law and related legal fields including social security immigration trade and development identify analyze and respond to some of the conceptual and policy challenges posed by globalization

An Introduction to Labor Law, Third Edition 2014-03-04

an introduction to labor law is a useful and course tested primer that explains the basic principles of the federal law regulating the relationship of employers to labor unions in this updated third edition which features a new introduction michael evan gold discusses the law that applies to union organizing and representation elections the duty to bargain in good faith economic weapons such as strikes and lockouts and the enforcement of collective bargaining agreements gold describes the structure and functions of the national labor relations board and of the federal courts in regard to labor cases and also presents a number of legal issues presently in contention between labor and management

Labor Laws and Their Administration

1949

this book prepares students for the practice of labor law in the contemporary workplace by introducing them to the basic principles of american labor law and many of the exciting issues that labor attorneys face the book varies from existing casebooks in several respects first the book is organized around contemporary problems as a means of teaching the core principles of labor law second although the primary focus of the book is the national labor relations act considerable attention is given to the railway labor act and public sector labor laws because of their growing relative importance in contemporary practice third the book examines the intersection of the practice of labor law with anti discrimination laws the fair labor standards act the family and medical leave act the employee retirement income security act and the occupational safety and health act finally the book examines the problems of labor practice in the global economy and includes examples that touc

Labor Law in the Contemporary Workplace 2009

derived from the renowned multi volume international encyclopaedia of laws this monograph on the usa not only describes and analyses the legal aspects of labour relations but also examines labour relations practices and developing trends it provides a survey of the subject that is both usefully brief and sufficiently detailed to answer most questions likely to arise in any pertinent legal setting both individual and collective labour relations are covered in ample detail with attention to such underlying and pervasive factors as employment contracts suspension of the contracts dismissal laws and covenant of non competition as well as international private law the author describes all important details of the law governing hours and wages benefits intellectual property implications trade union activity employers associations workers participation collective

bargaining industrial disputes and much more building on a clear overview of labour law and labour relations the book offers practical guidance on which sound preliminary decisions may be based it will find a ready readership among lawyers representing parties with interests in the usa and academics and researchers will appreciate its value in the study of comparative trends in laws affecting labour and labour relations

Labour Law in the USA 2018-04-23

labor and employment law in the united states is a unique and important treatise that in a single concise text covers all aspects of the law of work both in organized and unorganized workplaces it surveys the full range of legal principles and statutory and administrative structures and procedures that govern employment relations additionally it provides essential background information that places the law in context with the economic political and social forces which shape its development labor and employment law in the united states is a complete revision of professor goldman s earlier treatise labor law and industrial relations in the u s a the title change reflects the impact of developments in the law of the workplace during the past decade and a half with the resulting expansion of the treatise s coverage of the law and individual employment contracts as well as examination of new federal legislation such as the american with disabilities act the family and medical leave act and the plant closing act warn labor and employment law in the united states will serve equally well as a desk reference for lawyers and labor relations specialists and as a text for courses in industrial relations human resources and training programs this treatise was originally published as part of the international encyclopaedia for labour law and industrial relations

Brief Outline of Labor Law

Development in the United States 1964

labor law analysis and advocacy presents in detail but within a single volume the interpretation of the national labor relations act as developed by the federal courts and the national labor relations board the book explores the pertinent legal rules as currently interpreted and applied as well as the evolution and underlying purposes of the rules the persuasiveness of the court and nlr decisions and the significant open issues a unique and important feature is the treatment of matters of practice procedure and strategy that are of importance to the practicing attorney whether representing management labor employees or the government practice tips are interspersed throughout as advocate practice points translating the legal rules into advice and strategies these tips address the practicalities of labor law and set forth thoughtful advice for use in common real life situations from the perspective of both labor and management labor law analysis and advocacy is largely derived from a treatise in the hornbook series west publishing co written initially in 1976 by professor gorman and revised by professors gorman and finkin in 2004 the principal audiences for this publication are both generalist and specialist practitioners ranging from those interested in an introduction to basic labor law principles to those interested in the specifics of their application whether presenting cases before courts or the nlr or advising clients about concerted activities or collective bargaining labor law analysis and advocacy is also of value to federal judges and their law clerks and to students doing basic or advanced study in labor law

The Future of Labor Law 1988

whether you are a supervisor a business owner or an hr professional it is essential that you understand the laws and rules governing how one treats employees and interacts with unions in a comprehensive and accessible format labor law a basic guide to the national labor relations act provides a practice oriented

foundation on labor law the book sheds light on one of america s most important laws and one which is also perhaps the most misunderstood this book presents an overview of labor and employment laws such that managers may understand their rights as employers as well and their employees rights it covers an introduction to the topic of labor and employment law as well as a brief history within the united states other chapters deal with unions and union relations collective bargaining agreements grievances labor arbitration unfair labor practice proceedings and strikes and lockouts the author does not focus on complex regulations and convoluted case law but distills them to reveal the essence of the nlra and how it works as important as it is at times labor law can seem counter intuitive written by a highly experienced labor lawyer this book contains concise explanations in an easy to use format clearly delineating a process that can be fraught with traps for the unwary it supplies a quick reference that can be used in a crisis situation to understand the parameters of what you can and cannot do

Labor and Employment Law in the United States 1996-09-05

Foundations of Labor and Employment Law 2006

the shifting nature of employment practice towards the use of more precarious work forms has caused a crisis in classical labour law and engendered a new wave of regulation this timely

book deftly uses this crisis as an opportunity to explore the notion of precariousness or vulnerability in employment relationships arguing that the idea of vulnerability has been under theorised in the labour law literature lisa rodgers illustrates how this extends to the design of regulation for precarious work the book s logical structure situates vulnerability in its developmental context before moving on to examine the goals of the regulation of labour law for vulnerability its current status in the law and case studies of vulnerability such as temporary agency work and domestic work these threads are astutely drawn together to show the need for a shift in focus towards workers as vulnerable subjects in all their complexity in order to better inform labour law policy and practice more generally constructively critical labour law vulnerability and the regulation of precarious work will prove invaluable to students and scholars of labour and employment law at local eu and international levels with its challenge to orthodox thinking and proposals for the improvement of the regulation of labour law labour law institutions will also find this book of great interest and value

Labor Law and Practice in the Kingdom of Greece 1968

new authors michael harper and samuel estreicher tackle the tough questions central to a modern course in labor law in this extensive revision of bernard meltzer and stanley henderson s long respected casebook labor law cases materials and problems retaining a rigorous analytical focus on the arguments lawyers make before the nlrp in courts and in congress the fourth edition will challenge your students with questions such as why have unions in private firms declined from 35 percent of american workers in the 1950s to less than 12 percent today new features include pervasive integration of law and policy greater emphasis on issues of labor law reform new chapters on labor economics and labor theory new narratives notes and questions throughout a better balance between regulatory and deregulatory and labor

management and individual worker perspectives to help your students better understand the material the new co authors pay particular attention to the accessibility of this new edition through streamlined editing of cases enhanced textual explanations of economics and comparative law materials captions for all note material explanations of note cases frequent references to theoretical and empirical debates in the academic literature careful treatment of the evolution of labor law doctrine

Labor Law and Practice in Thailand **1964**

the labour laws of european democracies all underwent major transformations in the seven decades after the second world war following reconstruction these laws became an essential element in the building of welfare states in the 1980s and 1990s they were the target of neo liberal deregulation and at the beginning of the 21st century new flexible labour laws have attempted to integrate economic and social policy this book a sequel to the making of labour law in europe a comparative study of nine countries up to 1945 ed b hepple compares the similarities and differences in the ways in which eu member states reflected and shaped these general developments in the context of economic social and political changes over the period 1945 2004 note the publishers are issuing a reprint of the first volume the making of labour law in europe a comparative study of nine countries up to 1945 to coincide with publication of the sequel the great strength of the collection is on the focus on context with chapters looking at developments in labour market trends and structures of worker representation

Labor Law Analysis and Advocacy **2013-07-03**

now in its sixth edition labor law cases materials and problems offers students a modern analytically rigorous and practical

approach to the issues and challenges of labor law and labor policy written by well known scholars in the field this

through august 2019

Labor Law 2016

this text is designed to give business professionals a complete grasp of labor and employment law topics include the national labor relations act contract negotiations strikes unfair labor practices grievances and federal and state employment law

Handbook to the Labor Law of the United States (1896) 2008-06-01

study of judicial decisions taken under labour law in the usa in the context of their underlying value system comments on the implementation of such labour legislation as the national labour relations act and the wagner act of 1935 covers the right to strike labour disputes management control conditions of employment labour contracts collective bargaining and management attitudes references

The fundamentals of labor law 1919

modern labor law in the private and public sectors is a casebook that presents a truly modern approach to labor law in the united states modern labor law incorporates two modern trends in labor law the shift of union density from the private sector to the public sector and the growth of organizing outside the nlra process during the course of writing the authors have continued to update the content to reflect the changes in public sector labor laws in several states and the new debates over policy each chapter begins with cases and materials relating to private sector workers and also includes materials relating to the same issue in the context of public sector employment this book incorporates both these modern trends so that students entering the practice of labor law on the side of unions employers or government agencies will understand what they are likely to

encounter this book is structured around the life cycles of the organizing and collective bargaining processes the first part of this casebook provides a history of labor relations in the united states and the coverage of labor statutes in the private and public sectors it then moves to organizing and collective worker protests with one chapter mostly dedicated to modern alternatives to traditional union organizing and other chapters explaining the traditional labor law protections for worker protests this part also explores why and how the law of public sector labor relations developed so much later and in many ways so differently than private sector law the bulk of the rest of the book studies the life cycle of unions collective bargaining strikes economic weapons and impasse resolution in the public sector contract administration and secondary activity and related actions it concludes with three chapters that examine the rights of individual workers within their unions bargaining relationships in transition successorship and preemption
