American Cases on Contract 1901

this book reconsiders the foundations of contract law by clarifying the meaning of fairness and choice it shows how these ideas were muddled with rise of voluntarism and conceptualism in the nineteenth century contract was defined in term of the will of the parties even though often the parties are bound by terms to which they did not consciously assent and sometimes they are not bound by harsh terms to which they assented rules were formulated without regard to the purposes that contract law serves current theory and practice recognize these problems but cannot resolve them because they lack a clear idea of fairness in exchange they approach them by manipulating the idea of choice or by creating exceptions to previously accepted rules or by introducing vaguely conceived policy considerations economic approaches disregard fairness entirely this book revives a pre nineteenth century idea of fairness in exchange this idea is consistent with modern economic thought and can reconcile concerns about fairness party autonomy and the purposes that a contact serves for society and the parties themselves this book presents an account of contract law that is principled comprehensive systematic and operational in the sense that it

explains or criticizes what courts actually do it seeks to explain the enforceability of contracts unconscionability the effect of mistake and changed circumstances and problems of assent interpretation good faith and remedies

The principles of the American law of contracts at law and in equity 1892

an authoritative form book with expert guidance on negotiating drafting contracts in the major areas of the entertainment industry including entertainment software 9 volumes

American Cases on Contract 1899

this book is a history of american contract law around the turn of the twentieth century it meticulously details shifts in our conception of contract by juxtaposing scholarly accounts of contract with case law and shows how the cases exhibit conflicts for which scholarship offers just one of many possible answers breaking with conventional wisdom the author argues that our current understanding of contract is not the outgrowth of gradual refinements of a centuries old idea rather contract as we now know it was shaped by a revolution in private law undertaken toward the end of the nineteenth century when legal scholars established calculating promisors as the centerpiece of their notion of contract the author maintains that the revolution in contract thinking is best understood in a frame of reference wider than the rules governing the formation and enforcement of contracts that frame of reference is a cultural negotiation over the nature of the individual subject and the role of the individual in a society undergoing transformation areas of central concern include the enforceability of promises to make gifts the relationship of contracts to speculation and gambling and the problem of incomplete contracts

American Cases on Contract 2017-12-26

commercial law commercial law is a general term used to cover the legal rules which relate most directly to everyday commercial transactions it is a term of no exact boundary but most commercial law is based in one way or another on the law of contracts which is one of the largest subjects in the law bills and notes for instance are special forms of contracts in order to understand business law at all therefore it is necessary at the outset to have some knowledge of the fundamental principles of the law of contracts definition of contracts what is a contract simply a promise or set of promises which the law enforces as binding any promise if it is binding is a contract or part of a contract so the law of contracts in their formation resolves itself into this what promises are binding a man may make all sorts of promises but when has he a right legally to say i have changed my mind i am not going to do what i said i would and when will he be liable in damages if he fails to do as he agreed contract terms explained there are

certain terms in contracts which the student will find repeatedly mentioned and with which he should be familiar at the outset for example contracts are spoken of as express contracts and implied contracts by an express contract we mean a contract the terms of which are fully set forth implied contracts are pg 25 contracts the terms of which are not fully stated by the parties there is a mutual agreement and promise but the agreement and promise have not been expressly put in words if i say to a man i will buy your horse dobbin for 100 and he replies i will sell you the horse at that price there is an express contract i step into a taxi and simply say to the driver take me to the union station the driver says nothing but takes me there here is an implied contract by my conduct i impliedly agree to pay him the legal rate for the distance carried formal and informal contracts contracts are sometimes also divided into formal contracts and simple or parol contracts there are three kinds of formal contracts recognized in our system of law 1 promises under seal 2 contracts of record such as judgments and recognizances 3 negotiable instruments of the three it may be most difficult to understand why a judgment is included as a form of contract because a judgment is simply a judicial termination of a fact entered in the office of the county clerk and generally a lien on the real property owned by the judgment debtor the sole reason apparently for calling a judgment a contract is that an action of debt may be brought in a court of law upon such a judgment sealed contracts and negotiable paper will be taken up in a later chapter simple or parol contracts are those not embraced in the three previous classifications which constitute the formal contracts the term parol is a little ambiguous as it is sometimes used as opposed to a written pg 26 contract meaning simply an oral one and at other times it is used as opposed to the three previous formal contracts unilateral and bilateral contracts contracts are also divided into unilateral and bilateral contracts in a unilateral contract the contract imposes obligations on one party only a promissory note is an example of a unilateral contract in a bilateral contract obligation is imposed on both parties john and mary become engaged to each other this is a bilateral contract and either may sue the other for a breach most important results flow from the distinction between unilateral and bilateral contracts this we shall consider later void voidable and unenforceable contracts contracts are also divided into void voidable and unenforceable contracts strictly speaking a void contract is no contract at all some statutes provide that no action shall be brought on certain contracts and declare them absolutely void a voidable contract is one which is good until the option of avoiding it is availed of by the party who has the option for example an infant with an income of 2000 a year contracts for the delivery of a packard automobile on june 1 the car being a luxury makes the contract with the infant voidable on his part and he may before june 1 repudiate the contract and not be liable in a suit for breach of contract or he may if he chooses abide by the contract take the car and pay the purchase price when it is delivered an unenforceable contract is one which in itself is perfectly pg 27 good as a contract but because of some rule of law cannot be enforced for example a agrees orally with the owner of 1 broadway to buy that property for 1 000 000 the terms of the contract are understood by both parties this contract is not enforceable because as we shall see later the statute of frauds

requires every contract for the sale of real property to be in writing contracts under seal there are two ways of making promises binding and unless the promisor fulfils the requisites of one or the other of these two ways his promise will not be binding the first of these ways relates to the form in which the promise is made the second relates to the substance of the transaction irrespective of the form the way to make a promise binding by virtue of its form is to put it in writing and attach a seal to the writing it is often thought that written promises are binding in any event or that a promise that is not written is not binding in any event neither of these propositions however is true a promise is not binding merely because it is in writing it is necessary that something more shall be done not only must it be written but a seal must be attached in order to make the promise binding by virtue of its form everyone is familiar with the common ending in written contracts witness my hand and seal that is my signature and seal
