## El programa de 1872, del Partido Nacional 1942

in the second half of the twentieth century dominicans became new york city's largest and poorest new immigrant group they toiled in garment factories and small groceries and as taxi drivers janitors hospital workers and nannies by 1990 one of every ten dominicans lived in new york a tale of two cities tells the fascinating story of this emblematic migration from latin america to the united states jesse hoffnung garskof chronicles not only how new york itself was forever transformed by dominican settlement but also how dominicans lives in new york profoundly affected life in the dominican republic a tale of two cities is unique in offering a simultaneous richly detailed social and cultural history of two cities bound intimately by migration it explores how the history of burgeoning shantytowns in santo domingo the capital of a rural country that had endured a century of intense u.s. intervention and was in the throes of a fitful modernization evolved in an uneven dialogue with the culture and politics of new york's dominican ethnic enclaves and vice versa in doing so it offers a new window on the lopsided history of u.s. latin american relations what emerges is a unique fusion of caribbean latin american and u.s. history that very much reflects the complex global world we live in today

## Official Gazette 1990

this monograph is devoted to a new class of non commutative rings skew poincaré birkhoff witt pbw extensions beginning with the basic definitions and ring module theoretic homological properties it goes on to investigate finitely generated projective modules over skew pbw extensions from a matrix point of view to make this theory constructive the theory of gröbner bases of left right ideals and modules for bijective skew pbw extensions is developed for example syzygies and the ext and tor modules over these rings are computed finally applications to some key topics in the noncommutative algebraic geometry of quantum algebras are given including an investigation of semi graded koszul algebras and semi graded artin schelter regular algebras and the noncommutative zariski cancellation problem the book is addressed to researchers in noncommutative algebra and algebraic geometry as well as to graduate students and advanced undergraduate students

## *Index-catalogue of Medical and Veterinary Zoology* 1978

featuring roughly sixty specially commissioned essays by an international cast of leading rhetoric experts from north america europe and great britain the handbook will offer readers a comprehensive topical and historical survey

of the theory and practice of rhetoric from ancient greece and rome through the middle ages and enlightenment up to the present day
