

Free pdf Guide user jcb 214 (2023)

This document is a user guide for a computer-based economic analysis program. It describes the program's capabilities and provides instructions for its use. The program is designed to help users evaluate silvicultural alternatives from an economic point of view. Subsequent modifications to the prognosis model have rendered the previous version obsolete. This user's guide covers a new computer model which is compatible with version 5.1 of the prognosis model and expands its economic analysis capabilities.

The program is available on a 400 micro computer. It requires 100K of memory. The program is written in BASIC and runs on a monoqlo computer. The program is divided into four parts: 1. Introduction, 2. Installation, 3. Operation, and 4. Appendix. The program is available on a 400 micro computer. It requires 100K of memory. The program is written in BASIC and runs on a monoqlo computer. The program is divided into four parts: 1. Introduction, 2. Installation, 3. Operation, and 4. Appendix.
