May 10 2024

will the mxc still make a decent trail bike it doesn't have a headlight or electric start although i was under the impression that none of the older 300s had electric starters the owner insists that the only differences between the two models are that the exc has a headlight and e start

300 mxc vs 300 exc article in this months dirt bike mag

Apr 09 2024

the mxc has the wiring for the headlight but only has the 35 watt ignition the exc has a 110 watt ignition this gives the mxc a lighter flywheel which translates into quicker revver i have been in both 05 bikes

exc lights speedo wide ratio transmission and woods suspension mxs no lights or speedo close ratio transmission and stiffer suspension good luck the mxs does have a coil so you can hook up lights

mxs vs exc in the real world the dirt bike motocross

Dec 05 2023

1 ok i know the 300 mxs and the exc share 1st and 2nd gear after that they are different ratios but when riding is it

noticable on the exc is there a gap between 2nd and 3rd
does 3rd seem to tall in the woods my buddy has a 380 exc
and i don t notice it

exc vs mxc tranny diff the dirt bike motocross

Nov 04 2023

i find that the mxc works better for me when it s all woods
and no flat out staight line open areas in those places i miss
the exc tranny but the mxc s narrower gap between 2nd and
3rd makes 3rd gear more usable in the woods
