Design and Calibration of the NBS Isotropic Electric-field Monitor [EFM-5], 0.2 to 1000 MHz 1981 in the recent years there has been rapid advances in the field of digital electronics and microprocessor this book is intended to help

students to keep pace with these latest developments the present book is revised version of earlier book introduction to digital computers by the same author now this book is written in a lucid and simple language which gives clear explanation of basics of digital electronics computers and microprocessors

20 Years at Parade Rest 2011-03 world first microprocessor intel 4004 a 4 bit microprocessor came in 1971 forming the series of first generation microprocessor science then with more and advancement in technology there have been five generations of microprocessors however the 8085 an 8 bit microprocessor is still the most popular microprocessor the present book provided a simple explanation about the microprocessor its programming and interfacing the book contains the description mainly of the 8 bit programmable interrupt interval timer counter 8253 programmable communication interface 8251 usart 8251a and intel 8212 8155 8256 8755 and 8279
