the main drivers behind the homogenisation of world markets due to firms internationalization strategies and the social practices that firms impose this book argues that this is not entirely the case due to the heterogeneity of firms and the diversity of strategies pursued it highlights the diversity and forms of internationalization and the preference for regionalization rather than globalization that has occurred over the past decade this book looks specifically at the american and asian car industry among the various factors greatly influencing the development process of future powertrain technologies the trends in climate change and digitalization are of huge public interest to handle these trends new disruptive technologies are integrated into the development process they open up space for diverse research which is distributed over the entire vehicle design process this book contains recent research articles which incorporate results for selecting and designing powertrain topology in consideration of the vehicle operating strategy as well as results for handling the reliability of new powertrain components the field of investigation spans from the identification of ecologically optimal transformation of the existent vehicle fleet to the development of machine learning based operating strategies and the comparison of complex hybrid electric vehicle topologies to reduce co2 emissions recently there has been increased demand for combining locally customized services to the economies of the scale of worldwide operations in this environment competitiveness calls countless occasions and met his brazilian wife anita who eloped with him in 1839 from then on she would share in garibaldi s personal and political odyssey first in the breakaway republic of rio grande do sul in southern brazil and then as montevideo s admiral and general in the uruguayan civil war richard bourne breathes life and understanding into these spectacular south american adventures which also shed light on the creation of italy garibaldi s redshirts liberated sicily and naples wearing ponchos adopted by his italian legion in montevideo his ideas his charismatic command of volunteers and his naive dislike of politicking were all infused by his earlier experiences in south america bourne combines historical research with his travels in uruguay and southern brazil to explore contemporary awareness of and reflection on how the past can influence or be transformed by the needs of today now at a time of narrow identity politics garibaldi s unifying zeal and advocacy
