Empire by Invitation

2018-04-01

Michel Gobat traces the untold story of the rise and fall of the first U.S. overseas empire to William Walker, a believer in the nation's manifest destiny to spread its blessings not only westward but abroad as well. In the 1850s, Walker and a small group of U.S. expansionists migrated to Nicaragua, determined to forge a tropical empire of liberty. His quest to free Central American masses from allegedly despotic elites initially enjoyed strong local support from liberal Nicaraguans who hoped U.S. style democracy and progress would spread across the land. As Walker's group of filibusters proceeded to help Nicaraguans battle the ruling conservatives, their seizure of power electrified the U.S. public and attracted some 12,000 colonists, including moral reformers. But what began with promises of liberation devolved into a reign of terror. After two years, Walker was driven out. Nicaraguans' initial embrace of Walker complicates assumptions about U.S. imperialism. *Empire by Invitation* refuses to place Walker among American slaveholders who sought to extend human bondage southward. Instead, Walker and his followers, most of whom were northerners, must be understood as liberals and democracy promoters. Their ambition was to establish a democratic state by force, much like their successors in liberal internationalist and neoconservative foreign policy circles. A century later, in Washington, D.C., Walker and his fellow imperialists inspired a global anti-U.S. backlash. Fear of a northern colossus precipitated a hemispheric alliance against the United States, and

Food is a signifier of power for both adults and children a sign of both inclusion and exclusion and of conformity and resistance many academic disciplines from sociology to literary studies have studied food and its function as a complex social discourse and the wide variety of approaches to the topic provides multidisciplinary frames for understanding the construction and uses of food in all types of media including children's literature *Table Lands: Food in Children's Literature* is a survey of food's function in children's texts showing how the sociocultural contexts of food reveal children's agency authors Kara K. Keeling and Scott T. Pollard examine texts that vary from historical to contemporary noncanonical to classics and Anglo-American to multicultural traditions including a variety of genres formats and audiences realism fantasy cookbooks picture books chapter books YA novels and film *Table Lands* offers a unified approach to studying food in a wide variety of texts for children spanning nearly 150 years of children's literature Keeling and Pollard's analysis covers a selection of texts that show the omnipresence of food in children's literature and culture and how they vary in representations of race region and class due to the impact of these issues on food furthermore they include not only classic children's books such as *Winnie the Pooh* but recent award-winning multicultural novels as well as cookbooks and even one film Pixar's *Ratatouille*

A Rape in the Early Republic

2017-03-21

On January 14, 1806, Sidney Hanson was raped by John Deskins on a rough gravel path in the woods in Tazewell County, Virginia. In the early nineteenth century, trials for rape were rare. Scanty court records typically lacked the detail needed to reconstruct the lives of those involved and evaluate the social and physical setting of the crime. Yet the events on that

fateful day in 1806 would be the exception in a rape in the early republic randal l hall reproduces the complete trial testimony of alexander smyth the prosecutor for hanson s trial smyth s detailed record offers a revealing glimpse into how early rape cases moved through the legal system first at the local level and then in the state s recently created district court system it also shows that deskins was not the only one on trial hanson s character was being scrutinized as well hall s introduction rather than offering an analysis of smyth s documents provides important context and highlights historical themes that hanson s situation illustrates featuring classroom discussion ideas and a list of suggested reading a rape in the early republic will be a valuable resource for students and scholars as well as anyone interested in gender law and society in the early republic

Believing Thinking, Bounded Theology

2016-01-28

surprisingly little attention has been given in recent scholarship to the work of Emil Brunner 1889 1966 one of the leading neo orthodox theologians of the twentieth century but his influence on modern theology persists to this day offering a path to philosophical truth through faith in believing thinking bounded theology Cynthia Bennett Brown explores the nature of and

limits to theological thinking in brunner s work what results from this study is an encounter with a thoroughly biblical warmly pastoral carefully intellectual and insistently christocentric exposition of the christian faith that remains relevant for theology and life today

Remembrance of Pacific Pasts

2020-02-29

how does one describe the pacific s pasts the easy confidence historians once had in writing about the region has disappeared in the turmoil surrounding today s politics of representation earlier narratives that focused on what happened when are now accused of encouraging myths of progress remembrance of pacific pasts takes a different course it acknowledges history s multiplicity and selectivity its inability to represent the past in its entirety as it really was and instead offers points of reference for thinking with and about the region s pasts it encourages readers to participate in the historical process by constructing alternative histories that draw on the volume s chapters the book s thirty four contributions written by a range of authors spanning a variety of styles and disciplines are organized into four sections the first presents frames of reference for analyzing the problems poetics and politics involved in addressing the region s pasts today the second considers early islander western contact

focusing on how each side sought to physically and symbolically control the other the third deals with the colonial dynamics of the region the tensions of empire that permeated imperial rule in the pacific the fourth explores the region s postcolonial politics through a discussion of the varied ways independence and dependence overlap today remembrance of pacific pasts includes many of the region s most distinguished authors such as albert wendt greg dening epeli hau ofa marshall sahlins patricia grace and nicholas thomas in addition it features chapters by well known writers from outside pacific studies edward said james clifford richard white and gyan prakash which help place the region s dynamics in comparative perspective by moving pacific history beyond traditional empirical narratives to new ways for conversing about history by drawing on current debates surrounding the politics of representation to offer different ways for thinking about the region s pasts this work has relevance for students and scholars of history anthropology and cultural studies both within and beyond the region

Networked Governance and Transatlantic Relations

2014-04-29

in today s complex and interconnected world scholars of international relations seek to better understand challenges spurred by intensified global communication and interaction the complex connectedness of modern society and politics compels us to investigate the pattern of interconnections among actors who inhabit social and political spaces gabriella paár jákli s study aims to advance theory and practice by examining the networks used by specialists in north america and europe to achieve their policy goals in the area of science and technology her book suggests that to overcome policy problems transnationally three critical factors should be considered first as science and technology policy becomes increasingly critical to resolving global issues it should be regarded as an integral element of the foreign policy process second as liberal international relations theory argues the increasing role of ngos must be taken seriously alongside states as vital agents of policy reform third as transatlantic relations remain center to maintaining the global order they must be reconsidered paar jakli assesses the role of digital networks as facilitators of regional cooperation utilizing various techniques of social network analysis her research indicates an active and structurally

discernible network in cyberspace among transatlantic organizations and demonstrates the role of virtual networks as facilitators of cooperative arrangements in transatlantic relations. This original research uses social network analysis to investigate transatlantic cooperation, a new approach that will be noteworthy to network and transatlantic scholars as well as policymakers.

Growth Dynamics in New Markets

2018-04-17

An innovative simulation-based approach for strategic decision making when launching new products. *Growth Dynamics in New Markets* contains a dynamic case study and simulations that reveal what it takes to successfully introduce a product into a new market, written by experts in the field. The text and companion website include a compelling simulation game and a variety of simulation models. Using the simulation game and computer models, readers are challenged to design and put in place a strategy about product introduction and competitive behavior. The simulation models build on each other to help to arrive at a comprehensive understanding of product uptake as well as market development and competitive dynamics. The authors present different approaches for enhancing the models and offer guidance for applying them to real-world problems. This groundbreaking text clearly shows how to develop maps of dynamic systems, formulate candidate policies, and evaluate them based on the simulations. It also reveals how to use computer simulations to understand what decisions could and should be made, when to make them, and how intensive they should be. The authors present an interactive approach that contains an innovative combination of a case study, simulation game, and simulation models for developing the skills to introduce a product to the marketplace. Offers targeted questions that help to enhance the understanding of the material presented. Presents detailed answers and solutions to a number of real-world business challenges. Features video tutorials that explain how the simulation experiments are implemented and interpreted. Aids in the development of an action-oriented, pragmatic understanding of the underlying forces in business. Designed for students of business administration management.

Global security

2009-08-02

this report into the global security concerns related to afghanistan and pakistan recommends that the uk government should re focus its wide ranging objectives in afghanistan and concentrate its limited resources on one priority security the uk has experienced mission creep from its initial goal of countering international terrorism into the realms of counter insurgency counter narcotics protection of human rights and state building the committee recommends that the lead international role on counter narcotics should be transferred away from the uk the committee recognises that the security situation in afghanistan will remain precarious for some time to come but there can be no question of the international community abandoning afghanistan the issue at stake must be how best the uk and its allies can allocate responsibilities and share burdens so as to ensure that the country does not once again fall into the hands of those who seek to threaten the security of the uk and the west the committee says that a negotiated afghan led political settlement with broad popular support

represents the only realistic option for long term security and stability in afghanistan there can be no serious prospect of meaningful discussions until coalition forces and the afghan national security forces gain and retain the upper hand on security across the country including in helmand and are then able to negotiate from a position of strength the international effort by the un eu and individual countries in afghanistan since 2001 has delivered much less than it promised and its impact has been significantly diluted by the absence of a unified vision and strategy grounded in the realities of afghanistan s history culture and politics

this volume acknowledges the centrality of comic invective in a range of oratorical institutions especially forensic and symbouleutic and aspires to enhance the knowledge and understanding of how this technique is used in such contexts of both greek and roman

oratory despite the important scholarly work that has been done in discussing the patterns of using invective in greek and roman texts and contexts there are still notable gaps in our knowledge of the issue the introduction to and the twelve chapters of this volume address some understudied multi genre and interdisciplinary topics first the ways in which comic invective in oratory draws on or has implications for comedy and other genres or how these literary genres are influenced by oratorical theory and practice and by contemporary socio political circumstances in articulating comic invective and targeting prominent individuals second how comic invective sustains relationships and promotes persuasion through unity and division third how it connects with sexuality the human body and male female physiology fourth what impact generic dichotomies as for example public private and defence prosecution may have upon using comic invective and fifth what the limitations in its use are depending on the codes of honour and decency in ancient greece and rome
